RE: Cannon Air Force Base - Clovis New Mexico

Dear Commissioner:

I am writing to you with great urgency. You have a great task in front of you. I know you take it very seriously as the community surrounding Cannon Air Force Base is serious and committed to providing you with the information to change your mind about closing our base.

Cannon Air Force Base should not be closed. It does not meet the criteria. The base has great military value today and in the future. Cannon has an abundance of airspace, unmatched good flying weather with a dry climate and no encroachment issues. Cannon has the space and facilities to accommodate joint war-fighting, training, and readiness as was evidenced by the recent joint training effort between Cannon and the US Navy. The list goes on and on.

I understand from our local efforts the commission will be receiving thousands of letters from the citizens of this area. These are the same people who have supported the men and women and their families for decades. You will not find a community that has supported a military installation any stronger than Eastern New Mexico and West Texas have supported Cannon AFB.

I hope you personally visit Cannon before you make your final decision. You will see in person the thousands of citizens that are determined to provide the facts to you. The decision you make will affect thousands of people. Please consider it carefully and do your homework. I am convinced you will agree that closing Cannon Air Force Base is a big, big mistake. I hope you will also see that not only should Cannon remain active, but our base has a great future and will continue to meet "the mission" and serve our country well.

Your time and consideration has never more important.

Sincerely,

Robin Myers
