

RC Transformation in New Hampshire

Recommendation: Close Paul Doble Army Reserve Center in Portsmouth, NH; and relocate units to a new Armed Forces Reserve Center and associated training and maintenance facilities adjacent to Pease Air National Guard Base, NH, if the Army is able to acquire suitable land for the construction of the facilities. The new AFRC and complex will have the capability to accommodate New Hampshire National Guard units from the following New Hampshire ARNG Armories: Rochester, Portsmouth, Somersworth and Dover, New Hampshire, if the state decides to relocate those National Guard units.

Justification: This recommendation transforms Reserve Component facilities in the State of New Hampshire. The implementation of this recommendation will enhance military value, improve homeland defense capability, greatly improve training and deployment capability, create significant efficiencies and cost savings, and is consistent with the Army's force structure plans and Army transformational objectives.

This recommendation is the result of a state-wide analysis of Reserve Component installations and facilities conducted by a team of functional experts from Headquarters, Department of the Army, the Office of the State Adjutant General, and the Army Reserve Regional Readiness Command.

This recommendation closes one Armed Forces Reserve Center in Portsmouth, New Hampshire and constructs a multi-component, multi-functional Armed Forces Reserve Center on land adjacent to Pease Air National Guard Base. The Department understands that the State of New Hampshire will close four New Hampshire Army National Guard Readiness Centers: Rochester, Portsmouth, Somersworth and Dover. The Armed Forces Reserve Centers will have the capability to accommodate these units if the State decides to relocate the units from the closed facilities into the new AFRC.

This recommendation considered feasible locations within the demographic and geographic areas of the closing facilities and affected units. The site selected was determined as the best location because it optimizes the Reserve Components ability to recruit and retain Reserve Component soldiers and to train and mobilize units impacted by this recommendation.

This recommendation provides the opportunity for other Local, State, or Federal organizations to partner with the Reserve Components to enhance Homeland Security and Homeland Defense at a reduced cost to those agencies.

Although not captured in the COBRA analysis, this recommendation avoids an estimated \$14.6M in mission facility renovation costs and procurement avoidances associated with meeting AT/FP construction standards and altering existing facilities to meet unit training and communications requirements. Consideration of these avoided costs would reduce costs and increase the net savings to the Department of Defense in the 6-year BRAC implementation period, and in the 20-year period used to calculate NPV.

Payback: The total estimated one-time cost to the Department of Defense to implement this recommendation is \$54.2M. The net of all costs and savings to the Department of Defense during the implementation period is a cost of \$44.6M. Annual recurring savings to the Department after implementation are \$3.1M with a payback expected in 26 years. The net present value of the costs and savings to the Department over 20 years is a cost of \$12.9M.

Economic Impact on Communities: Assuming no economic recovery, this recommendation could result in a maximum potential reduction of 73 jobs (44 direct and 29 indirect jobs) over the 2006 – 2011 period in the Rockingham County-Strafford County, NH metropolitan division, which is less than 0.1 percent of economic area employment. The aggregate economic impact of all recommended actions on this economic region of influence was considered and is at Appendix B of Volume I.

Community Infrastructure Assessment: A review of the community attributes revealed no significant issues regarding the ability of the infrastructure of the communities to support missions, forces, and personnel. There are no known community infrastructure impediments to implementation of all recommendations affecting the installations in this recommendation.

Environmental Impact: Additional operations at Pease-Newington Air Reserve Base may impact sensitive resource areas and constrain operations. A wetlands survey may need to be conducted to determine impact to wetlands at Pease-Newington. This recommendation has no impact on air quality, cultural, archeological, or tribal resources; dredging; marine mammals, resources, or sanctuaries; noise; threatened and endangered species or critical habitat; waste management; or water resources. This recommendation will require spending approximately \$0.2M for waste management and/or environmental compliance activities. These costs were included in the payback calculation. This recommendation does not otherwise impact the costs of environmental restoration, waste management, and environmental compliance activities. The aggregate environmental impact of all recommended BRAC actions affecting the installations in this recommendation has been reviewed. There are no known environmental impediments to implementation of this recommendation.

Recommendation Supporting Information

RC Transformation in New Hampshire (AFRC Pease-Newington, NH)

Competing Recommendations and Other Information:

There are no potential or known competing recommendations that could conflict with this recommendation.

Force Structure Capabilities:

The Reserve Component continues to be an important and necessary part of the Army's force structure to meet its current and future operational requirements. This recommendation is consistent with and supports the Army's Force Structure Plan submitted with the FY 06 Budget Documents, and provides the necessary capacity and capability to support the units affected by this action. It considers essential manning, training, organizing, equipping, and sustaining requirements, as well as approved transformational initiatives to ensure the Army and Department of Defense have the capabilities necessary to meet mission requirements.

MVA Results:

The Department of the Army has more than 4000 Reserve Component facilities across the United States. Because of the sheer numbers of these facilities, the process the Army had developed for arriving at a quantitative military value score for its 97 major installations (including leases) was not practical for its Reserve Component facilities. Additionally, if measured by the active process, which valued training lands and ranges among other things, the Reserve Component facilities would not have compared well against the active installations. For these reasons, it was the military judgment of the Department of the Army that it needed to craft a unique approach for ascertaining the overall military value of Reserve Component facilities. A team of functional experts from Headquarters, Department of the Army, the Office of the State Adjutant General, and the Army Reserve Regional Readiness Command conducted a military value assessment of state-owned and Army Reserve sub-threshold facilities. These facilities were assessed, specifically against DoD Criteria one through four, in their ability to support joint stationing options that enhance Army and DoD transformation; their ability to enhance Reserve Component operations training, mobilization and power projection capabilities; their ability to sustain recruiting and retention; their ability to consolidate functions wherever appropriate, to include schools, personnel, logistics, and other management functions; their ability to relocate Reserve Component units and activities from leased and encroached properties that do not meet anti-terrorism and force-protection requirements onto established military facilities; and their ability to ensure the future readiness of Army forces while reducing the long-term costs of sustaining the base structure. The assessments were certified by the Office of the Adjutant General and the Army Reserve Regional Readiness Command, validated by the Army Audit Agency, analyzed by the Army Basing Study Group, and utilized for deliberations.

Recommendation Supporting Information

RC Transformation in New Hampshire (AFRC Pease-Newington, NH)

Recommendation closes lower value installations (in terms of the condition of the facilities, encroachment, proper size building, military vehicle parking and storage for the type of unit) and consolidates into a higher value installation.

This recommendation will significantly improve readiness and home station training opportunities by collocating U.S. Army Reserve and Army National Guard Combat and Combat Service Support units. This collocation of multiple and varied units will allow for more effective communications, more realistic training venues and create cross-functional career development opportunities. The new AFRC will greatly enhance distributed learning and professional skills / sustainment training. Implementation of this recommendation will greatly enhance individual soldier and unit readiness by providing modern facilities for Reserve Component personnel and units to execute the Train/Alert/Deploy process in support of mobilization/demobilization operations. The new facility's close proximity to Pease Air Guard Base, the Port of New Hampshire and a railhead enhance this site's ability to support deployment.

Collocation of multiple units into a joint use, multi-functional center provides substantially improved homeland defense capabilities throughout the State of New Hampshire. Upon activation of the unit/units for emergency contingency missions, the center will provide critical enhanced communications infrastructure and staging areas for a more rapid response. The capacity of the facility allows for a response by larger, more capable task organized forces. Due to the existence of federally controlled enclaves and secure communication capabilities, the center may also provide a platform for interagency participation and cooperation in response to a wide range of emergency homeland defense situations.

This recommendation will enhance recruitment and retention of the men and women in the Reserve Component by setting the conditions for better home station training and increased support for family readiness operations for mobilized reservists.

Capacity Analysis Results:

A team of functional experts from Headquarters, Department of the Army, the Office of the State Adjutant General, and the Army Reserve Regional Readiness Command utilized the Department of Defense Guard and Reserve Unit Facilities System (GRUFS) database to conduct an installation inventory and capacity analysis of state-owned and Army Reserve sub-threshold facilities. These facilities were assessed against their ability to support Reserve Component training, operations, force structure stationing, mobilization, future expansion, potential surge, and anti-terrorism and force-protection requirements. Facilities that did not meet these requirements were identified for further

Recommendation Supporting Information

RC Transformation in New Hampshire (AFRC Pease- Newington, NH)

analysis and potential closure or realignment. The assessments were certified by the Office of the Adjutant General and the Army Reserve Regional Readiness Command, validated by the Army Audit Agency, analyzed by the Army Basing Study Group, and utilized for deliberations.

Closing locations do not have sufficient capacity for consolidation or expansion and no existing active duty installations are feasible, so a new location that can support the consolidated facility has been located. Municipal services are available in the area.

The new AFRC will provide capacity to meet current and future mission requirements, including increased surge capability for unforeseen missions and mobilization and modified direct deployment requirements. A new AFRC is required to correct deficiencies in the availability and condition of the land and the facility currently in use by the affected Reserve Component units. Current properties and facilities do not meet Anti-terrorism/Force Protection (AT/FP) construction standards and they are surrounded by incompatible land uses that prohibit necessary stand off distances.

The existing facilities are outdated and can no longer support the current/evolving force structure/equipment changes and associated training requirements. The units affected by this recommendation require 258,166 Usable Square Feet (USF) of space while the closing facilities provided only 98,230 USF.

Summary:

PIMS# 234 AFRC Pease AFB, NH USA# 0219

Transform Reserve Component facilities throughout the State of New Hampshire through the following actions: close Paul Doble Army Reserve Center in Portsmouth, NH; and relocate units to a new Armed Forces Reserve Center and associated training and maintenance facilities adjacent to Pease Air National Guard Base, NH on property leased by the US Air Force to Pease Development Authority. The new AFRC and complex will have the capability to accommodate New Hampshire National Guard units from the following New Hampshire ARNG Armories: Rochester, Portsmouth, Somersworth and Dover, New Hampshire, if the state decides to relocate those National Guard units.

FOOTNOTES FOR SCREEN ONE

=====

PIMS# 234 AFRC Pease AFB, NH USA# 0219

Transform Reserve Component facilities throughout the State of New Hampshire through the following actions: close Paul Doble Army Reserve Center in Portsmouth, NH; and relocate units to a new Armed Forces Reserve Center and associated training and maintenance facilities adjacent to Pease Air National Guard Base, NH on property leased by the US Air Force to Pease Development Authority. The new AFRC and complex will have the capability to accommodate New Hampshire National Guard units from the following New Hampshire ARNG Armories: Rochester, Portsmouth, Somersworth and Dover, New Hampshire, if the state decides to relocate those National Guard units.

FOOTNOTES FOR SCREEN TWO

=====

Used certified COBRA datacall from States/RRC

FOOTNOTES FOR SCREEN THREE

=====

Misc support equipment required to be moved to new location.

Source = certified data call

FOOTNOTES FOR SCREEN FIVE

=====

One time unique cost: \$1,372,160 to pay off lease cost (2006 thru 2010) for current facility. Lease is paid to the USAF as land is part of a previous BRAC round and is under control of Pease Development Authority. Current building (constructed in 2000) on this property has an estimated 2004 value of \$19,030,000. This building value was not added as a one time cost as there is a construction cost for a new facility already built in the COBRA model. Current building, if purchased; could be in lieu of new construction. Purchase would be more cost effective.

One-time cost for utilities calculated using the Army's Support Utility Tool = \$7884K

No environmental costs are allocated for the National Guard facilities.

\$8K EBS for Doble USARC closing facility.

FY06 \$96K NEPA cost assessment provided by US Air Force.

FY07 \$50K Air conformity analysis cost provided by US Air Force.

Activity Mission Savings are on file w customer (94th RRC) as MFR 21-001,002,003: Total for Somersworth (\$130.9K), Portsmouth (\$124.1K), Rochester (\$139.34K), Doble (\$121.85K) = \$516.1K

Closing facility non-payroll federal BOS x .75 joint efficiency factor=\$83,940 for a new AFRC facility.

FOOTNOTES FOR SCREEN SIX

=====

TAA Reductions

Drilling Reserve Component Personnel reduction numbers are based on unit inactivation's using a full time equivalent (FTE) formula. FTE = number of personnel x 65 days per year (48 IDT days plus 17 days of annual training) divided by 365 days. Officer and enlisted numbers are calculated separately.

FOOTNOTES FOR SCREEN SEVEN

=====

New construction to meet transformational objectives.

Facilities include an AFRC, General Purpose Instruction Building, Controlled Humidity Storage and Covered

Economic Impact Report

This report depicts the economic impact of the following Scenarios:

USA-0219: RC Trans in NH (Pease)

The data in this report is rolled up by Action

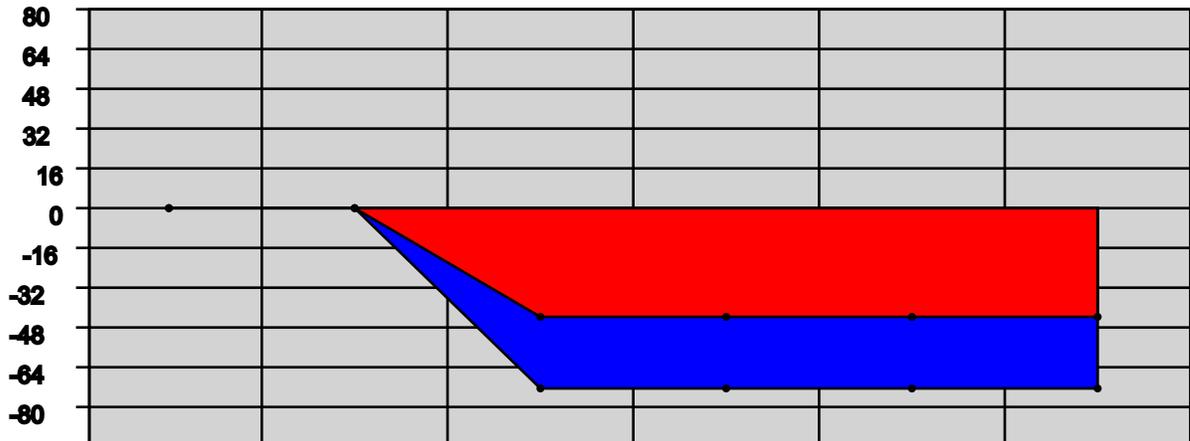

ECONOMIC IMPACT DATA

Scenario: RC Trans in NH (Pease)
Economic Region of Influence(ROI): Rockingham County-Strafford County, NH Metropolitan Division
Base: Pease International Trade Port AGS
Action: TAA

Overall Economic Impact of Proposed BRAC-05 Action:

ROI Population (2002):	403,722
ROI Employment (2002):	238,671
Authorized Manpower (2005):	337
Authorized Manpower(2005) / ROI Employment(2002):	0.14%
Total Estimated Job Change:	-73
Total Estimated Job Change / ROI Employment(2002):	-0.03%

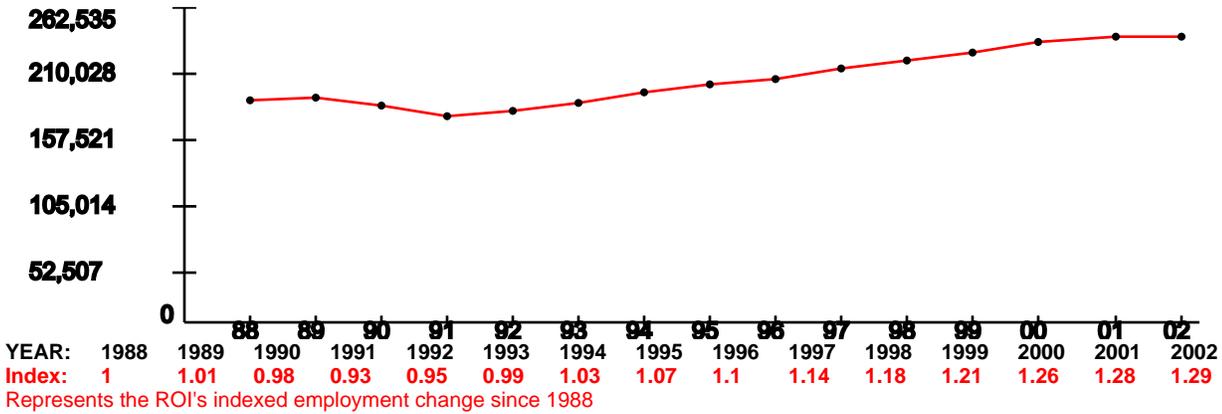

Cumulative Job Change (Gain/Loss) Over Time:

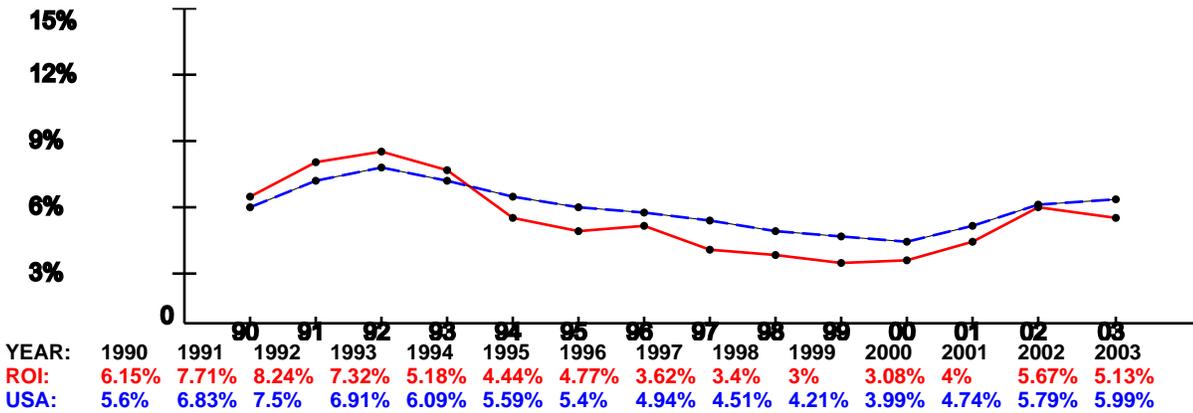

YEAR:	2006	2007	2008	2009	2010	2011
Direct Military:	0	0	-39	0	0	0
Direct Civilian:	0	0	-5	0	0	0
Direct Student:	0	0	0	0	0	0
Direct Contractor:	0	0	0	0	0	0

Pease International Trade Port AGS, NH (Proxy for AFRC Pease-Newington, USARC Doble, Rochester Armory, Dover Armory, Portsmouth Armory, and Somersworth Armory)

Demographics

The following tables provide a short description of the area near the installation/activity. Pease International Trade Port AGS is 48.4 miles from Lowell, MA, the nearest city with a population of 100,000 or more. The nearest metropolitan statistical area (MSA) is

MSA	Population
Boston-Worcester-Lawrence-Lowell-Brockton NECMA	6,057,826

The following entities comprise the military housing area (MHA):

County/City	Population
Rockingham	277359
Strafford	112233
York	186742
Total	576,334

Child Care

This attribute captures the number of nationally accredited child-care centers within the local community: 15

Cost of Living

Cost of Living provides a relative measure of cost of living in the local community. General Schedule (GS) Locality pay provides a relative scale to compare local salaries with government salaries and Basic Allowance for Housing (BAH) is an indicator of the local rental market. In-state tuition is an indicator of the support provided by the state for active duty family members to participate in higher-level education opportunities. For median household income and house value, the basis of the data (either MSA or number of counties in the MHA or the county of the installation) is indicated.

Median Household Income	(US Avg \$41,994)	\$52,154	Basis: MSA
Median House Value	(US Avg \$119,600)	\$198,600	
GS Locality Pay	("Rest of US" 10.9%)	17.0%	
O-3 with Dependents BAH Rate		\$2,079	
In-state Tuition for Family Member		Yes	
In-state Tuition Continues if Member PCSs Out of State		No	

This document may contain information protected from disclosure by public law, regulations or orders.

Education

This attribute defines the population in local school districts and identifies capacity. The pupil/teacher ratio, graduation rate, and composite SAT I/ACT scores provide a relative quality indicator of education. This attribute also attempts to give communities credit for the potential intellectual capital they provide.

NOTE: “MFR”--means a Memorandum For Record is on file at the installation/activity/agency to document problems in obtaining the required information. Reasons for not being able to obtain information may be that the school district refused to provide the information or the school district does not use or track the information. For each entry, the number of school districts for which data are available of the total number of school districts reported, and the number of MFRs is indicated.

		Basis
School District(s) Capacity	56,409	39 of 39 districts
Students Enrolled	51,601	39 of 39 districts
Average Pupil/Teacher Ratio	13.2:1	39 of 39 districts
High School Students Enrolled	17,210	18 of 18 districts
Average High School Graduation Rate (US Avg 67.3%)	96.8%	18 of 18 districts
Average Composite SAT I Score (US Avg 1026)	1021	18 of 18 districts
Average ACT Score (US Avg 20.8)		0 of 18 districts, 19 MFRs
Available Graduate/PhD Programs	5	
Available Colleges and/or Universities	8	
Available Vocational and/or Technical Schools	5	

Employment

Unemployment and job growth rates provide an indicator of job availability in the local community. National rates from the Bureau of Labor Statistics are also provided. For each entry, the basis of the data (either MSA or number of counties in the MHA or the county of the installation) is indicated.

The unemployment rates for the last five years:

	1999	2000	2001	2002	2003
Local Data	2.2%	2.3%	2.9%	4.3%	4.1%
National	4.2%	4.0%	4.7%	5.8%	6.0%
Basis:	MSA	MSA	MSA	MSA	MSA

This document may contain information protected from disclosure by public law, regulations or orders.

The annual job growth rate for the last five-years:

	1999	2000	2001	2002	2003
Local Data	1.3%	4.8%	.6%	.3%	1.8%
National	1.5%	2.4%	.03%	-.31%	.86%
Basis:	MSA	MSA	MSA	MSA	MSA

Housing

This attribute provides an indication of availability of housing, both sales and rental, in the local community. Note: According to the 2000 Census, Vacant Sale and Vacant Rental Units do not equal total Vacant Housing Units. Vacant housing units may also include units that are vacant but not on the market for sale or rent. For each entry, the basis of the data (either MSA or number of counties in the MHA or the county of the installation) is indicated.

Total Vacant Housing Units	103,171	Basis: MSA
Vacant Sale Units	12,534	
Vacant Rental Units	30,526	

Medical Providers

This attribute provides an indicator of availability of medical care for military and DoD civilians in the local community. The table reflects the raw number of physicians/beds and ratio of physicians/beds to population. The basis of the data (either MSA or number of counties in the MHA or the county of the installation) is indicated.

	# Physicians	# Beds	Population	
Local Community	21,875	12,720	6,057,826	Basis: MSA
Ratio	1:277	1:476		
National Ratio (2003)	1:421.2	1:373.7		

Safety/Crime

The local community's Uniform Crime Reports (UCR) Index for 2002 per 100,000 people and the national UCR based on information from the Federal Bureau of Investigation (FBI) for 2002 is provided. The basis of the data (either MSA or state) is indicated.

Local UCR	2,919.5	Basis: MSA
National UCR	4,118.8	

Transportation

Distance to an airport shows convenience and availability of airline transportation. Public transportation shows potential for members and DoD civilians to use it to commute to/from work under normal circumstances and for leisure.

This document may contain information protected from disclosure by public law, regulations or orders.

Distance from Pease International Trade Port AGS to nearest commercial airport: 40.0
miles

Is Pease International Trade Port AGS served by regularly scheduled public
transportation? No

Utilities

This attribute identifies a local community's water and sewer systems' ability to receive
1,000 additional people.

Does the local community's water system have the ability to meet an expanded need of
an additional 1,000 people moving in the local community? Yes

Does the local community's sewer system have the ability to meet an expanded need of
an additional 1,000 people moving in the local community? Yes
