To:
Brigadier General Sue E. Turner

Dear Madam:

I am writing to you from Clovis, NM, home of Cannon AFB. I wish to encourage you to consider removing Cannon AFB from the base closure list. I believe that Cannon AFB does not fit the criteria for base closure. I believe that there are many good reasons to keep Cannon AFB as an active participant in the nation's defense strategy. I believe that Cannon has unlimited flying space, and can be a distinguished super sonic base. Please do not underestimate the surrounding communities ability to support Cannon AFB...they are willing to meet its needs. Bases have been closed around Cannon AFB for many years, and it now impacts a large area of Eastern New Mexico and West Texas, including Lubbock, Texas & Amarillo, Texas. This area has seen the closure of Walker AFB in Roswell, NM during the Fifties. Roswell was a larger city than Clovis is; and the closing of its base was detrimental to the city, where the effects lasted for many years afterward. Clovis being a smaller city, should it see Cannon AFB close, would lose about 21% of its work force, which in the 21st century can be devastating to Clovis and the surrounding communities.

I urge you to seriously consider this letter and appreciate your time and effort taken.

Thank you,

Keith Risdon
