06152005

Dear Mr. Coyle,

Please note that this is NOT a reproduced letter of thousands but just one heartfelt letter to express what my thoughts are regarding the closing of CANNON AFB in Clovis, NM. Clovis is a struggling rural town in eastern New Mexico. Actually, the state of New Mexico as a whole struggles when you compare it to the other states in this Country. Nonetheless, we get by on the little we have. Clovis' strength is made up of hard-working individuals through agriculture (primarily dairy, corn, wheat & milo farmers as well as ranchers) and also, most importantly, the men and women at Cannon AFB. These two groups help keep this town of over 35,000 prospering. We need them BOTH. The farmers and ranchers are not enough to keep this small town alive. The farmers/ranchers are TOO unpredictable with weather (mainly drought) and markets affecting their livelihoods. Hey, I know this personally, I am married to a dryland farmer/rancher. He works way too much and after 20 years of marriage and being able to raise my two boys as good as I could, it finally came to where I had to go back to working outside the home/farm because it alone wasn't able to pay our bills. Sure, we had good years (about 4 in the last 20)! But it came to a point where we couldn't "take from Peter to pay Paul" anymore!

Sir, I can't even imagine Clovis' economy surviving by the likes of us and no longer Cannon AFB. This town will suffer badly. We have already seen all the years of drought affecting its' economy and barely getting by. Cannon AFB leaving will cripple it badly. We have a good base here, with great weather, space to no end and wholesome values to offer our young men/women and their families in the Service. Please reconsider this decision to close Cannon AFB and reevaluate the valid reasons why people here feel this would be wrong to allow. Thank you for your time and consideration.

Sincerely,

Cathy Estes
