NAVAL EDUCATION AND TRAINING CENTER

DATA CALL 1: General Installation Information, continued Activity: 62661

5. DETACHMENTS: If your activity has detachments at other locations, please list them in the table below.

Name	UIC	Location	Host name/Host UIC
WASHINGTON DC TRAINING UNIT	47426	Washington, DC	BUPERS/00022
R NAVY LEADERSHIP TRAINING UNIT	48901	Little Creek, VA	63018
R	48902	Coronado, CA	63021

6. BRAC IMPACT: Were you affected by previous Base Closure and Realignment decisions (BRAC-88, -91, and/or -93)? If so, please provide a brief narrative.

- Five Newport-based homeported ships with 830 Navy personnel will relocate to Norfolk, VA (USS Clark FFG 11, USS Estocin FFG15, USS Simpson FFG 56, USS Samuel B, Roberts FFG 58, USS Kauffman FFG 59). SIMA with 350 Navy personnel and approximately 500 active duty drilling Naval Reserve personnel will be reassigned throughout the Navy. Four civilian positions supporting the homeported ships will also be eliminated.

- Relocation of BOOST (Staff UIC 42132 and student UIC 43721) San Diego, CA, to NETC, Newport, RI, in June 1994 as a result of BRAC 93. BOOST is a precommissioning training program that provides pre-college curriculum to individuals, preparing them for admittance to NROTC Programs at various colleges and universities. Expected average on board of 225-300 students enrolled in the 12-month program (CIN) P-500-0042 and 23 staff members.

- SWOS Division Officer Course has been consolidated to Newport, RI, from San Diego, CA.

- NETC operates 1,851 housing units and 52 mobile home spaces. NETC's current requirement is approximately 1,000 housing units. This number will be reached by excessing 140 units in 1994; converting 404 units, and demolishing approximately 300 units.

7. MISSION: Do not simply report the standard mission statement. Instead, describe important functions in a bulletized format. Include anticipated mission changes and brief narrative explanation of change; also indicate if any current/projected mission changes are a result of previous BRAC-88, -91,-93 action(s).

7. MISSION: Do not simply report the standard mission statement. Instead, describe important functions in a bulletized format. Include anticipated mission changes and brief narrative explanation of changes. Also indicate if any current/projected mission changes are a result of previous BRAC-86, -91, -93 actions.

Current Missions

o Provide training and logistic support for the entire naval complex, including support of homeported and visiting ships.

o Provide training for senior enlisted personnel, officer candidates, international officers, communications officers, commissioned staff corp officers, chaplains, and fleet damage control personnel.

*(through 13 May 94)
CWT 1021
2/10/94*

- Conduct officer accession training (Officer Indoctrination School) for newly appointed officers of the line and the staff corps to prepare them to serve as officers in the Navy.

- Conduct Navy Chaplain education and training for chaplain candidates, newly commissioned, reserve and senior chaplains.

- Conduct three Navy communication courses and two Communications Security Material System Custodian courses in Navy, Marine Corps, Coast Guard and reserve officers to prepare them for duty both ashore and at sea.

- Conduct instruction and training for personnel assigned to instructor duty, command assessment teams, and command training teams.

- Conduct basic through advance levels of firefighting and Damage Control training.

- Provide education, training, and advanced leadership skills to senior enlisted personnel at the Senior Enlisted Academy.

- Conduct officer accession and basic skills training, leading to a commission for line corps personnel and international junior officers.

- Conduct education and leadership training for senior officers assigned as shore station commanding officers and executive officers through the Shore Station Command Course.

DATA CALL 1: General Installation Information, continued Activity: 2206

o Six major departments provide logistic and utility support for tenant and supported activities.

- The Command Staff Services Department provides administrative, managerial, and computer support to the command, as well as the administration of the Navy Occupational Safety and Health (NAVOSH) program, public affairs, substance abuse and quality-of-life issues.

- The Operations Department provides services that at a larger installation would fall under the Naval Station.

- The Training Department provides training facilities and services in support of Chief of Naval Education and Training/TYCOMs and fleet missions.

- The Public Work Department handles all support and maintenance functions and is an environmental sub-area coordinator. The Public Works Director also has additional duties as Officer in Charge, Naval Facilities Command, Contract Office.

- The Comptroller/Supply Department provides supply, financial planning and management of personal property shipments and food services to all Navy personnel and commands in Rhode Island and Southeastern Massachusetts.

- The Morale, Welfare and Recreation (MWR) Department operates recreational, athletic, club, child-development, and library programs and various facilities to provide a well-rounded program to ensure the mental and physical well-being of Navy personnel and their families. The MWR Department and the Navy Exchange have begun a cooperative effort by co-locating their respective payroll/personnel offices and merging their maintenance staffs, providing more efficient and cost-effective operation of facilities, equipment, and vehicle maintenance.

o Perform such other functions as directed by higher authority.

Projected Missions for FY 2001

In addition to the current mission,

a. Maintain modern efficient shore training facilities and conduct training to provide state-of-the-art training and support to the fleet and a quality environment for military and civilians assigned to duty.

b. Become a major training facility within the command.

c. Upgrade infrastructure to support fleet requirements (to be completed in 2001).

*ADH
NJ22
CNET
2/12/99*

DATA CALL 1: General Installation information, continued Activity: 0210

o Lead the way in environmentally sound decisions affecting the Navy and its surrounding communities.

o Provide the most up-to-date, energy efficient, and financial sound support to Newport-based tenant commands.

o Reduce the maintenance of real property backlog.

g. UNIQUE MISSIONS: Describe any missions which are unique or relatively unique to the activity. Include information on projected changes. Indicate if your command has any National Command Authority or classified mission responsibilities.

Current Unique Missions

o Act as a landlord for more than 35 local commands and activities.

o Provide logistical support for visiting ships.

o COMNEIC serves as the State of Rhode Island Environmental Coordinator, the Navy's on-scene manager for leased Navy properties in Rhode Island, and as the Navy Housing authority. COMNEIC also is the local area coordinator for all naval activities in Rhode Island.

o COMABIC acts as general court-martial convening authority and reviews special courts-martial and appeals of non-judicial punishment for activities within the geographical area of the former First Naval District and New London -- except for those activities within the chain of command of Commander, Submarine Force Atlantic or Commander, Patrol Wings Atlantic.

o Fire-fighter trainer. Provides four standard Navy hands-on fire-fighting training courses with the capacity to train approximately 7000 students per year.

o COMVHC is the Responsible Line Commander for the Naval Hospital and Medical Center Center Support.

Projected Unique Missions for 1990

o Expand TRAINING facilities for support of the current program of training activities.

o Continue to be a part of the current training Program.

13. REGIONAL SUPPORT: Identify your relationship with other activities, not reported as a host/tenant, for which you provide support. Again, this list should be all-inclusive. The intent of this question is capture the full breadth of the mission of your command and your customer/supplier relationships. Include in your answer any Government owned/Contractor Operated facilities for which you provide administrative oversight and control.

Activity name	Location	Support function (include mechanism such as ISSA, MOL, etc.)
AVAIL WAF 01111-01	Newport, RI	provide utility service support, exterior security and fire protection, snow plowing, and engineering and contract support on a reimbursable basis. Provide LAAC support, ISSA
NAVAL HOSPITAL	Newport, R.I.	provide utility service support, security, and fire protection, and engineering and contract support on a reimbursable basis. Provide LAAC support, ISSA

DATA CALL 1: General Installation Information, continued Activity: 62001

Activity name	Location	Support function (include mechanism such as ISSA, MOU, etc.)
NAVAL DENTAL CLINIC	NEWPORT, RI	Provide utility service support, security and fire protection, public maintenance, and engineering and contract support on a reimbursable basis. Provide PAC and CAAC support. ISSA
NAVAL UNDERSEA WARFARE COMMAND	NEWPORT, RI	Provide utility service support and fire protection on a reimbursable basis. Provide CAAC support. ISSA
NAVRANEMOULET	NEWPORT, RI	Provide SERVMARI and CAAC support.
PUS1 GRAD PROG	KINGSTON, RI	Provide administrative support.
APV EDUC PROG	KINGSTON, RI	Provide administrative support.
COLE DEG PROG	RHODE ISLAND	Provide administrative support.
ENLISTED EDUC ADVANCEMENT PROG	RHODE ISLAND	Provide administrative support.
MEDICAL EN COMMISSIONING PROG	KINGSTON, RI	Provide administrative support.
CIVIL ENGR PROG	KINGSTON, RI	Provide administrative support.
EDUC AND ENG MGMT PROG	BRISTOL, RI	Provide administrative support.
CNET	PENSACOLA, FL	Provide CNET training for Northeast area, Europe, Newfoundland and Ireland.
NROTC PROG	PENSACOLA, FL	Provide training facilities and support for NJROTC, NSL, and ROTC.
USNA	ANNAPOLIS, MD	Provide training facilities and support. ISSA
COAST GUARD (700115)	NEW ENGLAND AREA	Provide SERVMARI and CAAC support.
MARINE COMMS (600115)	NARRAGANSETT BAY AREA	Provide SERVMARI training facilities and support facilities.

DATA CALL 1: General Installation Information, continued Activity: 62601

activity name	Location	Support function (include mechanism)
ARMY (10 UNITS)	SOUTHEAST NW ENGLAND	Provide SERVMART support.
OTHER NAVY (8 UNITS) UNITS	GROTON, CT & BAY AREA VARIOUS	Provide SERVMART, training facilities, and support facilities.
DEF COURIER SVC	S. WEYMOUTH, MA	Provide police protection. ISSA
COLLEGES (3)	NEWPORT, RI	Provide training facilities and support for Active Duty attendance.
ARMY RESERVES	CONNECTICUT	Provide training facilities and support.
RI NATL GUARD	PROVIDENCE, RI	Provide training facilities and support.
NATIONAL FIRE ACADEMY	WASHINGTON, DC	Provide training facilities and support.
DLA	CONNECTICUT	Provide training facilities and support.
CONVOY COMM UNIT 101	NEW YORK	Provide training facilities and support.
LOCAL POLICE AND FED AGENCIES	AQUIDNECK AREA	Provide pistol range facility and support.
ARMY ROTC	NEWPORT, RI	Provide training facilities and support.

14. FACILITY MAPS: This is a primary responsibility of the plant account holders/host commands. Tenant activities are not required to comply with submission if it is known that your host activity has complied with the request. Maps and photos should not be dated earlier than 01 January 1991, unless annotated that no changes have taken place. Any recent changes should be annotated on the appropriate map or photo. Date and label all copies.

Revised pg

NAVAL EDUCATION AND TRAINING CENTER
DATA CALL 1: General Installation Information, continued Activity: 62661

o Local Area Map. This map should encompass, at a minimum, a 50 mile radius of your activity. Indicate the name and location of all DoD activities within this area, whether or not you support that activity. Map should also provide the geographical relationship to the major civilian communities within this radius. (Provide 12 copies.)

REVISED MAPS ATTACHED

R

o Installation Map / Activity Map / Base Map / General Development Map / Site Map. Provide the most current map of your activity, clearly showing all the land under ownership/control of your activity, whether owned or leased. Include all outlying areas, special areas, and housing. Indicate date of last update. Map should show all structures (numbered with a legend, if available) and all significant restrictive use areas/zones that encumber further development such as HERC, HERP, HERF, ESQD arcs, agricultural/forestry programs, environmental restrictions (e.g., endangered species). (Provide in two sizes: 36"x 42" (2 copies, if available); and 11"x 17" (12 copies).)

MAPS AND LEGENDS ATTACHED

o Aerial photo(s). Aerial shots should show all base use areas (both land and water) as well as any local encroachment sites/issues. You should ensure that these photos provide a good look at the areas identified on your Base Map as areas of concern/interest - remember, a picture tells a thousand words. Again, date and label all copies. (Provide 12 copies of each, 8"x 11".)

AERIAL PHOTOS ATTACHED

o Air Installations Compatible Use Zones (AICUZ) Map. (Provide 12 copies.)

NOT APPLICABLE, NO AICUZ.

DATA CALL 1: General Installation Information, continued Activity: 02001

c. Local Area Map. This map should encompass, at a minimum, a 50 mile radius of your activity. Indicate the name and location of all DoD activities within this area, whether or not you support that activity. Map should also provide the geographical relationship to the major civilian communities within this radius. (Provide 12 copies.)

MAPS ATTACHED:

d. Installation Map / Activity Map / Base Map / General Development Map / Site Map. Provide the most current map of your activity, clearly showing all the land under ownership/control of your activity, whether owned or leased. Include all outlying areas, special areas, and housing. Indicate date of last update. Map should show all structures (numbered with a legend, if available) and all significant restrictive use areas/zones that encumber further development such as BERC, B+BR, B+BL, B+BL areas, agricultural/forestry programs, environmental restrictions (e.g., endangered species). (Provide in two sizes: 36 x 42" (2 copies, if available); and 11 x 17" (12 copies).)

BRAC-95 CERTIFICATION
DATA CALL ONE

Reference: SECNAVNOTE 11000 of 08 December 1993

In accordance with policy set forth by the Secretary of the Navy, personnel of the Department of the Navy, uniformed and civilian, who provide information for use in the BRAC-95 process are required to provide a signed certification that states "I certify that the information contained herein is accurate and complete to the best of my knowledge and belief."

The signing of this certification constitutes a representation that the certifying official has reviewed the information and either (1) personally vouches for its accuracy and completeness or (2) has possession of, and is relying upon, a certification executed by a competent subordinate.

Each individual in your activity generating information for the BRAC-95 process must certify that information. Enclosure 1 is provided for individual certifications and may be duplicated as necessary. You are directed to maintain those certifications at your activity for audit purposes. For purposes of this certification sheet, the commander of the activity will begin the certification process and each reporting senior in the Chain of Command reviewing the information will also sign this certification sheet. This sheet must remain attached to this package and be forwarded up the Chain of Command. Copies must be retained by each level in the Chain of Command for audit purposes.

I certify that the information contained herein is accurate and complete to the best of my knowledge and belief.

**DATA CALL 66
INSTALLATION RESOURCES**

Activity Information:

Activity Name:	NAVAL EDUCATION AND TRAINING CENTER
UIC:	N62661
Host Activity Name (if response is for a tenant activity):	N/A
Host Activity UIC:	N/A

*ANA
HEARD
CAGT N-4472
27 Jul 94*

General Instructions/Background. A separate response to this data call must be completed for each Department of the Navy (DON) host, independent and tenant activity which separately budgets BOS costs (regardless of appropriation), and, is located in the United States, its territories or possessions.

1. Base Operating Support (BOS) Cost Data. Data is required which captures the total annual cost of operating and maintaining Department of the Navy (DON) shore installations. Information must reflect FY 1996 budget data supporting the FY 1996 NAVCOMPT Budget Submit. Two tables are provided. Table 1A identifies "Other than DBOF Overhead" BOS costs and Table 1B identifies "DBOF Overhead" BOS costs. These tables must be completed, as appropriate, for all DON host, independent or tenant activities which separately budget BOS costs (regardless of appropriation), and, are located in the United States, its territories or possessions. Responses for DBOF activities may need to include both Table 1A and 1B to ensure that all BOS costs, including those incurred by the activity in support of tenants, are identified. If both table 1A and 1B are submitted for a single DON activity, please ensure that no data is double counted (that is, included on both Table 1A and 1B). The following tables are designed to collect all BOS costs currently budgeted, regardless of appropriation, e.g., Operations and Maintenance, Research and Development, Military Personnel, etc. Data must reflect FY 1996 and should be reported in thousands of dollars.

**DATA CALL 66
INSTALLATION RESOURCES**

a. Table 1A - Base Operating Support Costs (Other Than DBOF Overhead). This Table should be completed to identify "Other Than DBOF Overhead" Costs. Display, in the format shown on the table, the O&M, R&D and MPN resources currently budgeted for BOS services. O&M cost data must be consistent with data provided on the BS-1 exhibit. Report only direct funding for the activity. Host activities should not include reimbursable support provided to tenants, since tenants will be separately reporting these costs. Military personnel costs should be included on the appropriate lines of the table. Please ensure that individual lines of the table do not include duplicate costs. Add additional lines to the table (following line 2j., as necessary, to identify any additional cost elements not currently shown). **Leave shaded areas of table blank.**

* THIS TABLE LEFT BLANK BY NETC PER CNET DIRECTION. TO BE COMPLETED BY CNET. (SEE page 3a)

See page 3a.

*AAA
Heard
27 June
CNETN-448*

c. Table 1B - Base Operating Support Costs (DBOF Overhead). This Table should be submitted for all current DBOF activities. Costs reported should reflect BOS costs supporting the DBOF activity itself (usually included in the G&A cost of the activity). For DBOF activities which are tenants on another installation, total cost of BOS incurred by the tenant activity for itself should be shown on this table. It is recognized that differences exist among DBOF activity groups regarding the costing of base operating support: some groups reflect all such costs only in general and administrative (G&A), while others spread them between G&A and production overhead. Regardless of the costing process, all such costs should be included on Table 1B. The Minor Construction portion of the FY 1996 capital budget should be included on the appropriate line. Military personnel costs (at civilian equivalency rates) should also be included on the appropriate lines of the table. Please ensure that individual lines of the table do not include duplicate costs. Also ensure that there is no duplication between data provided on Table 1A. and 1B. These two tables must be mutually exclusive, since in those cases where both tables are submitted for an activity, the two tables will be added together to estimate total BOS costs at the activity. Add additional lines to the table (following line 21., as necessary, to identify any additional cost elements not currently shown). **Leave shaded areas of table blank.**

Other Notes: All costs of operating the five Major Range Test Facility Bases at DBOF activities (even if direct RDT&E funded) should be included on Table 1B. Weapon Stations should include underutilized plant capacity costs as a DBOF overhead "BOS expense" on Table 1B..

* TABLE 1B IS NOT APPLICABLE TO NETC PER CNET DIRECTION. - Not a DBOF activity.

Table 1B - Base Operating Support Costs (DBOF Overhead)

2. Services/Supplies Cost Data. The purpose of Table 2 is to provide information about projected FY 1996 costs for the purchase of services and supplies by the activity. **(Note: Unlike Question 1 and Tables 1A and 1B, above, this question is not limited to overhead costs.)** The source for this information, where possible, should be either the NAVCOMPT OP-32 Budget Exhibit for O&M activities or the NAVCOMPT UC/FUND-1/IF-4 exhibit for DBOF

**DATA CALL 66
INSTALLATION RESOURCES**

activities. Information must reflect FY 1996 budget data supporting the FY 1996 NAVCOMPT Budget Submit. Break out cost data by the major sub-headings identified on the OP-32 or UC/FUND-1/IF-4 exhibit, disregarding the sub-headings on the exhibit which apply to civilian and military salary costs and depreciation. Please note that while the OP-32 exhibit aggregates information by budget activity, this data call requests OP-32 data for the activity responding to the data call. Refer to NAVCOMPTINST 7102.2B of 23 April 1990, Subj: Guidance for the Preparation, Submission and Review of the Department of the Navy (DON) Budget Estimates (DON Budget Guidance Manual) with Changes 1 and 2 for more information on categories of costs identified. Any rows that do not apply to your activity may be left blank. However, totals reported should reflect all costs, exclusive of salary and depreciation.

Table 2 - Services/Supplies Cost Data

Transportation:	370
Other Purchases (Contract support, etc.):	25,201
Total:	34,365

**DATA CALL 66
INSTALLATION RESOURCES**

3. Contractor Workyears.

a. On-Base Contract Workyear Table. Provide a projected estimate of the number of contract workyears expected to be **performed "on base"** in support of the installation during FY 1996. Information should represent an annual estimate on a full-time equivalency basis. Several categories of contract support have been identified in the table below. While some of the categories are self-explanatory, please note that the category "mission support" entails management support, labor service and other mission support contracting efforts, e.g., aircraft maintenance, RDT&E support, technical services in support of aircraft and ships, etc.

Table 3 - Contract Workyears	
Activity Name: NAVAL EDUCATION AND TRAINING CENTER	UIC: 62661
Contract Type	FY 1996 Estimated Number of Workyears On-Base
Construction:	435
Facilities Support:	99
Mission Support:	124
Procurement:	∅
Other:*	984
Total Workyears:	1,642

* **Note:** Provide a brief narrative description of the type(s) of contracts, if any, included under the "Other" category.

* Other - This represents MILCON scheduled to begin, in the middle of, or completion during FY96.

**DATA CALL 66
INSTALLATION RESOURCES**

b. Potential Disposition of On-Base Contract Workyears. If the mission/functions of your activity were relocated to another site, what would be the anticipated disposition of the on-base contract workyears identified in Table 3.?

1) Estimated number of contract workyears which would be transferred to the receiving site (This number should reflect the number of jobs which would in the future be contracted for at the receiving site, not an estimate of the number of people who would move or an indication that work would necessarily be done by the same contractor(s)):

85 WORKYEARS

2) Estimated number of workyears which would be eliminated:

125 WORKYEARS.

3) Estimated number of contract workyears which would remain in place (i.e., contract would remain in place in current location even if activity were relocated outside of the local area):

448 WORKYEARS WOULD REMAIN TO SUPPORT OTHER CLASS 1 AND 2
ACTIVITIES (NAVWARCOL, NAVHOSP, AND NUWC DIVNPT)
~~984~~ WORKYEARS RELATED TO MILCON WOULD REMAIN UN^AEFFECTED
1,432 TOTAL

**DATA CALL 66
INSTALLATION RESOURCES**

c. "Off-Base" Contract Workyear Data. Are there any contract workyears located in the local community, but not on-base, which would either be eliminated or relocated if your activity were to be closed or relocated? If so, then provide the following information (**ensure that numbers reported below do not double count numbers included in 3.a. and 3.b., above**):

No. of Additional Contract Workyears Which Would Be Eliminated	General Type of Work Performed on Contract (e.g., engineering support, technical services, etc.)
3	Architectural/engineering

No. of Additional Contract Workyears Which Would Be Relocated	General Type of Work Performed on Contract (e.g., engineering support, technical services, etc.)
0	

NETC HAS 24 WORKYEARS OF CONTRACTOR EFFORT HIRED FROM OFFBASE, INVOLVING ARCHITECTURAL, ENGINEERING, AND ENVIRONMENTAL WORK. THIS EFFORT WOULD CONTINUE IN SUPPORT OF NUWCDIVNPT, NAVWARCOL, NAVHOSP AND REMAINING TENANTS IN COMPLEX. *the contractors support activities other than NETC.*

DATA CALL 65
ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA

Activity Identification: Please complete the following table, identifying the activity for which this response is being submitted.

Activity Name:	NAVAL EDUCATION AND TRAINING CENTER, NEWPORT, RI
UIC:	N62661
Major Claimant:	CHIEF OF NAVAL EDUCATION AND TRAINING

General Instructions/Background:

Information requested in this data call is required for use by the Base Structure Evaluation Committee (BSEC), in concert with information from other data calls, to analyze both the impact that potential closure or realignment actions would have on a local community and the impact that relocations of personnel would have on communities surrounding receiving activities. In addition to Cost of Base Realignment Actions (COBRA) analyses which incorporate standard Department of the Navy (DON) average cost factors, the BSEC will also be conducting more sophisticated economic and community infrastructure analyses requiring more precise, activity-specific data. For example, activity-specific salary rates are required to reflect differences in salary costs for activities with large concentrations of scientists and engineers and to address geographic differences in wage grade salary rates. Questions relating to "Community Infrastructure" are required to assist the BSEC in evaluating the ability of a community to absorb additional employees and functions as the result of relocation from a closing or realigning DON activity.

Due to the varied nature of potential sources which could be used to respond to the questions contained in this data call, a block appears after each question, requesting the identification of the source of data used to respond to the question. To complete this block, identify the source of the data provided, including the appropriate references for source documents, names and organizational titles of individuals providing information, etc. Completion of this "Source of Data" block is critical since some of the information requested may be available from a non-DoD source such as a published document from the local chamber of commerce, school board, etc. Certification of data obtained from a non-DoD source is then limited to certifying that the information contained in the data call response is an accurate and complete representation of the information obtained from the source. Records must be retained by the certifying official to clearly document the source of any non-DoD information submitted for this data call.

**DATA CALL 65
ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA**

General Instructions/Background (Continued):

The following notes are provided to further define terms and methodologies used in this data call. Please ensure that responses consistently follow this guidance:

Note 1: Throughout this data call, the term "activity" is used to refer to the DON installation that is the addressee for the data call.

Note 2: Periodically throughout this data call, questions will include the statement that the response should refer to the "area defined in response to question 1.b., (page 3)". Recognizing that in some large metropolitan areas employee residences may be scattered among many counties or states, the scope of the "area defined" may be limited to the sum of:

- those counties that contain government (DoD) housing units (as identified in 1.b.2)), and,
- those counties closest to the activity which, in the aggregate, include the residences of 80% or more of the activity's employees.

Note 3: Responses to questions referring to "civilians" in this data call should reflect federal civil service appropriated fund employees.

1. Workforce Data

a. Average Federal Civilian Salary Rate. Provide the projected FY 1996 average gross annual appropriated fund civil service salary rate for the activity identified as the addressee in this data call. This rate should include all cash payments to employees, and exclude non-cash personnel benefits such as employer retirement contributions, payments to former employees, etc.

Average Appropriated Fund Civilian Salary Rate:	\$ 34,101
--	-----------

Source of Data (1.a. Salary Rate): NETC Comptroller/Supply Department; NETC tenants (UIC: 41986, 42921, 43099, 44211, 47313, 49112, 62750, 62802, 63054, 63190, 66023, 66128, 68322, 68340, 68351, 68570, 68577, SC0600)

DATA CALL 65
ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA

b. Location of Residence. Complete the following table to identify where employees live. Data should reflect current workforce.

1) Residency Table. Identify residency data, by county, for both military and civilian (civil service) employees working at the installation (including, for example, operational units that are homeported or stationed at the installation). For each county listed, also provide the estimated average distance from the activity, in miles, of employee residences and the estimated average length of time to commute one-way to work. For the purposes of displaying data in the table, any county(s) in which 1% or fewer of the activity's employees reside may be consolidated as a single line entry in the table, titled "Other".

County of Residence	State	No. of Employees Residing in County		Percent age of Total Employees	Avera ge Distance From Base (Miles)	Avera ge Durati on of Comm ute (Minut es)
		Military	Civilian			
NEWPORT	RI	1111	540	76	5	10
WASHINGTON	RI	35	57	4	15	30
BRISTOL	RI	23	56	4	12	20
BRISTOL	MA	22	170	9	15	25
OTHER		21	127	7	25	35

= 100%

NOTE: Does not include approximately 1290 students not included in data base. Students are normally temporarily assigned and reside mostly on the base or in Newport County.

As discussed in Note 2 on Page 2, subsequent questions in the data call refer to the "area defined in response to question 1.b., (page 3)". In responding to these questions, the scope of the "area defined" may be limited to the sum of: a) those counties that contain government (DoD) housing units (as identified below), and, b) those counties closest to the activity which, in the aggregate, include the residences of 80% or more of the activity's employees.

f. Civilian Employment By Industry. Complete the following table to identify by "industry" the type of work performed by **civil service** employees at the activity. The intent of this table is to attempt to stratify the activity civilian workforce using the same categories of industries used to identify private sector employment. Employees should be categorized based on their primary duties. Additional information on categorization of private sector employment by industry can be found in the Office of Management and Budget Standard Industrial Classification (SIC) Manual. However, you do not need to obtain a copy of this publication to provide the data requested in this table.

Note the following specific guidance regarding the "Industry Type" codes in the first column of the table: Even though categories listed may not perfectly match the type of work performed by civilian employees, please attempt to assign each civilian employee to one of the "Industry Types" identified in the table. However, only use the Category 6, "Public Administration" sub-categories when none of the other categories apply. Retain supporting data used to construct this table at the activity-level, in case questions arise or additional information is required at some future time. Leave shaded areas blank.

Industry	SIC Codes	No. of Civilians	% of Civilians

g. Civilian Employment by Occupation. Complete the following table to identify the types of "occupations" performed by **civil service** employees at the activity. Employees should be categorized based on their primary duties. Additional information on categorization of employment by occupation can be found in the Department of Labor Occupational Outlook Handbook. However, you do not need to obtain a copy of this publication to provide the data requested in this table.

Note the following specific guidance regarding the "Occupation Type" codes in the first column of the table: Even though categories listed may not perfectly match the type of work performed by civilian employees, please attempt to assign each civilian employee to one of the "Occupation Types" identified in the table. Refer to the descriptions immediately following this table for more information on the various occupational categories. Retain supporting data used to construct this table at the activity-level, in case questions arise or additional information is required at some future time. Leave shaded areas blank.

Occupation	Number of Civilian Employees	Percent of Civilian Employees
1. Executive, Administrative and Management	150	15.8
2. Professional Specialty		
2a. Engineers	29	3.1
2b. Architects and Surveyors	4	.4

DATA CALL 65
ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA

2. Infrastructure Data. For each element of community infrastructure identified in the two tables below, rate the community's ability to accommodate the relocation of additional functions and personnel to your activity. Please complete each of the three columns listed in the table, reflecting the impact of various levels of increase (20%, 50% and 100%) in the number of personnel working at the activity (and their associated families). In ranking each category, use one of the following three ratings:

- A - Growth can be accommodated with little or no adverse impact to existing community infrastructure and at little or no additional expense.
- B - Growth can be accommodated, but will require some investment to improve and/or expand existing community infrastructure.
- C - Growth either cannot be accommodated due to physical/environmental limitations or would require substantial investment in community infrastructure improvements.

Table 2.a., "Local Communities": This first table refers to the local community (i.e., the community in which the base is located) and its ability to meet the increased requirements of the installation.

Table 2.b., "Economic Region": This second table asks for an assessment of the infrastructure of the economic region (those counties identified in response to question 1.b., (page 3) - taken in the aggregate) and its ability to meet the needs of additional employees and their families moving into the area.

For both tables, annotate with an asterisk (*) any categories which are wholly supported on-base, i.e., are not provided by the local community. These categories should also receive an A-B-C rating. Answers for these "wholly supported on-base" categories should refer to base infrastructure rather than community infrastructure.

DATA CALL 65
ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA

a. Table A: Ability of the local community to meet the expanded needs of the base.

1) Using the A - B - C rating system described above, complete the table below.

Category	20% Increase	50% Increase	100% Increase
Off-Base Housing	A	A	A
Schools - Public	A	A	A
Schools - Private	A	A	A
Public Transportation - Roadways	A	A	A
Public Transportation - Buses/Subways	A	A	A
Public Transportation - Rail	N/A	N/A	N/A

TF Green Airport - 8
(American Airlines, Business Express, Continental Airlines, Delta Airlines, Northwest Airlines, Trans World Airlines, United Airlines, US Air)

Source of Data (3.c.4) Transportation): RI Airport Corporation (Doreen Pizarro) office

5) What is the Interstate route number and distance, in miles, from the activity to the nearest Interstate highway?

16 miles to I-195 in Fall River, MA
25 miles to I-95 in East Greenwich, RI

Source of Data (3.c.5) Transportation): Rhode Island Tourism Division

DATA CALL 65
ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA

6) Access to Base:

a) Describe the quality and capacity of the road systems providing access to the base, specifically during peak periods. (Include both information on the area surrounding the base and information on access to the base, e.g., numbers of gates, congestion problems, etc.)

Quality is good and capacity is fully adequate from the North and East. Two state highways (RI 114 and 138) provide 4-lane undivided feeders to NETC and its tenants on Aquidneck Island. Off RI 114 from the north, direct access is provided by the Defense Highway, a two-lane undivided roadway. Off RI 114 from the east, direct access is provided by the Fleet Pier Access Road, a 2-lane, undivided roadway with breakdown lanes (March 1988 peak traffic of 1408 vehicles during the evening rush were accommodated with no delays and approximately 1125 vehicles pass along this road during morning rush without delays). Quality is good and capacity is fully adequate from the Northwest. I-95 South provides 4-lane divided highway access to RI Route 4 to RI Route 1 to RI 138, all 4-lane highways to Newport. Two modern (4-lane, divided) bridges, connected by RI 138, provide access across Jamestown Island. From the Southwest, I-95 North connects with RI 138, a 2-lane highway that joins with RI Route 1 to RI 138, all 4-lane highways to Newport.

b) Do access roads transit residential neighborhoods?

Yes, from the Southwest, the junction of I-95/RI 138 to the junction of RI Route 1/RI 138. This 2-lane highway transits through residential areas.

c) Are there any easements that preclude expansion of the access road system?

None known.

d) Are there any man-made barriers that inhibit traffic flow (e.g., draw bridges, etc.)?

None

e. Police Protection.

1) What is the level of legislative jurisdiction held by the installation?

Approximately one half of the installation is proprietorial, and the other half is exclusive.

2) If there is more than one level of legislative jurisdiction for installation property, provide a brief narrative description of the areas covered by each level of legislative jurisdiction and whether there are separate agreements for local law enforcement protection.

There are several housing developments, fuel farms, the fire-fighting school, base warehouses and ships' piers that fall under proprietorial jurisdiction. There are no formal agreements for local law enforcement protection. The State Police responds to calls for assistance upon request.

3) Does the activity have a specific written agreement with local law enforcement concerning the provision of local police protection?

No.

4) If agreements exist with more than one local law enforcement entity, provide a brief narrative description of whom the agreement is with and what services are covered.

No agreements exist.

5) If military law enforcement officials are routinely augmented by officials of other federal agencies (BLM, Forest Service, etc.), identify any written agreements covering such services and briefly describe the level of support received.

There is no augmentation by any other federal law enforcement agency.

Source of Data (3.e. 1) - 5) - Police): NETC SJA (P. Levesque) and Security (D. Hartford); Real Estate Summary Map (NORTHDIV)

**DATA CALL 65
ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA**

f. Utilities.

1) Does the activity have an agreement with the local community for water, refuse disposal, power or any other utility requirements? Explain the nature of the agreement and identify the provider of the service.

Yes, the following agreements exist:

<u>UTILITY AGREEMENT TYPE</u>		<u>PROVIDER OF SERVICE</u>
Water	Contract	Newport Water Department Industrial
Ind Refuse	Contract	City of Newport
House Refuse	Service Contract	Private Contractor
Power	Contract	Newport Electric Corp (Private)
Sewage	Contract	Newport Sewage Department

2) Has the activity been subject to water rationing or interruption of delivery during the last five years? If so, identify time period during which rationing existed and the restrictions imposed. Were activity operations affected by these situations? If so, explain extent of impact.

No

3) Has the activity been subject to any other significant disruptions in utility service, e.g., electrical "brown outs", "rolling black outs", etc., during the last five years? If so, identify time period(s) covered and extent/nature of restrictions/disruption. Were activity operations affected by these situations? If so, explain extent of impact.

During extreme hot weather, there have been infrequent requests by the power company to voluntarily reduce electrical usage due to system wide shortages. Activity operations are not affected. Natural gas supplies were interrupted for 60 days from January to February 1994 due to extremely cold winter demands. Activity operations and training facilities were not affected, due to alternative energy sources.

Source of Data (3.f. 1) - 3) Utilities): Contracts/Agreements with Newport Electric Corp, Providence Gas and City of Newport

DATA CALL 65
ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA

5. Other Socio-Economic Impacts. For each of the following areas, describe other recent (past 5 years), on-going or projected economic impacts (both positive and negative) on the geographic region defined by your response to question 1.b. (page 3), in the aggregate:

a. Loss of Major Employers:

Since 1989, a total of 187 businesses employing 50 or more people have gone out of business in the State of Rhode Island. This equates to a total loss of approximately 25,410 of the 30,000 jobs lost in the State. During the same period, 3,734 jobs were lost in the 3 RI counties within the geographic region due to business closings. In Southeastern Massachusetts about 3,050 jobs were lost. Many of the major employers which have gone out of business were in the manufacturing sector, including such firms as Derektor Shipyard (500 jobs), Pearson Yachts (250 jobs), Avanti Communications (120 jobs), Alcatel Transcom (400 jobs) in Rhode Island and Anderson-Little (500 jobs), Chamblain Manufacturing (900 jobs), Goodyear (400 jobs), Isotronic (500 jobs) and Morse Twist Drill (400 jobs) in Massachusetts.

b. Introduction of New Businesses/Technologies:

In the past 5 years, 16 service/goods-producing industries employing more than 50 people have been established in the State of Rhode Island. A total of 1786 people have been employed in these businesses, representing 69 percent of the new employment in the State. Most of these businesses are employee leasing companies and eating places, and a few have been in traditional manufacturing areas. Nine of these new businesses are located in the activity's area. A total of 772 people are employed in these businesses, representing 30 percent of the new employment in the State. Although some of the businesses have been in traditional manufacturing areas such as jewelry and metal casting, two employers have brought new technologies to the State: (1) American Power Conversion, which employs 1044 people, makes uninterruptable power supplies for computers and (2) the B. W. Manufacturing Company, which employs 136 people, manufactures bio-genetically engineered pharmaceuticals. In Massachusetts, Molten Metal Technology (50 jobs) and New England Rope (100 jobs) have located in Fall River, and Seawatch International (150 jobs) is moving into New Bedford. Fall River is refocusing its textile industry by moving toward specialty clothing and promoting small business efforts. Planned expansion of the New Bedford Regional Airport to handle major parcel carriers have focused increased employment in transportation.

c. Natural Disasters:

Hurricane Bob in 1991, caused relatively minor damage to Rhode Island businesses.

DATA CALL 65
ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA

d. Overall Economic Trends:

In 1991 there were 22,000 defense-related jobs in the economic region supporting NETC. Major downsizing due to DOD cutbacks have begun and is expected to continue for the next several years. Rhode Island has been hit hard by the defense cutback and is only halfway through the planned defense cuts in private industry. The economic climate has been one of losses in construction and manufacturing and is expected to worsen. Noticeable trends is the loss of available workforce within the State of Rhode Island. The following employment data is applicable to Rhode Island:

(in Thousands)	1990	1991	1992	1993	1994
Labor Force	520.7	513.1	533.9	509.2	495.3
Employment	486.1	470.5	481.5	470.5	466.0
Unemployed	34.6	42.6	52.3	38.7	29.3
RI and (US) Unemployment Rate %	7.0 (5.3)	8.2 (6.8)	9.6 (7.4)	7.8 (6.9)	6.2 (6.0)
RI Job Change	(1)	19.4 lost	18.7 lost	0.5 lost	5.5 gain

NOTE: (1) Data not available

Business confidence is at its highest peak in three years for Massachusetts, which is experiencing a 3.4 percent employment growth (Rhode Island employment rate is 1.6, National rate is 1.7).

Source of Data (5. Other Socio/Econ): Rhode Island Department of Employment and Training (Vincent Harrington); New Bedford Office of Business and Urban Development (D. Kennedy); Fall River Economic Development Office (J. Raposa); Providence Business News, Vol 9 No. 10

ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA

6. Other. Identify any contributions of your activity to the local community not discussed elsewhere in this response.

NETC actively participates in the Personal Excellence Program by adopting local schools and providing tutoring. Various sponsorship and facilities have been made available to the American Legion's Boys State Program, Boys Scouts, and the Leadership Academy/Sail Training Program for Area Four (NJROTC). There are also command forums with community leaders in the form of Bi-monthly City and Town Officials Coffee and the Command Community Relations Committee. NETC Chaplains perform services in the local community. NETC CBU-408 accomplishes many community building projects. As a combined naval activity, the Navy in Newport spent in 1993, \$422,081,873 for contracts and procurement actions.

BRAC 95 CERTIFICATION
DATA CALL SIXTY-FIVE

Reference: SECNAVNOTE 11000 of 08 December 1993

In accordance with policy set forth by the Secretary of the Navy, personnel of the Department of the Navy, uniformed and civilian, who provide information for use in the BRAC-95 process are required to provide a signed certification that states "I certify that the information contained herein is accurate and complete to the best of my knowledge and belief."

The signing of this certification constitutes a representation that the certifying official has reviewed the information and either (1) personally vouches for its accuracy and completeness or (2) has possession of, and is relying upon, a certification executed by a competent subordinate.

Each individual in your activity generating information for the BRAC-95 process must certify that information. Enclosure (1) is provided for individual certifications and may be duplicated as necessary. You are directed to maintain those certifications at your activity for audit purposes. For purposes of this certification sheet, the commander of the activity will begin the certification process and each reporting senior in the Chain of Command reviewing the information will also sign this certification sheet. This sheet must remain attached to this package and be forwarded up the Chain of Command. Copies must be retained by each level in the Chain of Command for Audit purposes.

**DATA CALL 66
INSTALLATION RESOURCES**

Activity Information:

Activity Name:	APTS NEWPORT
UIC:	N47633
Host Activity Name (if response is for a tenant activity):	NAVAL EDUCATION AND TRAINING CENTER, NEWPORT
Host Activity UIC:	N62661

General Instructions/Background. A separate response to this data call must be completed for each Department of the Navy (DON) host, independent and tenant activity which separately budgets BOS costs (regardless of appropriation), and, is located in the United States, its territories or possessions.

1. Base Operating Support (BOS) Cost Data. Data is required which captures the total annual cost of operating and maintaining Department of the Navy (DON) shore installations. Information must reflect FY 1996 budget data supporting the FY 1996 NAVCOMPT Budget Submit. Two tables are provided. Table 1A identifies "Other than DBOF Overhead" BOS costs and Table 1B identifies "DBOF Overhead" BOS costs. These tables must be completed, as appropriate, for all DON host, independent or tenant activities which separately budget BOS costs (regardless of appropriation), and, are located in the United States, its territories or possessions. Responses for DBOF activities may need to include both Table 1A and 1B to ensure that all BOS costs, including those incurred by the activity in support of tenants, are identified. If both table 1A and 1B are submitted for a single DON activity, please ensure that no data is double counted (that is, included on both Table 1A and 1B). The following tables are designed to collect all BOS costs currently budgeted, regardless of appropriation, e.g., Operations and Maintenance, Research and Development, Military Personnel, etc. Data must reflect FY 1996 and should be reported in thousands of dollars.

a. Table 1A - Base Operating Support Costs (Other Than DBOF Overhead).

This Table should be completed to identify "Other Than DBOF Overhead" Costs. Display, in the format shown on the table, the O&M, R&D and MPN resources currently budgeted for BOS services. O&M cost data must be consistent with data provided on the BS-1 exhibit. Report only direct funding for the activity. Host activities should not include reimbursable support provided to tenants, since tenants will be separately reporting these costs. Military personnel costs should be included on the appropriate lines of the table. Please ensure that individual lines of the table do not include duplicate costs. Add additional

**DATA CALL 66
INSTALLATION RESOURCES**

lines to the table (following line 2j., as necessary, to identify any additional cost elements not currently shown). Leave shaded areas of table blank.

Table 1A - Base Operating Support Costs (Other Than DBOF Overhead)			
Activity Name: APTS NEWPORT		UIC: N47633	
Category	FY 1996 BOS Costs (\$000)		
	Non-Labor	Labor	Total
1. Real Property Maintenance Costs:			
1a. Maintenance and Repair	0	0	0
1b. Minor Construction	0	0	0
1c. Sub-total 1a. and 1b.	0	0	0
2. Other Base Operating Support Costs:			
2a. Utilities	29	0	29
2b. Transportation	0	0	0
2c. Environmental	0	0	0
2d. Facility Leases	0	0	0
2e. Morale, Welfare & Recreation	0	0	0
2f. Bachelor Quarters	0	0	0
2g. Child Care Centers	0	0	0
2h. Family Service Centers	0	0	0
2i. Administration	0	0	0
2j. Other (Specify)	0	0	0
2k. Sub-total 2a. through 2j:	29	0	29
3. Grand Total (sum of 1c. and 2k.):	29	0	29

**DATA CALL 66
INSTALLATION RESOURCES**

b. Funding Source. If data shown on Table 1A reflects more than one appropriation, then please provide a break out of the total shown for the "3. Grand-Total" line, by appropriation: N/A

Appropriation Amount (\$000)

c. Table 1B - Base Operating Support Costs (DBOF Overhead). This Table should be submitted for all current DBOF activities. Costs reported should reflect BOS costs supporting the DBOF activity itself (usually included in the G&A cost of the activity). For DBOF activities which are tenants on another installation, total cost of BOS incurred by the tenant activity for itself should be shown on this table. It is recognized that differences exist among DBOF activity groups regarding the costing of base operating support: some groups reflect all such costs only in general and administrative (G&A), while others spread them between G&A and production overhead. Regardless of the costing process, all such costs should be included on Table 1B. The Minor Construction portion of the FY 1996 capital budget should be included on the appropriate line. Military personnel costs (at civilian equivalency rates) should also be included on the appropriate lines of the table. Please ensure that individual lines of the table do not include duplicate costs. Also ensure that there is no duplication between data provided on Table 1A. and 1B. These two tables must be mutually exclusive, since in those cases where both tables are submitted for an activity, the two tables will be added together to estimate total BOS costs at the activity. Add additional lines to the table (following line 21., as necessary, to identify any additional cost elements not currently shown). **Leave shaded areas of table blank.**

Other Notes: All costs of operating the five Major Range Test Facility Bases at DBOF activities (even if direct RDT&E funded) should be included on Table 1B. Weapon Stations should include underutilized plant capacity costs as a DBOF overhead "BOS expense" on Table 1B..

**DATA CALL 66
INSTALLATION RESOURCES**

Table 1B - Base Operating Support Costs (DBOF Overhead)			
Activity Name: APTS NEWPORT		UIC: N47633	
Category	FY 1996 Net Cost From UC/FUND-4 (\$000)		
	Non-Labor	Labor	Total
1. Real Property Maintenance Costs:			
1a. Real Property Maintenance (> \$15K)	0	0	0
1b. Real Property Maintenance (< \$15K)	0	0	0
1c. Minor Construction (Expensed)	0	0	0

**DATA CALL 66
INSTALLATION RESOURCES**

2. Services/Supplies Cost Data. The purpose of Table 2 is to provide information about projected FY 1996 costs for the purchase of services and supplies by the activity. (Note: Unlike Question 1 and Tables 1A and 1B, above, this question is not limited to overhead costs.) The source for this information, where possible, should be either the NAVCOMPT OP-32 Budget Exhibit for O&M activities or the NAVCOMPT UC/FUND-1/IF-4 exhibit for DBOF activities. Information must reflect FY 1996 budget data supporting the FY 1996 NAVCOMPT Budget Submit. Break out cost data by the major sub-headings identified on the OP-32 or UC/FUND-1/IF-4 exhibit, disregarding the sub-headings on the exhibit which apply to civilian and military salary costs and depreciation. Please note that while the OP-32 exhibit aggregates information by budget activity, this data call requests OP-32 data for the activity responding to the data call. Refer to NAVCOMPTINST 7102.2B of 23 April 1990, Subj: Guidance for the Preparation, Submission and Review of the Department of the Navy (DON) Budget Estimates (DON Budget Guidance Manual) with Changes 1 and 2 for more information on categories of costs identified. Any rows that do not apply to your activity may be left blank. However, totals reported should reflect all costs, exclusive of salary and depreciation.

Table 2 - Services/Supplies Cost Data	
Activity Name:	UIC:
Cost Category	FY 1996 Projected Costs (\$000)
Travel:	1
Material and Supplies (including equipment):	96
Industrial Fund Purchases (other DBOF purchases):	0
Transportation:	0
Other Purchases (Contract support, etc.):	2501
Total:	2598

**DATA CALL 66
INSTALLATION RESOURCES**

3. Contractor Workyears.

a. On-Base Contract Workyear Table. Provide a projected estimate of the number of contract workyears expected to be performed "on base" in support of the installation during FY 1996. Information should represent an annual estimate on a full-time equivalency basis. Several categories of contract support have been identified in the table below. While some of the categories are self-explanatory, please note that the category "mission support" entails management support, labor service and other mission support contracting efforts, e.g., aircraft maintenance, RDT&E support, technical services in support of aircraft and ships, etc.

Table 3 - Contract Workyears	
Activity Name: APTS NEWPORT	UIC: N47633
Contract Type	FY 1996 Estimated Number of Workyears On-Base
Construction:	0
Facilities Support:	0
Mission Support:	0
Procurement:	0
Other:* Telephone Services	10
Total Workyears:	10

*** Note:** Provide a brief narrative description of the type(s) of contracts, if any, included under the "Other" category.

*Telephone services include instrument purchases, installations, moves and repairs. Contracts providing these services include AT&T and NYNEX.

**DATA CALL 66
INSTALLATION RESOURCES**

b. Potential Disposition of On-Base Contract Workyears. If the mission/functions of your activity were relocated to another site, what would be the anticipated disposition of the on-base contract workyears identified in Table 3.?

1) Estimated number of contract workyears which would be transferred to the receiving site (This number should reflect the number of jobs which would in the future be contracted for at the receiving site, not an estimate of the number of people who would move or an indication that work would necessarily be done by the same contractor(s)):

NONE.

2) Estimated number of workyears which would be eliminated:

NONE.

3) Estimated number of contract workyears which would remain in place (i.e., contract would remain in place in current location even if activity were relocated outside of the local area):

NONE.

PLEASE NOTE: APTS Newport provides basewide telephone services which would still need to be provided in the event NAVCOMTELSTA Newport's mission/functions were relocated to another site.

**DATA CALL 66
INSTALLATION RESOURCES**

c. **"Off-Base" Contract Workyear Data.** Are there any contract workyears located in the local community, but not on-base, which would either be eliminated or relocated if your activity were to be closed or relocated? If so, then provide the following information (ensure that numbers reported below do not double count numbers included in 3.a. and 3.b., above):

No. of Additional Contract Workyears Which Would Be Eliminated	General Type of Work Performed on Contract (e.g., engineering support, technical services, etc.)
0	

No. of Additional Contract Workyears Which Would Be Relocated	General Type of Work Performed on Contract (e.g., engineering support, technical services, etc.)
0

c. Table 1B - Base Operating Support Costs (DBOF Overhead). This Table should be submitted for all current DBOF activities. Costs reported should reflect BOS costs supporting the DBOF activity itself (usually included in the G&A cost of the activity). For DBOF activities which are tenants on another installation, total cost of BOS incurred by the tenant activity for itself should be shown on this table. It is recognized that differences exist among DBOF activity groups regarding the costing of base operating support: some groups reflect all such costs only in general and administrative (G&A), while others spread them between G&A and production overhead. Regardless of the costing process, all such costs should be included on Table 1B. The Minor Construction portion of the FY 1996 capital budget should be included on the appropriate line. Military personnel costs (at civilian equivalency rates) should also be included on the appropriate lines of the table. Please ensure that individual lines of the table do not include duplicate costs. Also ensure that there is no duplication between data provided on Table 1A. and 1B. These two tables must be mutually exclusive, since in those cases where both tables are submitted for an activity, the two tables will be added together to estimate total BOS costs at the activity. Add additional lines to the table (following line 21., as necessary, to identify any additional cost elements not currently shown). Leave shaded areas of table blank.

Other Notes: All costs of operating the five Major Range Test Facility Bases at DBOF activities (even if direct RDT&E funded) should be included on Table 1B. Weapon Stations should include underutilized plant capacity costs as a DBOF overhead "BOS expense" on Table 1B..

**DATA CALL 66
INSTALLATION RESOURCES**

Table 1B - Base Operating Support Costs (DBOF Overhead)			
Activity Name: NAVCOMTELSTA Newport		UIC: N47633	
Category	FY 1996 Net Cost From UC/FUND-4 (\$000)		
	Non-Labor	Labor	Total
1. Real Property Maintenance Costs:			
1a. Real Property Maintenance (> \$15K)	0	0	0
1b. Real Property Maintenance (< \$15K)	0	0	0
1c. Minor Construction (Expensed)	0	0	0
1d. Minor Construction (Capital Budget)	0	0	0
1e. Sub-total 1a. through 1d.	0	0	0
2. Other Base Operating Support Costs:			
2a. Command Office	0	0	0
2b. ADP Support	0	0	0

**DATA CALL 66
INSTALLATION RESOURCES**

2. Services/Supplies Cost Data. The purpose of Table 2 is to provide information about projected FY 1996 costs for the purchase of services and supplies by the activity. (Note: Unlike Question 1 and Tables 1A and 1B, above, this question is not limited to overhead costs.) The source for this information, where possible, should be either the NAVCOMPT OP-32 Budget Exhibit for O&M activities or the NAVCOMPT UC/FUND-1/IF-4 exhibit for DBOF activities. Information must reflect FY 1996 budget data supporting the FY 1996 NAVCOMPT Budget Submit. Break out cost data by the major sub-headings identified on the OP-32 or UC/FUND-1/IF-4 exhibit, disregarding the sub-headings on the exhibit which apply to civilian and military salary costs and depreciation. Please note that while the OP-32 exhibit aggregates information by budget activity, this data call requests OP-32 data for the activity responding to the data call. Refer to NAVCOMPTINST 7102.2B of 23 April 1990, Subj: Guidance for the Preparation, Submission and Review of the Department of the Navy (DON) Budget Estimates (DON Budget Guidance Manual) with Changes 1 and 2 for more information on categories of costs identified. Any rows that do not apply to your activity may be left blank. However, totals reported should reflect all costs, exclusive of salary and depreciation.

Table 2 - Services/Supplies Cost Data	
Activity Name: NAVCOMTELSTA NEWPORT	UIC: N47633
Cost Category	FY 1996 Projected Costs (\$000)
Travel:	10
Material and Supplies (including equipment):	12
Industrial Fund Purchases (other DBOF purchases):	0
Transportation:	0
Other Purchases (Contract support, etc.):	20
Total:	42

**DATA CALL 66
INSTALLATION RESOURCES**

3. Contractor Workyears.

a. On-Base Contract Workyear Table. Provide a projected estimate of the number of contract workyears expected to be performed "on base" in support of the installation during FY 1996. Information should represent an annual estimate on a full-time equivalency basis. Several categories of contract support have been identified in the table below. While some of the categories are self-explanatory, please note that the category "mission support" entails management support, labor service and other mission support contracting efforts, e.g., aircraft maintenance, RDT&E support, technical services in support of aircraft and ships, etc.

Table 3 - Contract Workyears	
Activity Name: NAVCOMTELSTA NEWPORT	UIC: N47633
Contract Type	FY 1996 Estimated Number of Workyears On-Base
Construction:	0
Facilities Support:	0
Mission Support:	0
Procurement:	0
Other:*	0
Total Workyears:	0

* Note: Provide a brief narrative description of the type(s) of contracts, if any, included under the "Other" category.

**DATA CALL 66
INSTALLATION RESOURCES**

b. Potential Disposition of On-Base Contract Workyears. If the mission/functions of your activity were relocated to another site, what would be the anticipated disposition of the on-base contract workyears identified in Table 3.?

1) Estimated number of contract workyears which would be transferred to the receiving site (This number should reflect the number of jobs which would in the future be contracted for at the receiving site, not an estimate of the number of people who would move or an indication that work would necessarily be done by the same contractor(s)):

NONE.

2) Estimated number of workyears which would be eliminated:

NONE.

3) Estimated number of contract workyears which would remain in place (i.e., contract would remain in place in current location even if activity were relocated outside of the local area):

NONE.

**DATA CALL 66
INSTALLATION RESOURCES**

c. **"Off-Base" Contract Workyear Data.** Are there any contract workyears located in the local community, but not on-base, which would either be eliminated or relocated if your activity were to be closed or relocated? If so, then provide the following information (ensure that numbers reported below do not double count numbers included in 3.a. and 3.b., above):

No. of Additional Contract Workyears Which Would Be Eliminated	General Type of Work Performed on Contract (e.g., engineering support, technical services, etc.)
0	

No. of Additional Contract Workyears Which Would Be Relocated	General Type of Work Performed on Contract (e.g., engineering support, technical services, etc.)
0

**DATA CALL 66
INSTALLATION RESOURCES**

Activity Information:

Activity Name:	Naval Justice School Newport RI
UIC:	62750
Host Activity Name (if response is for a tenant activity):	Naval Education and Training Center Newport RI
Host Activity UIC:	62661

General Instructions/Background. A separate response to this data call must be completed for each Department of the Navy (DON) host, independent and tenant activity which separately budgets BOS costs (regardless of appropriation), and, is located in the United States, its territories or possessions.

1. Base Operating Support (BOS) Cost Data. Data is required which captures the total annual cost of operating and maintaining Department of the Navy (DON) shore installations. Information must reflect FY 1996 budget data supporting the FY 1996 NAVCOMPT Budget Submit. Two tables are provided. Table 1A identifies "Other than DBOF Overhead" BOS costs and Table 1B identifies "DBOF Overhead" BOS costs. These tables must be completed, as appropriate, for all DON host, independent or tenant activities which separately budget BOS costs (regardless of appropriation), and, are located in the United States, its territories or possessions. Responses for DBOF activities may need to include both Table 1A and 1B to ensure that all BOS costs, including those incurred by the activity in support of tenants, are identified. If both table 1A and 1B are submitted for a single DON activity, please ensure that no data is double counted (that is, included on both Table 1A and 1B). The following tables are designed to collect all BOS costs currently budgeted, regardless of appropriation, e.g., Operations and Maintenance, Research and Development, Military Personnel, etc. Data must reflect FY 1996 and should be reported in thousands of dollars.

a. Table 1A - Base Operating Support Costs (Other Than DBOF Overhead).

This Table should be completed to identify "Other Than DBOF Overhead" Costs. Display, in the format shown on the table, the O&M, R&D and MPN resources currently budgeted for BOS services. O&M cost data must be consistent with data provided on the BS-1 exhibit. Report only direct funding for the activity. Host activities should not include reimbursable support provided to tenants, since tenants will be separately reporting these costs. Military personnel costs should be included on the appropriate lines of the table. Please ensure that individual lines of the table do not include duplicate costs. Add additional lines to the table (following line 2j., as necessary, to identify any additional cost elements not currently shown). Leave shaded areas of table blank.

**DATA CALL 66
INSTALLATION RESOURCES**

Table 1A - Base Operating Support Costs (Other Than DBOF Overhead)			
Activity Name: Naval Justice School Newport Ri		UIC: 62750	
Category	FY 1996 BOS Costs (\$000)		
	Non-Labor	Labor	Total
1. Real Property Maintenance Costs:			
1a. Maintenance and Repair			
1b. Minor Construction			
1c. Sub-total 1a. and 1b.			
2. Other Base Operating Support Costs:			
2a. Utilities	70		70
2b. Transportation			
2c. Environmental			
2d. Facility Leases			
2e. Morale, Welfare & Recreation			
2f. Bachelor Quarters			
2g. Child Care Centers			
2h. Family Service Centers			
2i. Administration			
2j. Other (Specify) Oth Eng Supp	61		61
2k. Sub-total 2a. through 2j:	131		131
3. Grand Total (sum of 1c. and 2k.):	131		131

**DATA CALL 66
INSTALLATION RESOURCES**

b. Funding Source. If data shown on Table 1A reflects more than one appropriation, then please provide a break out of the total shown for the "3. Grand-Total" line, by appropriation:

<u>Appropriation</u>	<u>Amount (\$000)</u>
O&M,N	131.0

c. Table 1B - Base Operating Support Costs (DBOF Overhead). This Table should be submitted for all current DBOF activities. Costs reported should reflect BOS costs supporting the DBOF activity itself (usually included in the G&A cost of the activity). For DBOF activities which are tenants on another installation, total cost of BOS incurred by the tenant activity for itself should be shown on this table. It is recognized that differences exist among DBOF activity groups regarding the costing of base operating support: some groups reflect all such costs only in general and administrative (G&A), while others spread them between G&A and production overhead. Regardless of the costing process, all such costs should be included on Table 1B. The Minor Construction portion of the FY 1996 capital budget should be included on the appropriate line. Military personnel costs (at civilian equivalency rates) should also be included on the appropriate lines of the table. Please ensure that individual lines of the table do not include duplicate costs. Also ensure that there is no duplication between data provided on Table 1A. and 1B. These two tables must be mutually exclusive, since in those cases where both tables are submitted for an activity, the two tables will be added together to estimate total BOS costs at the activity. Add additional lines to the table (following line 2l., as necessary, to identify any additional cost elements not currently shown). Leave shaded areas of table blank.

Other Notes: All costs of operating the five Major Range Test Facility Bases at DBOF activities (even if direct RDT&E funded) should be included on Table 1B. Weapon Stations should include underutilized plant capacity costs as a DBOF overhead "BOS expense" on Table 1B..

**DATA CALL 66
INSTALLATION RESOURCES**

**DATA CALL 66
INSTALLATION RESOURCES**

2. Services/Supplies Cost Data. The purpose of Table 2 is to provide information about projected FY 1996 costs for the purchase of services and supplies by the activity. (Note: Unlike Question 1 and Tables 1A and 1B, above, this question is not limited to overhead costs.) The source for this information, where possible, should be either the NAVCOMPT OP-32 Budget Exhibit for O&M activities or the NAVCOMPT UC/FUND-1/IF-4 exhibit for DBOF activities. Information must reflect FY 1996 budget data supporting the FY 1996 NAVCOMPT Budget Submit. Break out cost data by the major sub-headings identified on the OP-32 or UC/FUND-1/IF-4 exhibit, disregarding the sub-headings on the exhibit which apply to civilian and military salary costs and depreciation. Please note that while the OP-32 exhibit aggregates information by budget activity, this data call requests OP-32 data for the activity responding to the data call. Refer to NAVCOMPTINST 7102.2B of 23 April 1990, Subj: Guidance for the Preparation, Submission and Review of the Department of the Navy (DON) Budget Estimates (DON Budget Guidance Manual) with Changes 1 and 2 for more information on categories of costs identified. Any rows that do not apply to your activity may be left blank. However, totals reported should reflect all costs, exclusive of salary and depreciation.

Table 2 - Services/Supplies Cost Data

BRAC-95 CERTIFICATION

Reference: SECNAVNOTE 11000 of 08 December 1993

In accordance with policy set forth by the Secretary of the Navy, personnel of the Department of the Navy, uniformed and civilian, who provide information for use in the BRAC-95 process are required to provide a signed certification that states "I certify that the information contained herein is accurate and complete to the best of my knowledge and belief."

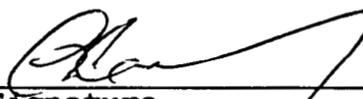

The signing of this certification constitutes a representation that the certifying official has reviewed the information and either (1) personally vouches for its accuracy and completeness or (2) has possession of, and is relying upon, a certification executed by a competent subordinate.

Each individual in your activity generating information for the BRAC-95 process must certify that information. Enclosure (1) is provided for individual certifications and may be duplicated as necessary. You are directed to maintain those certifications at your activity for audit purposes. For purposes of this certification sheet, the commander of the activity will begin the certification process and each reporting senior in the Chain of Command reviewing the information will also sign this certification sheet. This sheet must remain attached to this package and be forwarded up the Chain of Command. Copies must be retained by each level in the Chain of Command for audit purposes.

I certify that the information contained herein is accurate and complete to the best of my knowledge and belief.

3. Contractor Workyears.

a. On-Base Contract Workyear Table. Provide a projected estimate of the number of contract workyears expected to be performed "on base" in support of the installation during FY 1996. Information should represent an annual estimate on a full-time equivalency basis. Several categories of contract support have been identified in the table below. While some of the categories are self-explanatory, please note that the category "mission support" entails management support, labor service and other mission support contracting efforts, e.g., aircraft maintenance, RDT&E support, technical services in support of aircraft and ships, etc.

Table 3 - Contract Workyears	
Activity Name: Naval Legal Service Office Detachment Newport RI	UIC: 68340
Contract Type	FY 1996 Estimated Number of Workyears On-Base
Construction:	0
Facilities Support:	0
Mission Support:	0
Procurement:	0
Other:*	0
Total Workyears:	0

* Note: Provide a brief narrative description of the type(s) of contracts, if any, included under the "Other" category.

**DATA CALL 66
INSTALLATION RESOURCES**

b. Potential Disposition of On-Base Contract Workyears. If the mission/functions of your activity were relocated to another site, what would be the anticipated disposition of the on-base contract workyears identified in Table 3.?

1) Estimated number of contract workyears which would be transferred to the receiving site (This number should reflect the number of jobs which would in the future be contracted for at the receiving site, not an estimate of the number of people who would move or an indication that work would necessarily be done by the same contractor(s)):

N/A

2) Estimated number of workyears which would be eliminated:

N/A

3) Estimated number of contract workyears which would remain in place (i.e., contract would remain in place in current location even if activity were relocated outside of the local area):

N/A

**DATA CALL 66
INSTALLATION RESOURCES**

c. "Off-Base" Contract Workyear Data. Are there any contract workyears located in the local community, but not on-base, which would either be eliminated or relocated if your activity were to be closed or relocated? If so, then provide the following information (ensure that numbers reported below do not double count numbers included in 3.a. and 3.b., above):

No. of Additional Contract Workyears Which Would Be Eliminated	General Type of Work Performed on Contract (e.g., engineering support, technical services, etc.)
N/A	

No. of Additional Contract Workyears Which Would Be Relocated	General Type of Work Performed on Contract (e.g., engineering support, technical services, etc.)
N/A	

BRAC-95 CERTIFICATION

Reference: SECNAVNOTE 11000 of 08 December 1993

In accordance with policy set forth by the Secretary of the Navy, personnel of the Department of the Navy, uniformed and civilian, who provide information for use in the BRAC-95 process are required to provide a signed certification that states "I certify that the information contained herein is accurate and complete to the best of my knowledge and belief."

The signing of this certification constitutes a representation that the certifying official has reviewed the information and either (1) personally vouches for its accuracy and completeness or (2) has possession of, and is relying upon, a certification executed by a competent subordinate.

Each individual in your activity generating information for the BRAC-95 process must certify that information. Enclosure (1) is provided for individual certifications and may be duplicated as necessary. You are directed to maintain those certifications at your activity for audit purposes. For purposes of this certification sheet, the commander of the activity will begin the certification process and each reporting senior in the Chain of Command reviewing the information will also sign this certification sheet. This sheet must remain attached to this package and be forwarded up the Chain of Command. Copies must be retained by each level in the Chain of Command for audit purposes.

I certify that the information contained herein is accurate and complete to the best of my knowledge and belief.

**DATA CALL 66
INSTALLATION RESOURCES**

Activity Information:

Activity Name:	NTCC NEWPORT
UIC:	N47633
Host Activity Name (if response is for a tenant activity):	NAVAL EDUCATION AND TRAINING CENTER, NEWPORT
Host Activity UIC:	N62661

General Instructions/Background. A separate response to this data call must be completed for each Department of the Navy (DON) host, independent and tenant activity which separately budgets BOS costs (regardless of appropriation), and, is located in the United States, its territories or possessions.

1. Base Operating Support (BOS) Cost Data. Data is required which captures the total annual cost of operating and maintaining Department of the Navy (DON) shore installations. Information must reflect FY 1996 budget data supporting the FY 1996 NAVCOMPT Budget Submit. Two tables are provided. Table 1A identifies "Other than DBOF Overhead" BOS costs and Table 1B identifies "DBOF Overhead" BOS costs. These tables must be completed, as appropriate, for all DON host, independent or tenant activities which separately budget BOS costs (regardless of appropriation), and, are located in the United States, its territories or possessions. Responses for DBOF activities may need to include both Table 1A and 1B to ensure that all BOS costs, including those incurred by the activity in support of tenants, are identified. If both table 1A and 1B are submitted for a single DON activity, please ensure that no data is double counted (that is, included on both Table 1A and 1B). The following tables are designed to collect all BOS costs currently budgeted, regardless of appropriation, e.g., Operations and Maintenance, Research and Development, Military Personnel, etc. Data must reflect FY 1996 and should be reported in thousands of dollars.

a. Table 1A - Base Operating Support Costs (Other Than DBOF Overhead).

This Table should be completed to identify "Other Than DBOF Overhead" Costs. Display, in the format shown on the table, the O&M, R&D and MPN resources currently budgeted for BOS services. O&M cost data must be consistent with data provided on the BS-1 exhibit. Report only direct funding for the activity. Host activities should not include reimbursable support provided to tenants, since tenants will be separately reporting these costs. Military personnel costs should be included on the appropriate lines of the table. Please ensure that individual lines of the table do not include duplicate costs. Add additional

**DATA CALL 66
INSTALLATION RESOURCES**

lines to the table (following line 2j., as necessary, to identify any additional cost elements not currently shown). Leave shaded areas of table blank.

Table 1A - Base Operating Support Costs (Other Than DBOF Overhead)			
Activity Name: NTCC NEWPORT		UIC: N47633	
Category	FY 1996 BOS Costs (\$000)		
	Non-Labor	Labor	Total
1. Real Property Maintenance Costs:			
1a. Maintenance and Repair	0	0	0
1b. Minor Construction	0	0	0
1c. Sub-total 1a. and 1b.	0	0	0
2. Other Base Operating Support Costs:			
2a. Utilities	21	0	21
2b. Transportation	0	0	0
2c. Environmental	0	0	0
2d. Facility Leases	0	0	0
2e. Morale, Welfare & Recreation	0	0	0
2f. Bachelor Quarters	0	0	0
2g. Child Care Centers	0	0	0
2h. Family Service Centers	0	0	0
2i. Administration	0	0	0
2j. Other (Specify) Telephones	8	0	8
2k. Sub-total 2a. through 2j:	29	0	29
3. Grand Total (sum of 1c. and 2k.):	29	0	29

**DATA CALL 66
INSTALLATION RESOURCES**

b. Funding Source. If data shown on Table 1A reflects more than one appropriation, then please provide a break out of the total shown for the "3. Grand-Total" line, by appropriation: N/A

Appropriation Amount (\$000)

c. Table 1B - Base Operating Support Costs (DBOF Overhead). This Table should be submitted for all current DBOF activities. Costs reported should reflect BOS costs supporting the DBOF activity itself (usually included in the G&A cost of the activity). For DBOF activities which are tenants on another installation, total cost of BOS incurred by the tenant activity for itself should be shown on this table. It is recognized that differences exist among DBOF activity groups regarding the costing of base operating support: some groups reflect all such costs only in general and administrative (G&A), while others spread them between G&A and production overhead. Regardless of the costing process, all such costs should be included on Table 1B. The Minor Construction portion of the FY 1996 capital budget should be included on the appropriate line. Military personnel costs (at civilian equivalency rates) should also be included on the appropriate lines of the table. Please ensure that individual lines of the table do not include duplicate costs. Also ensure that there is no duplication between data provided on Table 1A. and 1B. These two tables must be mutually exclusive, since in those cases where both tables are submitted for an activity, the two tables will be added together to estimate total BOS costs at the activity. Add additional lines to the table (following line 21., as necessary, to identify any additional cost elements not currently shown). **Leave shaded areas of table blank.**

Other Notes: All costs of operating the five Major Range Test Facility Bases at DBOF activities (even if direct RDT&E funded) should be included on Table 1B. Weapon Stations should include underutilized plant capacity costs as a DBOF overhead "BOS expense" on Table 1B..

**DATA CALL 66
INSTALLATION RESOURCES**

Table 1B - Base Operating Support Costs (DBOF Overhead)			
Activity Name: NTCC NEWPORT		UIC: N47633	
Category	FY 1996 Net Cost From UC/FUND-4 (\$000)		
	Non-Labor	Labor	Total
1. Real Property Maintenance Costs:			
1a. Real Property Maintenance (> \$15K)	0	0	0
1b. Real Property Maintenance (< \$15K)	0	0	0
1c. Minor Construction (Expensed)	0	0	0

4. Grand Total (sum of 1e., 2m., and 3.) :	0	0	0

**DATA CALL 66
INSTALLATION RESOURCES**

2. Services/Supplies Cost Data. The purpose of Table 2 is to provide information about projected FY 1996 costs for the purchase of services and supplies by the activity. (Note: Unlike Question 1 and Tables 1A and 1B, above, this question is not limited to overhead costs.) The source for this information, where possible, should be either the NAVCOMPT OP-32 Budget Exhibit for O&M activities or the NAVCOMPT UC/FUND-1/IF-4 exhibit for DBOF activities. Information must reflect FY 1996 budget data supporting the FY 1996 NAVCOMPT Budget Submit. Break out cost data by the major sub-headings identified on the OP-32 or UC/FUND-1/IF-4 exhibit, disregarding the sub-headings on the exhibit which apply to civilian and military salary costs and depreciation. Please note that while the OP-32 exhibit aggregates information by budget activity, this data call requests OP-32 data for the activity responding to the data call. Refer to NAVCOMPTINST 7102.2B of 23 April 1990, Subj: Guidance for the Preparation, Submission and Review of the Department of the Navy (DON) Budget Estimates (DON Budget Guidance Manual) with Changes 1 and 2 for more information on categories of costs identified. Any rows that do not apply to your activity may be left blank. However, totals reported should reflect all costs, exclusive of salary and depreciation.

**DATA CALL 66
INSTALLATION RESOURCES**

3. Contractor Workyears.

a. On-Base Contract Workyear Table. Provide a projected estimate of the number of contract workyears expected to be performed "on base" in support of the installation during FY 1996. Information should represent an annual estimate on a full-time equivalency basis. Several categories of contract support have been identified in the table below. While some of the categories are self-explanatory, please note that the category "mission support" entails management support, labor service and other mission support contracting efforts, e.g., aircraft maintenance, RDT&E support, technical services in support of aircraft and ships, etc.

Table 3 - Contract Workyears	
Activity Name: NTCC NEWPORT	UIC: N47633
Contract Type	FY 1996 Estimated Number of Workyears On-Base
Construction:	0
Facilities Support:	0
Mission Support:	0
Procurement:	0
Other:*	0
Total Workyears:	0

* **Note:** Provide a brief narrative description of the type(s) of contracts, if any, included under the "Other" category.

**DATA CALL 66
INSTALLATION RESOURCES**

b. Potential Disposition of On-Base Contract Workyears. If the mission/functions of your activity were relocated to another site, what would be the anticipated disposition of the on-base contract workyears identified in Table 3.?

1) Estimated number of contract workyears which would be transferred to the receiving site (This number should reflect the number of jobs which would in the future be contracted for at the receiving site, not an estimate of the number of people who would move or an indication that work would necessarily be done by the same contractor(s)):

NONE.

2) Estimated number of workyears which would be eliminated:

NONE.

3) Estimated number of contract workyears which would remain in place (i.e., contract would remain in place in current location even if activity were relocated outside of the local area):

NONE.

**DATA CALL 66
INSTALLATION RESOURCES**

c. "Off-Base" Contract Workyear Data. Are there any contract workyears located in the local community, but not on-base, which would either be eliminated or relocated if your activity were to be closed or relocated? If so, then provide the following information (ensure that numbers reported below do not double count numbers included in 3.a. and 3.b., above):

No. of Additional Contract Workyears Which Would Be Eliminated	General Type of Work Performed on Contract (e.g., engineering support, technical services, etc.)
0	

No. of Additional Contract Workyears Which Would Be Relocated	General Type of Work Performed on Contract (e.g., engineering support, technical services, etc.)

ENVIRONMENTAL COMPLIANCE	13
INSTALLATION RESTORATION	14
LAND/AIR/WATER USE	16
WRAP-UP.	20

ENVIRONMENTAL DATA CALL

Responses to the following questions provide data that will allow an assessment of the potential environmental impact associated with the closure or realignment of a Navy shore activity. This criterion consists of:

- Endangered/Threatened Species and Biological Habitat
- Wetlands
- Cultural Resources
- Environmental Facilities
- Air Pollution
- Environmental Compliance
- Installation Restoration
- Land/Air/Water Use

As part of the answers to these questions, a *source citation* (e.g., **1993** base loading, **1993** base-wide Endangered Species Survey, **1993** letter from USFWS, **1993** Base Master Plan, **1993** Permit Application, **1993** PA/SI, etc.) must be included. It is probable that, at some point in the future, you will be asked to provide additional information detailing specifics of individual characteristics. In anticipation of this request, supporting documentation (e.g., maps, reports, letters, etc.) regarding answers to these questions should be retained. Information needed to answer these questions is available from the cognizant EFD Planning and Real Estate Divisions, and Environment, Safety, and Health Divisions; and from the activity Public Works Department, and activity Health Monitoring and Safety Offices.

For purposes of the questions associated with land use at your base is *defined as land* (acreage owned, withdrawn, leased, and controlled through easements); *air* (space controlled through agreements with the FAA, e.g., MOAs); and *water* (navigation channels and waters along a base shoreline) *under the control of the Navy*.

Provide a list of tenant activities with UICs that are covered in this response.

35358, 35400, 39235, 41986, 41987, 42921, 43099, 44211, 47313, 49112,
53103, 62750, 30451, 62802, 63054, 42923, 63190, 43269, 41918, 30465,
49913, 65580, 66128, 66647, 66962, 68322, 68340, 68351, 47533, 81387,
83414, 32001, 41511, 41729, 42115, 42128, 42130, 43664, 43728, 43845,
43846, 44246, 45222, 45766, 45829, 47426, 48641, 49134, 49372, 66949

1. ENDANGERED/THREATENED SPECIES AND BIOLOGICAL HABITAT

1a. For federal or state listed endangered, threatened, or category 1 plant and/or animal species on your base, complete the following table. Critical/sensitive habitats for these species are designated by the U. S. Fish and Wildlife Service (USFWS). A species is present on your base if some part of its life-cycle occurs on Navy controlled property (e.g., nesting, feeding, loafing). Important Habitat refers to that number of acres of habitat that is important to some life cycle stage of the threatened/endangered species that is not formally designated.

S P E C I E S (plant or animal)	Designation (Threatened/ Endangered)	Federal/ State	Critical / Designated Habitat (Acres)	Importan t Habitat (acres)
example: <i>Haliaeetus leucocephalus</i> - bald eagle	threatened	Federal	25	0
*				

Source Citation: Rhode Island Dept. of Environmental Management, Div. of Planning & Development, Natural Heritage Program (10/6/89 Report)

- * 1. No habitats for rare species are available at NETC.
- 2. Potential for any rare species on the NETC property is extremely low.

1B.

<p>Have your base operations or development plans been constrained due to:</p> <ul style="list-style-type: none"> - USFWS or National Marine Fisheries Service (NMFS)? - State required modifications or constraints? <p>If so, identify below the impact of the constraints including any restrictions on land use.</p>	NO
--	----

Are there any requirements resulting from species not residing on base, but which migrate or are present nearby? If so, summarize the impact of such constraints.	NO
---	----

1c. If the area of the habitat and the associated species have not been identified on base maps provided in Data Call 1, submit this information on an updated version of Data Call 1 map.

Not Applicable (N/A)

1d.

Have any efforts been made to relocate any species and/or conduct any mitigation with regards to critical habitats or endangered/threatened species? Explain what has been done and why.	N/A
--	-----

1e.

Will any state or local laws and/or regulations applying to endangered/threatened species which have been enacted or promulgated but not yet effected, constrain base operations or development plans beyond those already identified? Explain.	NO
---	----

2. WETLANDS

NOTE: Jurisdictional wetlands are those areas that meet the wetland definitional criteria detailed in the Corps of Engineers (COE) Wetland Delineation Manual, 1987, Technical Report Y-87-1, U.S. Army Engineer Waterway Experiment Station, Vicksburg, MS or officially adapted state definitions.

2A.

Does your base possess federal jurisdictional wetlands?	YES
Has a wetlands survey in accordance with established standards been conducted for your base?	NO 1
When was the survey conducted or when will it be conducted? _____/_____/_____	N/ A
What percent of the base has been surveyed?	N/ A
What is the total acreage of jurisdictional wetlands present on your base?	<5 AC

Source Citation: National Wetland Inventory Map, USFWS

1. EFD has been tasked to complete. Due to loss of manpower at EFD, this tasking has been placed on hold.

2B. If the area of the wetlands has not been identified on base maps provided in Data Call 1, submit this on an updated version of Data Call 1 map.

A copy of the applicable National Wetland Inventory Map has been submitted as ~~pages 5, 3, 5, 3, and 5, 4. PLEASE NOTE THAT THESE MAPS ARE OUT OF DATE (FROM 1979). UPDATED MAPS ARE BEING DEVELOPED AND WILL BE FORWARDED UNDER SEPARATE COVER. GPM/mbly CRT 1043 26 JUN 94~~

GPM/mbly
CRT
1043
4 JUN 94

2C. Has the EPA, COE or a state wetland regulatory agency required you to modify or constrain base operations or development plans in any way in order to accommodate a jurisdictional wetland? No
If YES, summarize the results of such modifications or constraints.

3. CULTURAL RESOURCES

3A.

Has a survey been conducted to determine historic sites, structures, districts or archaeological resources which are listed, or determined eligible for listing, on the National Register of Historic Places? If so, list the sites below.	YES S*
--	-----------

* THREE COPIES OF NATIONAL WETLAND INVENTORY MAP ARE ENCLOSED AT END OF PACKAGE. GPM/mbly CRT 1043 4 JUN 94

*Survey over 10 years old. New survey being scheduled with Engineering Field Division.

- Historical (National Register) cemetery surrounded by State property at Fort Adams.

- Historical district at Fort Adams - Jackson Drive Quarters 2, 2B, 2C, 3-4, 5-6, 7-8, 9-10, and 13-14.

- On Coasters Harbor Island - Quarters AA

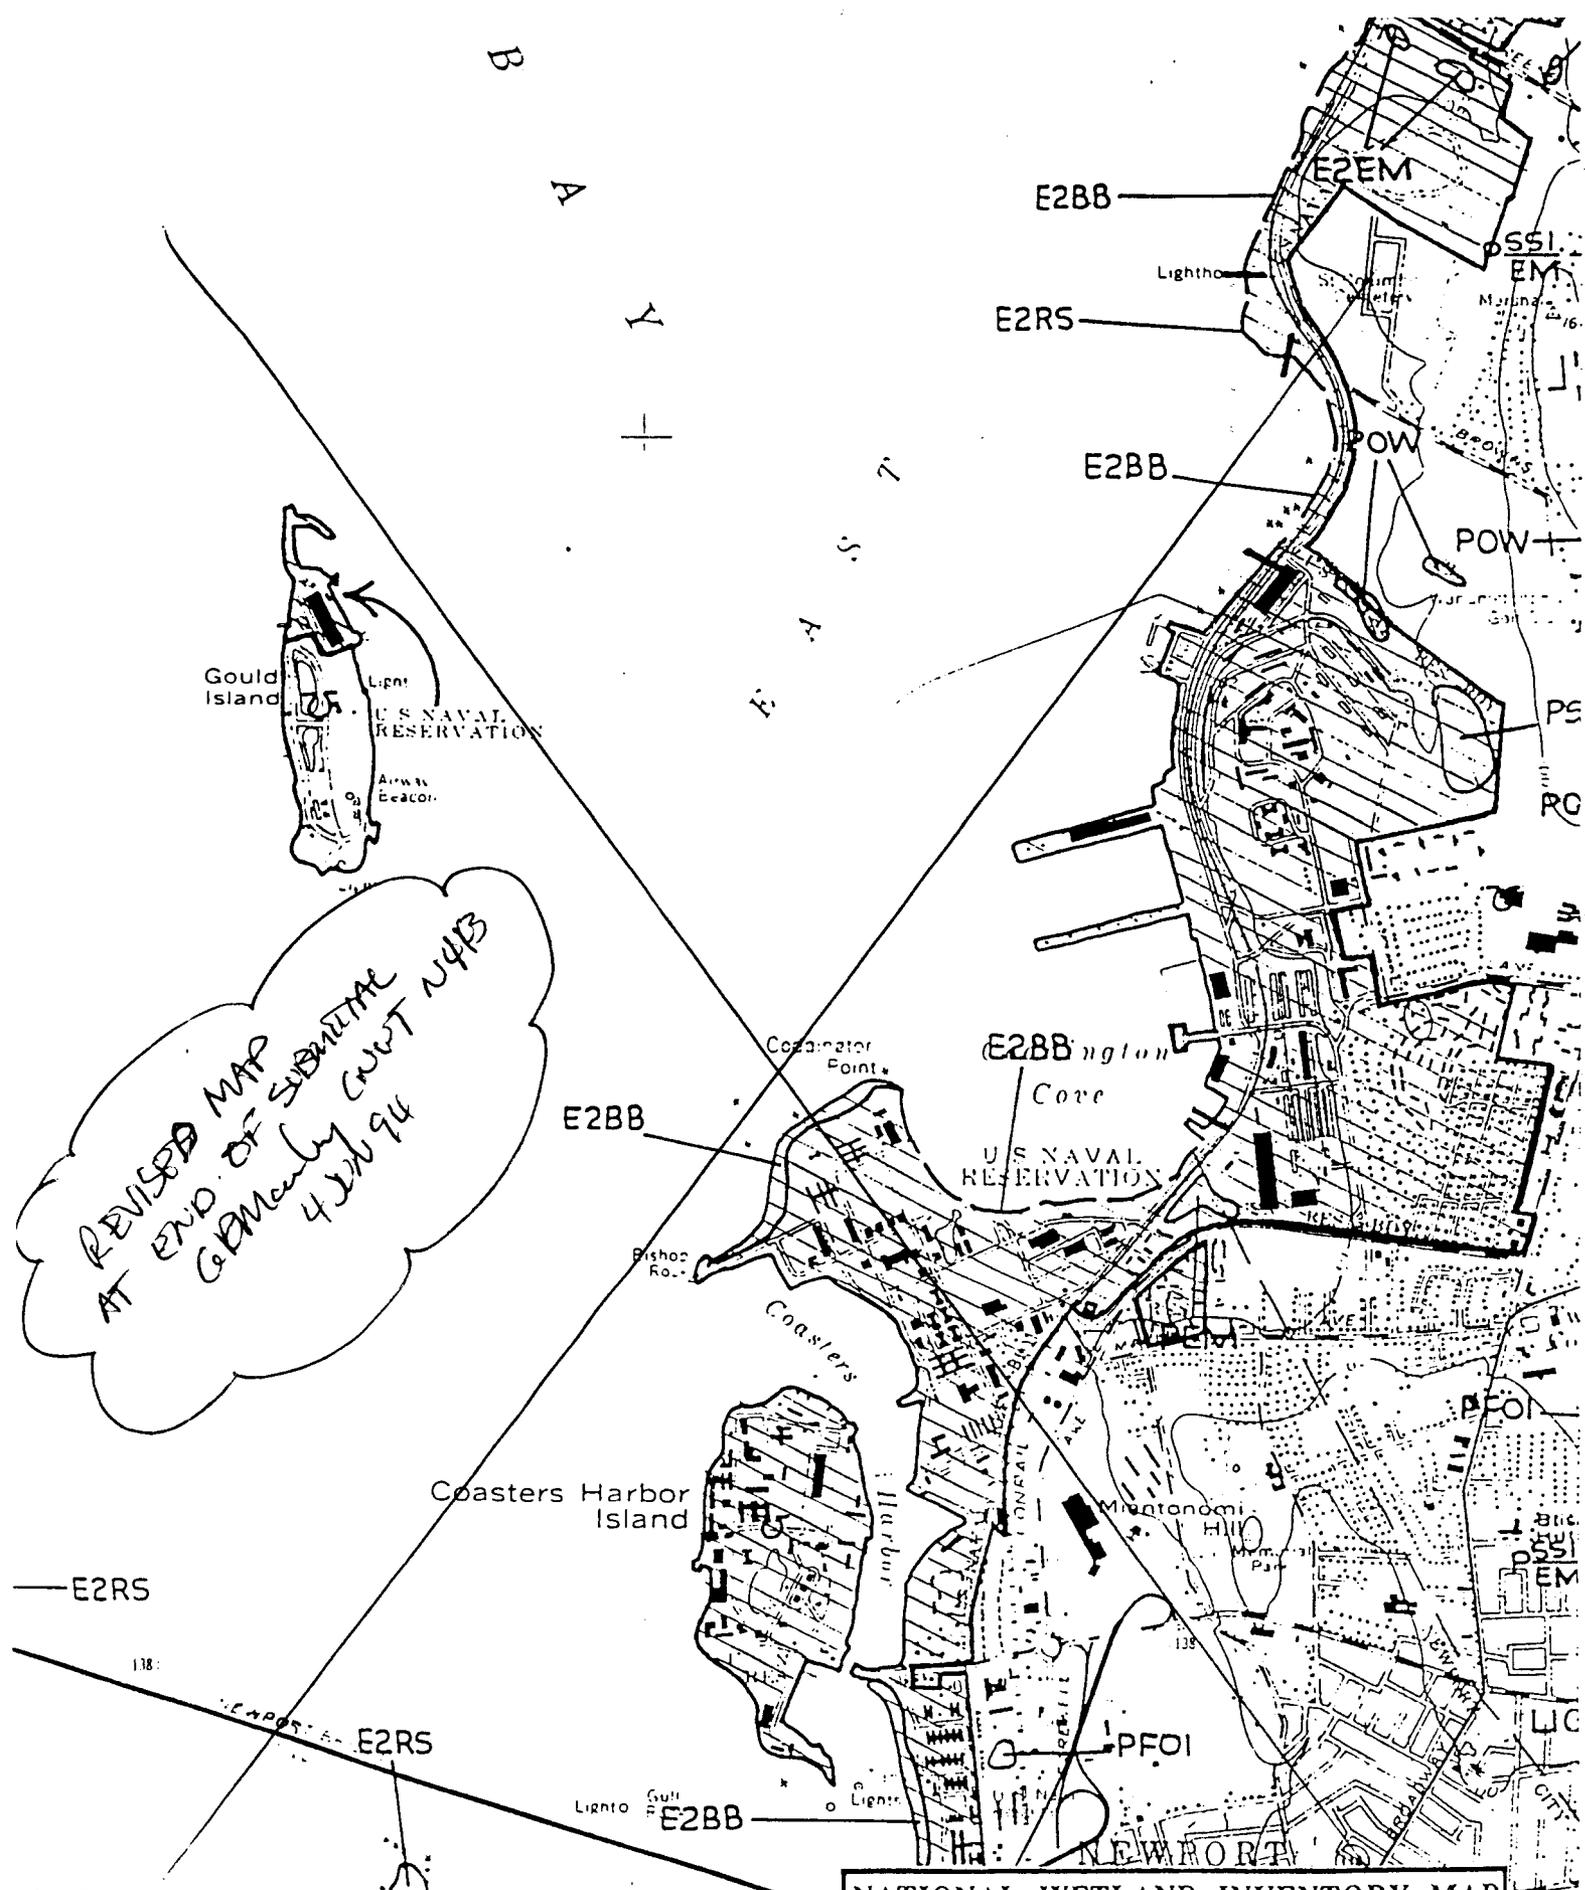

- On Coddington Point Quarters NB - 1.

- State identified Historic District within the Naval War College area, slightly extends into NETC property incorporating Quarters "AA" and "A".

- Known cemetery on Coasters Harbor Island with unknown number of bodies. Indigent burial site, circa late 1700s for former poorhouse once located in Bldg 10, Naval War College. No known significance.

3B.

<p>Has the President's Advisory Council on Historic Preservation or the cognizant State Historic Preservation Officer required you to mitigate or constrain base operations or development plans in any way in order to accommodate a National Register cultural resource? If YES, list the results of such modifications or constraints below.</p>	<p>NO</p>
---	-----------

3c.

<p>Are there any on base areas identified as sacred areas or burial sites by Native Americans or others? List below.</p>	<p>NO</p>
--	-----------

4. ENVIRONMENTAL FACILITIES

NOTES: If your facility is permitted for less than maximum capacity, state the maximum capacity and explain below the associated table why it is not permitted for maximum capacity. Under "Permit Status" state when the permit expires, and whether the facility is operating under a waiver. For permit violations, limit the list to the last 5 years.

4A.

Does your base have an operating landfill?				NO	
ID/Location of Landfill	Permitted Capacity (CYD)		Maximum Capacity (CYD)	Contents ¹	Permit Status
	TOTAL	Remain ing			

¹ Contents (e.g. building demolition, asbestos, sanitary debris, etc)

Are there any current or programmed projects to correct deficiencies or improve the facility.

N/A

4B. If there are any non-Navy users of the landfill, describe the user and conditions/agreements.

N/A

4c.

Does your base have any disposal, recycling, or incineration facilities for solid waste?					YES
Facility/ Type of Operation	Permitted Capacity	Ave Daily Through- put	Max- imum Cap- acity	Permit Status	Comments
Recycling	N/A	0.6 tons	1.2 tons	N/A	Paper, glass, aluminum and tin can, plastic, cardboard and scrap metal collection facility.
Scrap yard	N/A	1.0 tons	4.0 tons	N/A	Scrap metal segregation

List any permit violations and projects to correct deficiencies or improve the facility.

No permit violations. Several pieces of equipment including a bailer and glass crusher have been purchased to improve processing capabilities within the last two years.

4d.

Does your base own/operate a Domestic Wastewater Treatment Plant (WWTP) ?					YES
ID/ Location of WWTP	Permitted Capacity	Ave Daily Discharg- e Rate	Maximum Capacity	Permi- t Statu- s	Level of Treatment/Year Built
RIPDES Permit # 0090000 FA Fort Adams	250,000 GPD	Average 70,000 GPD	220,000 GPD	YES	Level II treatment/ Built late 1960's (FT Adams sewage only; NETC sewage is processed at the Newport Treatment Plant.)

Revised pg

List permit violations and discuss any projects to correct deficiencies.

Failed 85% Total Suspended Solids (TSS) removal rate for Jan-Jun and Sep-Dec 93 and Jan-Apr 94. Also failed TSS effluent monthly average of 30 mg/l for Aug 93. No Notices of Violations have been received to date for the above exceptions. Sludge pumps have been replaced and suggestions from a plant inspection by Engineering Field Division are expected to improve operations. FY 95 MILCON project will tie the sewer system into the Newport Treatment Plant resulting in plant closure.

4E. If you do not have a domestic WWTP, describe the average discharge rate of your base to the local sanitary sewer authority, discharge limits set by the sanitary sewer authority (flow and pollutants) and whether the base is in compliance with their permit. Discuss recurring discharge violations.

NETC sewage is discharged to the Newport Treatment Plant. The NETC sewage outfalls are permitted under RIPDES permit # 0090000, same as Fort Adams. Average daily discharge to Newport is 1.9 mgd (Max discharge is 2.9 mgd); no discharge limit has been set by Newport. This Flow includes 1% from private users. The pollutant discharge limits are the same as the National Discharge Pollutant Limits as listed in 40 CFR 401-471, with the following exceptions (in mg/L):

cadmium	0.8	nickel	3.0	cyanides	0.0
chromium(tri)	3.0	silver	3.0	sulfides	100.0
chromium(hex)	1.0	phenols	1.0	sulfates	500.0
copper	1.0	tin	0.0	floating oil	0.0
gold	3.0	zinc	1.2	fluoride	5.0
iron	15.0	other metal	2.0	mercury	0.5
lead	0.1	solvents	0.0		

4F.

Does your base operate an Industrial Waste Treatment Plant (IWTP)?					NO
ID/Location of IWTP	Type of Treatment	Permitted Capacity	Ave Daily Discharge Rate	Maximum Capacity	Permit Status

List any permit violations and projects to correct deficiencies or improve the facility.

N/A

4G. Are there other waste treatment flows not accounted for in the previous tables? Estimate capacity and describe the system.

NO

List permit violations and discuss any projects to correct deficiencies.

Failed 85% Total Suspended Solids (TSS) removal rate for Jan-Jun and Sep-Dec 93 and Jan-Apr 94. Also failed TSS effluent monthly average of 30 mg/l for Aug 93. No Notices of Violations have been received to date for the above exceedences. Sludge pumps have been replaced and suggestions from a plant inspection by Engineering Field Division are expected to improve operations. FY95 MILCON project will tie the sewer system into the Newport Treatment Plant resulting in plant closure.

4E. If you do not have a domestic WWTP, describe the average discharge rate of your base to the local sanitary sewer authority, discharge limits set by the sanitary sewer authority (flow and pollutants) and whether the base is in compliance with their permit. Discuss recurring discharge violations.

NETC sewage is discharged to the Newport Treatment Plant. The NETC sewage outfalls are permitted under RIPDES permit # 0090000, same as Fort Adams. Average daily discharge to Newport is 1.5 mgd; no discharge limit has been set by Newport. This Flow includes 1% from private users. The pollutant discharge limits are the same as the National Discharge Pollutant Limits as listed in 40 CFR 401-471, with the following exceptions (in mg/L):

cadmium	0.8	nickel	3.0	cyanides	0.0
chromium(tri)	3.0	silver	3.0	sulfides	100.0
chromium(hex)	1.0	phenols	1.0	sulfates	500.0
copper	1.0	tin	0.0	floating oil	0.0
gold	3.0	zinc	1.2	fluoride	5.0
iron	15.0	other metal	2.0	mercury	0.5
lead	0.1	solvents	0.0		

4F.

Does your base operate an Industrial Waste Treatment Plant (IWTP)?					NO
ID/Location of IWTP	Type of Treatment	Permitted Capacity	Ave Daily Discharge Rate	Maximum Capacity	Permit Status

List any permit violations and projects to correct deficiencies or improve the facility.

N/A

4G. Are there other waste treatment flows not accounted for in the previous tables? Estimate capacity and describe the system.

NO

4h.

Does your base operate drinking Water Treatment Plants (WTP)?				NO	
ID/Location of WTP	Operating (GPD)		Method of Treatment	Maximum Capacity	Permit Status
	Permitted Capacity	Daily Rate			

List permit violations and projects/actions to correct deficiencies or improve the facility.

Not applicable, there are no violations.

4i. If you do not operate a WTP, what is the source of the base potable water supply. State terms and limits on capacity in the agreement/contract, if applicable.

NETC obtains potable water from Newport, however, we do treat the water with chlorine and have 17 chlorine stations. We have 2 potable water systems, one at Fort Adams (PWSID: 1900046) and one at NETC (PWSID: 1000016). RI inspections have identified various system and operating deficiencies which have been corrected or are being corrected by several contracts. All contracts are scheduled to be completed by 9/94. We use approximately 1.3 million gallons of water per day which includes 1% for private users. Maximum capacity is 2.5 million gallons.

R

4j.

Does the presence of contaminants or lack of supply of water constrain base operations. Explain.	NO*
--	-----

* NETC has several reservoirs filled with potable water that could be placed on line should it be needed. The total capacity of these reservoirs is in excess 7 million gallons. All testing has shown no contaminants in the potable water system.

4k.

Other than those described above does your base hold any NPDES or stormwater permits? If YES, describe permit conditions.	YES
If NO, why not and provide explanation of plan to achieve permitted status.	

4H. NO

Does your base operate drinking Water Treatment Plants (WTP)?				NO	
ID/Location of WTP	Operating (GPD)		Method of Treatment	Maximum Capacity	Permit Status
	Permitted Capacity	Daily Rate			

List permit violations and projects/actions to correct deficiencies or improve the facility.

N/A

4I. If you do not operate a WTP, what is the source of the base potable water supply. State terms and limits on capacity in the agreement/contract, if applicable.

NETC obtains potable water from Newport, however, we do treat the water with chlorine and have 17 chlorine stations. We have 2 potable water systems, one at Fort Adams (PWSID: 1900046) and one at NETC (PWSID: 1000016). RI inspections have identified various system and operating deficiencies which have been corrected or are being corrected by several contracts. All contracts are scheduled to be completed by 9/94. We use approximately 1.0 million gallons of water per day which includes 1% for private users.

4J.

Does the presence of contaminants or lack of supply of water constrain base operations. Explain.	NO*
--	-----

* NETC has several reservoirs filled with potable water that could be placed on line should it be needed. The total capacity of these reservoirs is in excess 7 million gallons. All testing has shown no contaminants in the potable water system.

4K.

Other than those described above does your base hold any NPDES or stormwater permits? If YES, describe permit conditions.	YES
If NO, why not and provide explanation of plan to achieve permitted status.	

Storm water general permit for NETC, RIPDES permit # RIR800126, which is a class III permit; however, no testing is required at this time. Beginning in 1996, semi-annual testing may be required for the following: Total recoverable magnesium; dissolved magnesium; TKN; BOD5; TDS; TOC; oil and grease; PH; total recoverable arsenic; total recoverable barium; total recoverable cadmium; total recoverable chromium; total recoverable cyanide; total recoverable lead; total mercury; total recoverable selenium; total recoverable silver; and any pollutants listed in Tables II and III of appendix D of 40 CFR 122, if the discharger knows or has reason to believe are present at the facility. Storm water RIPDES permit at DFSP: RIPDES permit # RI0020150 includes testing for TSS, oil and grease, phenols, total acid extractables and flow monthly.

4L.

YES/NO

Does your base have bilge water discharge problem?	NO
Do you have a bilge water treatment facility?	NO

Explain: Base must coordinate bilge water removed for proper disposal upon request by visiting ships.

4M.

Will any state or local laws and/or regulations applying to Environmental Facilities, which have been enacted or promulgated but not yet effected, constrain base operations or development plans beyond those already identified? Explain.	NO
---	----

4N. What expansion capacity is possible with these Environmental Facilities? Will any expansions/upgrades as a result of BRACON or projects programmed through the Presidents budget through FY1997 result in additional capacity? Explain.

Wastewater system upgrade projects will improve/upgrade capacity including a \$3 million sewage lift station upgrade project under construction and a \$15 million sewer distribution system upgrade with an expected FY95 construction award date. Both projects include a 15-20% growth factor. The existing recycling facilities also have additional capabilities available.

4O. Do capacity limitations on any of the facilities discussed in question 4 pose a present or future limitation on base operations? Explain.

NO

1

Rev.

5. AIR POLLUTION

5A.

What is the name of the Air Quality Control Areas (AQCA) in which the base is located? AQCA 120
Is the installation or any of its OLFs or non-contiguous base properties located in different AQCA's? NO. List site, location and name of AQCA.

5B. For each parcel in a separate AQCA fill in the following table. Identify with and "X" whether the status of each regulated pollutant is: attainment/nonattainment/maintenance. For those areas which are in non-attainment, state whether they are: Marginal, Moderate, Serious, Severe, or Extreme. State target attainment year.

Site: NETC AQCA: 120

Pollutant	Attainment	Non-Attainment	Maintenance	Target Attainment Year	Comments
CO	X				NO
Ozone		X (serious)		1998	NO
PM-10	X				NO
SO ₂	X				NO
NO ₂		X (serious)		1998	NO
Pb	X				NO

Based on national standard for Non-Attainment areas or SIP for Maintenance areas.

Indicate if attainment is dependent upon BRACON, MILCON or Special Projects. Also indicate if the project is currently programmed within the Presidents FY1997 budget.

5c. For your base, identify the baseline level of emissions, established in accordance with the Clean Air Act. Baseline information is assumed to be 1990 data or other year as specified. Determine the total level of emissions (tons/yr) for CO, NOx, VOC, PM10 for the general sources listed. For all data provide a list of the sources and show your calculations. Use known emissions data, or emissions derived from use of state methodologies, or identify other sources used. "Other Mobile" sources include such items as ground support equipment.

5. AIR POLLUTION

5A.

What is the name of the Air Quality Control Areas (AQCA) in which the base is located? AQCA 120
Is the installation or any of its OLFs or non-contiguous base properties located in different AQCA's? NO . List site, location and name of AQCA.

5B. For each parcel in a separate AQCA fill in the following table. Identify with and "X" whether the status of each regulated pollutant is: attainment/nonattainment/maintenance. For those areas which are in non-attainment, state whether they are: Marginal, Moderate, Serious, Severe, or Extreme. State target attainment year.

Site: **NETC**

AQCA: **120**

Pollutant	Attainment	Non-Attainment	Maintenance	Target Attainment Year	Comments
CO	X				NO
Ozone		X* (serious)		1998	NO
PM-10	X			1998	NO
SO ₂	X				NO
NO ₂		X* (serious)		1998	NO
Pb	X				NO

Based on national standard for Non-Attainment areas or SIP for Maintenance areas.

Indicate if attainment is dependent upon BRACON, MILCON or Special Projects. Also indicate if the project is currently programmed within the Presidents FY1997 budget.

* All counties in Rhode Island are classified as "serious" non-attainment.

5C. For your base, identify the baseline level of emissions, established in accordance with the Clean Air Act. Baseline information is assumed to be 1990 data or other year as specified. Determine the total level of emissions (tons/yr) for CO, NOx, VOC, PM10 for the general sources listed. For all data provide a list of the sources and show your calculations. Use known emissions data, or emissions derived from use of state methodologies, or identify other sources used. "Other Mobile" sources include such items as ground support equipment.

NOTE: ALL UNITS IN POUNDS PER YEAR UNLESS STATED OTHERWISE.

Rev.

Emission Sources (Tons/Year)					
POLLUTANT	PERMITTED STATIONARY	PERSONAL AUTOMOBILES	AIRCRAFT EMISSIONS	OTHER MOBILE	TOTAL
CO	14.16	UNKNOWN	0	UNKNOWN	14.16
NOx	154.00	UNKNOWN	0	UNKNOWN	154.00
VOC	0.61	UNKNOWN	0	UNKNOWN	0.61
PM10	20.00	UNKNOWN	0	UNKNOWN	20.00

SOURCE DOCUMENT: 1992 AIR POLLUTION INVENTORY BEING USED AS BASE YEAR.

5b. For your base, determine the total FY1993 level of emissions (tons/yr) for CO, NOx, VOC, PM10 for the general sources listed. For all data provide a list of the sources and show your calculations. Use known emissions data, or emissions derived from use of state methodologies, or identify other sources used. "Other Mobile" sources include such items as ground support equipment. (see attached report)

Emissions Sources (Tons/Year)					
POLLUTANT	PERMITTED STATIONARY	PERSONAL AUTOMOBILES	AIRCRAFT EMISSIONS	OTHER MOBILE	TOTAL
CO	14.06	103.39	0	30.49	147.94
NOx	153.41	30.41	0	8.97	192.79
VOC	0.62	12.47	0	3.68	16.77
PM10	19.22	6.08	0	1.79	27.09

SOURCE DOCUMENT: 1993 AIR POLLUTION INVENTORY AND BEST ESTIMATES FOR MOBILE SOURCES. (SEE ATTACHED PAGE 12A FOR CALCULATIONS AND SOURCES.)

5e. Provide estimated increases/decreases in air emissions (Tons/Year of CO, NOx, VOC, PM10) expected within the next six years (1995-2001). Either from previous BRAC realignments and/or previously planned downsizing shown in the Presidents FY1997 budget. Explain.

NO

5f. Are there any critical air quality regions (i.e. non-attainment areas, national parks, etc.) within 100 miles of the base?

NO

Emission Sources (Tons/Year)					
Pollutant	Permitted Stationary	Personal Automobiles	Aircraft Emissions	Other Mobile	Total
CO	14.16	unknown	0	unknown	14.16
NOx	154.00	unknown	0	unknown	154.00
VOC	0.61	unknown	0	unknown	0.61
PM10	20.00	unknown	0	unknown	20.00

5g. Have any base operations/mission/functions (i.e.: training, R&D, ship movement, aircraft movement, military operations, support functions, vehicle trips per day, etc.) been restricted or delayed due to air quality considerations. Explain the reason for the restriction and the "fix" implemented or planned to correct.

NO

5h. Does your base have Emission Reduction Credits (ERCs) or is it subject to any emission offset requirements? If yes, provide details of the sources affected and conditions of the ERCs and offsets. Is there any potential for getting ERCs?

Yes, provided a request is filed with Rhode Island Department of Environmental Management (RIDEM) within 45 days of closure. Credits are valid for two years. NOx currently has a market value of approximately \$2,000/ton.

6. ENVIRONMENTAL COMPLIANCE

6A. IDENTIFY COMPLIANCE COSTS, CURRENTLY KNOWN OR ESTIMATED THAT ARE REQUIRED FOR PERMITS OR OTHER ACTIONS REQUIRED TO BRING EXISTING PRACTICES INTO COMPLIANCE WITH APPROPRIATE REGULATIONS. DO NOT INCLUDE INSTALLATION RESTORATION COSTS THAT ARE COVERED IN SECTION 7 OR RECURRING COSTS INCLUDED IN QUESTION 6C. FOR THE LAST TWO COLUMNS PROVIDE THE COMBINED TOTAL FOR THOSE TWO FY'S.

PROGRAM	SURVEY COMPLETED	COSTS IN \$K TO CORRECT DEFICIENCIES

TOTAL	"	1881	1351	4210	4620	3860	400

* INCLUDES CLEAN-UP ACTIVITIES ASSOCIATED WITH LEAKING USTs.

PROVIDE A SEPARATE LIST OF COMPLIANCE PROJECTS IN PROGRESS OR REQUIRED, WITH ASSOCIATED COST AND ESTIMATED START/COMPLETION DATE.

SEE PAGE 14A FOR PROJECT SPECIFIC INFORMATION.

6. ENVIRONMENTAL COMPLIANCE

COMPLIANCE COSTS SHOWN IN RESPONSE TO QUESTION 6A AND REOCCURRING COSTS SHOWN IN QUESTION 6C ARE SUPPORTED BY DATA FOUND ON PAGES 14A.1 THROUGH 14A.5, REFERRED TO HENCE AS "NETC NEWPORT RI ENVIRONMENTAL PROJECTS FY 1994-2001". THE ANNOTATIONS AND OTHER CLARIFICATIONS ARE SUMMARIZED BELOW:

1) REOCCURRING COSTS ARE OM&N FUNDED AND ARE DENOTED WITH AN ASTERISK (*). THE SUMMATION OF REOCCURRING PROJECT COSTS ARE SHOWN IN THE ANSWER TO QUESTION 6C, BUT ARE NOT INCLUDED IN THE RESPONSE TO QUESTION 6A.

2) PROJECTS THAT ARE MARKED WITH AN "X" WILL BE COMPLETED WITH IN-HOUSE FORCES, THEREFORE FUNDING IS NOT REQUIRED. THE ESTIMATED COST NOTED FOR THESE IN-HOUSE PROJECTS ARE FOR INTERNAL TRACKING PURPOSES ONLY AND ARE NOT INCLUDED IN ANY OF THE RESPONSES TO QUESTION 6.

3) PROJECTS WITHOUT AN "*" OR AN "X" ARE REQUIRED FOR COMPLIANCE AND THE ASSOCIATED COSTS FOR THESE PROJECTS ARE SUMMED BY MEDIA IN THE ANSWER TO QUESTION 6A.

4) THE MISCELLANEOUS PROJECT, "IR SALARY & SUPPORT" ON PAGE 14A.5 IS NOT INCLUDED IN ANSWERS TO QUESTIONS 6A OR 6C, SINCE THIS IS FUNDED BY THE DEFENSE ENVIRONMENTAL RESTORATION ACCOUNT (DERA)

6B.

Does your base have structures containing asbestos? YES What % of your base has been surveyed for asbestos? 100% except housing. Are additional surveys planned? No What is the estimated cost to remediate asbestos (\$K) 22,675. Are asbestos survey costs based on encapsulation, removal or a combination of both? Encapsulation and removal.

6c. Provide detailed cost of recurring operational (environmental) compliance costs, with funding source. (\$K)

Funding Source	FY92	FY93	FY94	FY95	FY96	FY97	FY98-99	FY00-01
O&MN	438	557	1673	3344	3433	3443	6911	7231
HA	33	282	558	42	400	0	0	0
PA*	0	0	0	0	0	0	0	0

Other (MILCON)	0	0	0	0	0	0	0	0
TOTAL	471	839	2231	3386	3833	3443	6911	7231

* PA funding will be used if available for applicable projects.

6d. Are there any compliance issues/requirements that have impacted operations and/or development plans at your base.
No

7. INSTALLATION RESTORATION

7a.

Does your base have any sites that are contaminated with hazardous substances or petroleum products?	YES
Is your base an NPL site or proposed NPL site?	NPL Site

7b. Provide the following information about your Installation Restoration (IR) program. Project list may be provided in separate table format. Note: List only projects eligible for funding under the Defense Environmental Restoration Account (DERA). Do not include UST compliance projects properly listed in section VI.

Rev.

¹ Type site: CERCLA, RCRA corrective action (CA), UST or other (explain)

² Status = PA, SI, RI, RD, RA, long term monitoring, etc.

X* Former Derecktor Shipyard site recently added to the IR program; no cost and timeframe established for completion.

7c. Have any contamination sites been identified for which there is no recognized/accepted remediation process available?

NO

7d.

Is there a groundwater treatment system in place?	YES
Is there a groundwater treatment system planned?	YES

State scope and expected length of pump and treat operation.

1. Two Pump and Treat Systems (Bldg 7 and structure 74) - each unit is expected to remain in operation on an intermittent basis for the next five years.

2. Ultraviolet Peroxidation with Carbon Polish System (Tank Farm 5) - duration 2-10 years.

3. Fuel Recovery System via soil extraction wells in area of past leak (Navy leased land - Defense Fuel Support Point, Melville) - duration 2-6 years.

7E.

Has a RCRA Facilities Assessment been performed for your base?	YES S
--	----------

7F. Does your base operate any conforming storage facilities for handling HAZARDOUS MATERIALS? If YES, describe facility, capacity, restrictions, and permit conditions.

Yes, the facility is a 5,000 sq. ft. building with explosion proof electrical fixtures, sprinkler system and ventilation for storage of flammable materials. No permit is required.

7G. Does your base operate any conforming storage facilities for handling HAZARDOUS WASTE? If YES, describe facility, capacity, restrictions, and permit conditions.

Yes, the facility consists of three hazardous materials storage lockers with secondary containment, explosion proof lighting fixtures, dry chemical fire suppression system and ventilation. The sheds total 600 sq. ft. and have the capacity to store (44) 55 gallon drums of hazardous waste. The facility is a less-than-90-day storage area and no permit is required.

7H. Is your base responsible for any non-appropriated fund facilities (exchange, gas station) that require cleanup? If so, describe facility/location and cleanup required/status.

NO

7i.

Do the results of any radiological surveys conducted indicate limitations on future land use? Explain below.	NO
--	----

7j. Have any base operations or development plans been restricted due to Installation and Restoration considerations?

NO

7k. List any other hazardous waste treatment or disposal facilities not included in question 7b. above. Include capacity, restriction and permit conditions.

N/A

8. LAND / AIR / WATER USE

8A. List the acreage of each real estate component controlled or managed by your base (e.g., Main Base - 1,200 acres, Outlying Field - 200 acres, Remote Range - 1,000 acres, remote antenna site - 5 acres, Off-Base Housing Area - 25 acres).

Parcel Descriptor	Acres	Location
Main Base (Contiguous land incl. Housing)	1,165.39	Newport, Middletown, and Portsmouth, RI
Connell Manor (Non-contiguous housing)	14.53	Newport, RI
Fort Adams (Non-contiguous housing)	25.25	Newport, RI
Leased Land	2.03	Middletown, RI

8b. Provide the acreage of the land use categories listed in the table below:

LAND USE CATEGORY	ACRES	
Total Developed: (administration, operational, housing, recreational, training, etc.)	1,120.88	
Total Undeveloped (areas that are left in their natural state but are under specific environmental development constraints, i.e.: wetlands, endangered species, etc.)	Wetlands: 5	
	All Others: 0	
Total Undeveloped land considered to be without development constraints, but which may have operational/man caused constraints (i.e.: HERO, HERF, HERP, ESQD, AICUZ, etc.) TOTAL	69	
Total Undeveloped land considered to be without development constraints	12.32	
Total Off-base lands held for easements/lease for specific purposes	29	
Breakout of undeveloped, restricted areas. Some restricted areas may overlap:	ESQD	0
	HERF	0
	HERP	0
	HERO	0
	AICUZ	0
	Airfield Safety Criteria	0
	Other	0

8c. How many acres on your base (includes off base sites) are dedicated for training purposes (e.g., vehicular, earth moving, mobilization)? This does not include buildings or interior small arms ranges used for training purposes. 0

8d. What is the date of your last AICUZ update? N/A
 Are any waivers of airfield safety criteria in effect on your base? N/A Summarize the conditions of the waivers below. N/A

8b. Provide the acreage of the land use categories listed in the table below:

LAND USE CATEGORY	ACRES	
Total Developed: (administration, operational, housing, recreational, training, etc.)	1100	
Total Undeveloped (areas that are left in their natural state but are under specific environmental development constraints, i.e.: wetlands, endangered species, etc.)	Wetlands: 5	
	All Others: 0	
Total Undeveloped land considered to be without development constraints, but which may have operational/man caused constraints (i.e.: HERO, HERF, HERP, ESQD, AICUZ, etc.) TOTAL	0	
Total Undeveloped land considered to be without development constraints		
Total Off-base lands held for easements/lease for specific purposes	29	
Breakout of undeveloped, restricted areas. Some restricted areas may overlap:	ESQD	0
	HERF	0
	HERP	0
	HERO	0
	AICUZ	0
	Airfield Safety Criteria	0
	Other	0

8c. How many acres on your base (includes off base sites) are dedicated for training purposes (e.g., vehicular, earth moving, mobilization)? This does not include buildings or interior small arms ranges used for training purposes. 0

8d. What is the date of your last AICUZ update? N/A
 Are any waivers of airfield safety criteria in effect on your base? N/A Summarize the conditions of the waivers below. N/A

Replaid w/ Revision 1 29 May 79
R. Smith
ON 45

8E. List the off-base land use types (e.g, residential, industrial, agricultural) and acreage within Noise Zones 2 & 3 generated by your flight operations and whether it is compatible/incompatible with AICUZ guidelines on land use.

Acreage/Location/ID	Zones 2 or 3	Land Use	Compati ble/ Incompa tible
0*			

* N/A No AICUZ for this complex.

8F. List the navigational channels and berthing areas controlled by your base which require maintenance dredging? Include the frequency, volume, current project depth, and costs of the maintenance requirement.

Navigational Channels/ Berthing Areas	Location / Description	Maintenance Dredging Requirement			
		Frequency	Volume (MCY)	Current Project Depth (FT)MLW	Cost (\$M)
Piers 1& 2	Middletown, RI (approach & area surround- ing piers	0*	N/A	-35 MLW**	No data

* No maintenance dredging has been required since its original construction in 1959/60.

** Project depth is 35 feet. Recent survey has indicated isolated area to elevation of 35 feet mean low water (MLW).

8G. Summarize planned projects through FY 1997 requiring NEW CHANNEL OR BERTHING AREA dredged depths, include location, volume and depth.

NONE

Are there available DESIGNATED DREDGE DISPOSAL AREAS for maintenance dredging material? List location, remaining capacity, and future limitations.	NO
Are there available DESIGNATED DREDGE DISPOSAL AREAS for new dredge material? List location, remaining capacity, and future limitations.	NO
Are the dredged materials considered contaminated? List known contaminants.	*

*Known contaminants in the vicinity of Pier I include: RCRA Metals, PCB's, Poly Aromatic Hydrocarbons (PAHs) and Tributyl Tin Oxides.

8.I. List any requirements or constraints resulting from consistency with STATE COASTAL ZONE MANAGEMENT PLANS.

Consistency to the maximum extent practicable is required - no constraints to date.

8J. Describe any NON-POINT SOURCE POLLUTION PROBLEMS AFFECTING WATER QUALITY ,e.g.: coastal erosion.

NONE

8k.

If the base has a cooperative agreement with the US Fish and Wildlife Service and/or the State Fish and Game Department for conducting a hunting and fishing program, does the agreement or these resources constrain either current or future operations or activities? Explain the nature and extent of restrictions.	NO
---	----

8l. List any other areas on your base which are indicated as protected or preserved habitat other than threatened/endangered species that have been listed in Section 1. List the species, whether or not treated, and the acres protected/preserved.

NONE

9. WRAPUP

9a. Are there existing or potential environmental showstoppers that have affected or will affect the accomplishment of the installation mission that have not been covered in the previous 8 questions?

Removal of lead painted surfaces could greatly impact various projects due to cost constraints, regulatory requirements for abatement and significant amount of lead painted surfaces throughout the base. **ALTHOUGH THE EXISTANCE OF LEAD PAINT HAS AN IMPACT ON THE CONTRACTING MISSION OF THE NETC, IT DOES NOT IMPACT THE TRAINING MISSION OF THE INSTALLATION.**

*GDManley
CPT N443
26 MAY 94*

9b. Are there any other environmental permits required for base operations, include any relating to industrial operations.

NO

9c. Describe any other environmental or encroachment restrictions on base property not covered in the previous 8 sections.

N/A

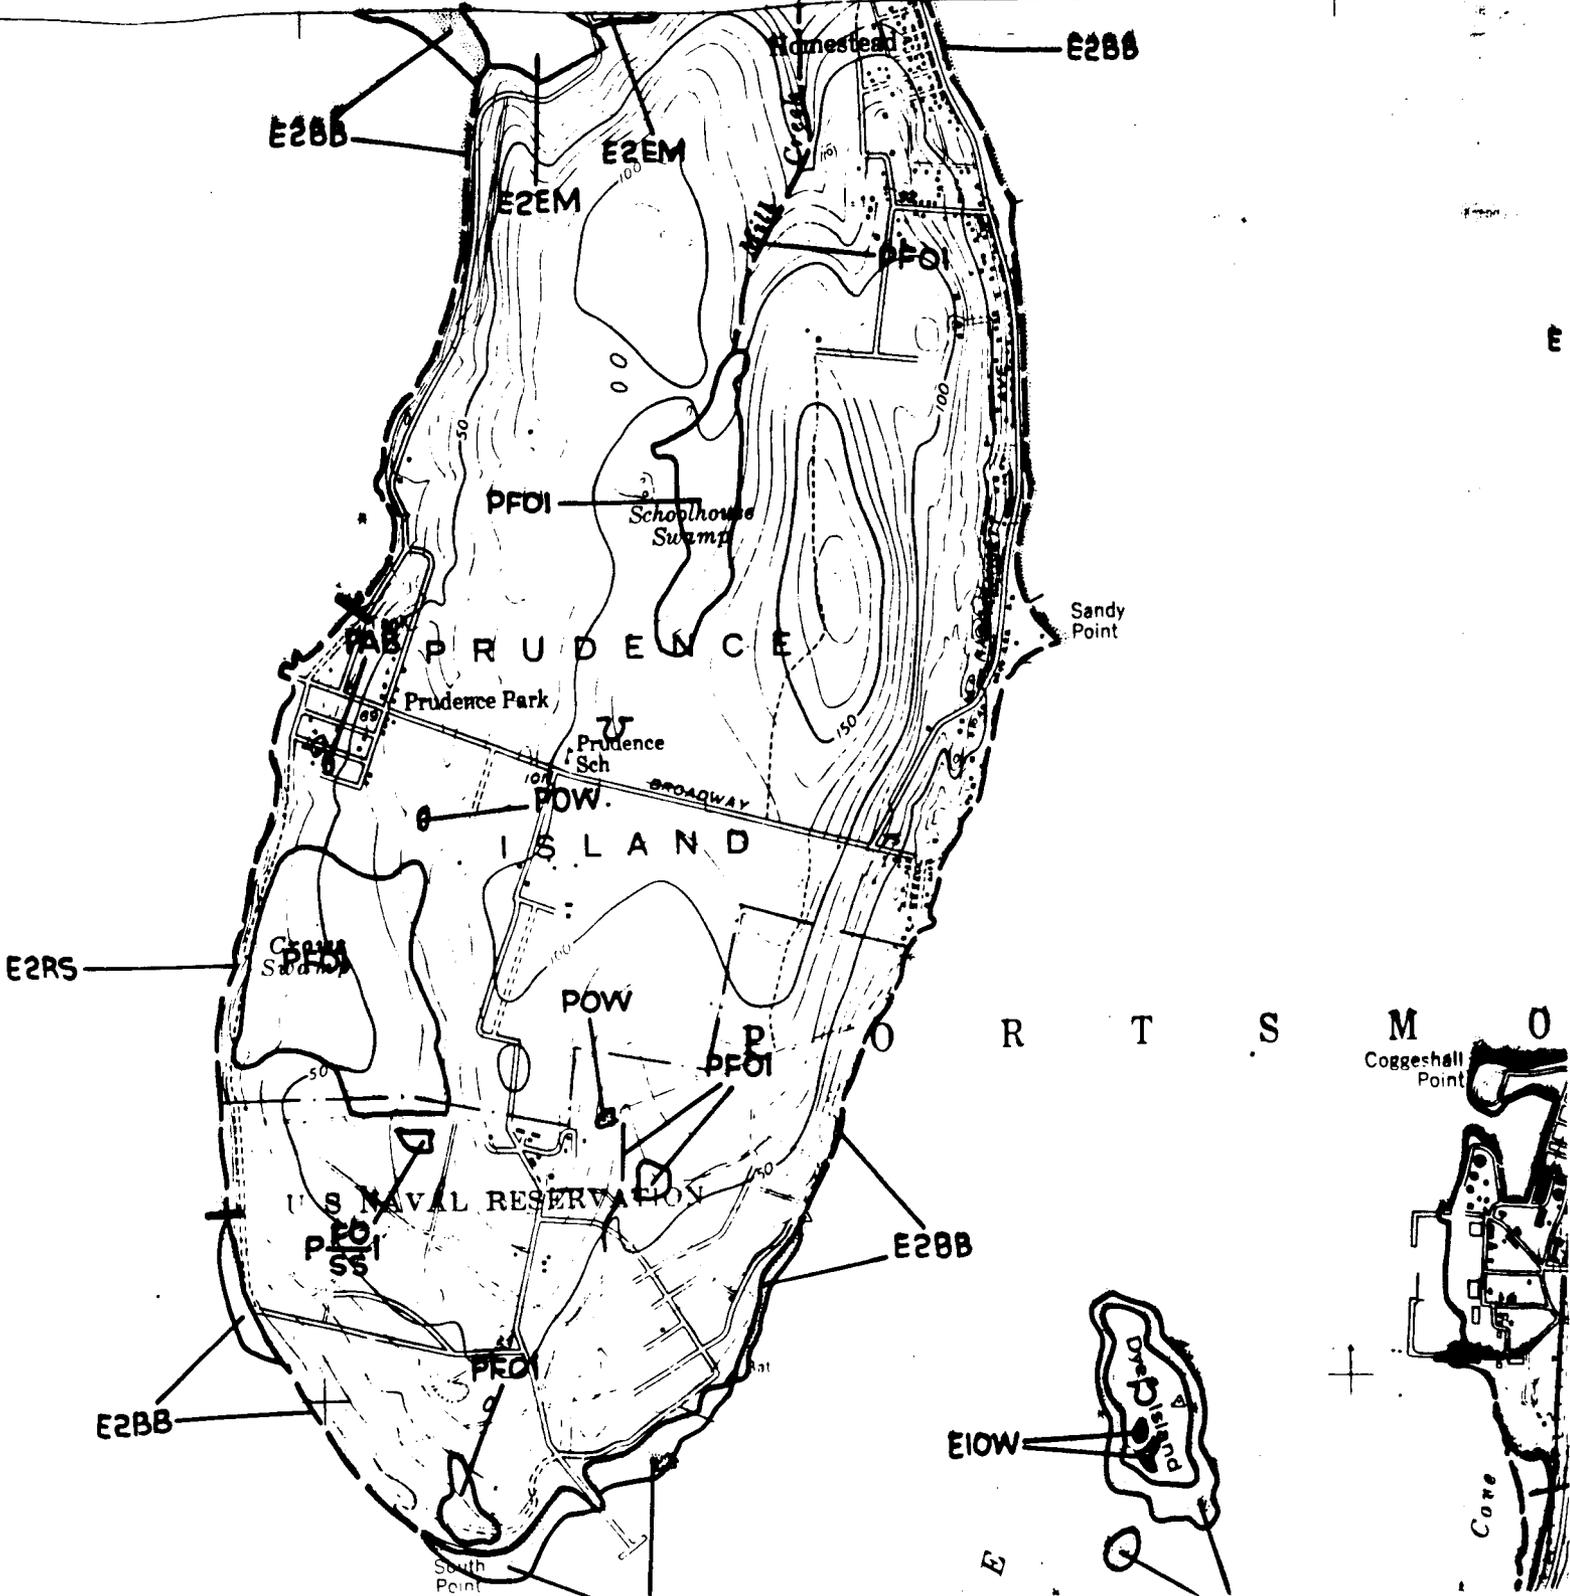

9d. List any future/proposed laws/regulations or any proposed laws/regulations which will constrain base operations or development plans in any way. Explain.

N/A

BRAC 95 CERTIFICATION
DATA CALL THIRTY-THREE REVISION TWO

Reference: SECNAVNOTE 11000 of 08 December 1993

In accordance with policy set forth by the Secretary of the Navy, personnel of the Department of the Navy, uniformed and civilian, who provide information for use in the BRAC-95 process are required to provide a signed certification that states "I certify that the information contained herein is accurate and complete to the best of my knowledge and belief."

The signing of this certification constitutes a representation that the certifying official has reviewed the information and either (1) personally vouches for its accuracy and completeness or (2) has possession of, and is relying upon, a certification executed by a competent subordinate.

Each individual in your activity generating information for the BRAC-95 process must certify that information. Enclosure (1) is provided for individual certifications and may be duplicated as necessary. You are directed to maintain those certifications at your activity for audit purposes. For purposes of this certification sheet, the commander of the activity will begin the certification process and each reporting senior in the Chain of Command reviewing the information will also sign this certification sheet. This sheet must remain attached to this package and be forwarded up the Chain of Command. Copies must be retained by each level in the Chain of Command for Audit purposes.

**BRAC DATA CALL NUMBER 64
CONSTRUCTION COST AVOIDANCE**

Information on cost avoidance which could be realized as the result of cancellation of on-going or programmed construction projects is provided in Tables 1 (MILCON) and 2 (FAMILY HOUSING). These tables list MILCON/FAMILY HOUSING projects which fall within the following categories:

1. all programmed construction projects included in the FY1996 - 2001 MILCON/FAMILY HOUSING Project List,
2. all programmed projects from FY1995 or earlier for which cost avoidance could still be obtained if the project were to be canceled by 1 OCT 1995, and,
3. all programmed BRAC MILCON/FAMILY HOUSING projects for which cost avoidance could still be obtained if the project were to be canceled by 1 OCT 1995.

Projects listed in Tables 1 and 2 with potential cost avoidance were determined as meeting any one of the following criteria:

Projects with projected Work in Place (WIP) less than 75% of the Current Working Estimate (CWE) as of 1 OCT 1995 .

Projects with projected completion dates or Beneficial Occupancy Dates subsequent to 31 March 1996.

Projects with projected CWE amount greater than \$15M.

The estimated cost avoidance for projects terminated after construction award would be approximately one-half of the CWE for the remaining work. Close-out, claims and other termination costs can consume the other half.

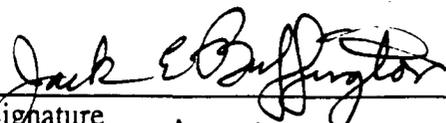

I certify that the information contained herein is accurate and complete to the best of my knowledge and belief.

DATA CALL 66
INSTALLATION RESOURCES

UIC: 68570

Activity Information:

Activity Name:	HRO Groton (Newport Ops), Satellite Office
UIC:	68570
Host Activity Name (if response is for a tenant activity):	NETC, Newport
Host Activity UIC:	62661

General Instructions/Background. A separate response to this data call must be completed for each Department of the Navy (DON) host, independent and tenant activity which separately budgets BOS costs (regardless of appropriation), and, is located in the United States, its territories or possessions.

1. Base Operating Support (BOS) Cost Data. Data is required which captures the total annual cost of operating and maintaining Department of the Navy (DON) shore installations. Information must reflect FY 1996 budget data supporting the FY 1996 NAVCOMPT Budget Submit. Two tables are provided. Table 1A identifies "Other than DBOF Overhead" BOS costs and Table 1B identifies "DBOF Overhead" BOS costs. These tables must be completed, as appropriate, for all DON host, independent or tenant activities which separately budget BOS costs (regardless of appropriation), and, are located in the United States, its territories or possessions. Responses for DBOF activities may need to include both Table 1A and 1B to ensure that all BOS costs, including those incurred by the activity in support of tenants, are identified. If both table 1A and 1B are submitted for a single DON activity, please ensure that no data is double counted (that is, included on both Table 1A and 1B). The following tables are designed to collect all BOS costs currently budgeted, regardless of appropriation, e.g., Operations and Maintenance, Research and Development, Military Personnel, etc. Data must reflect FY 1996 and should be reported in thousands of dollars.

a. Table 1A - Base Operating Support Costs (Other Than DBOF Overhead).

This Table should be completed to identify "Other Than DBOF Overhead" Costs. Display, in the format shown on the table, the O&M, R&D and MPN resources currently budgeted for BOS services. O&M cost data must be consistent with data provided on the BS-1 exhibit. Report only direct funding for the activity. Host activities should not include reimbursable support provided to tenants, since tenants will be separately reporting these costs. Military personnel costs should be included on the appropriate lines of the table. Please ensure that individual lines of the table do not include duplicate costs. Add additional

DATA CALL 66
INSTALLATION RESOURCES

UIC: 68570

lines to the table (following line 2j., as necessary, to identify any additional cost elements not currently shown). Leave shaded areas of table blank.

Table 1A - Base Operating Support Costs (Other Than DBOF Overhead)			
Activity Name: HRO Groton (Newport Ops)		UIC: 68570	
Category	FY 1996 BOS Costs (\$000)		
	Non-Labor	Labor	Total
1. Real Property Maintenance Costs:			
1a. Maintenance and Repair			
1b. Minor Construction			
1c. Sub-total 1a. and 1b.			
2. Other Base Operating Support Costs:			
2a. Utilities			
2b. Transportation			
2c. Environmental			
2d. Facility Leases			
2e. Morale, Welfare & Recreation			
2f. Bachelor Quarters			
2g. Child Care Centers			
2h. Family Service Centers			
2i. Administration	60	715	775
2j. Other			
2k. Sub-total 2a. through 2j:	60	715	775
3. Grand Total (sum of 1c. and 2k.):	60	715	775

DATA CALL 66
INSTALLATION RESOURCES

UIC: 68570

b. Funding Source. If data shown on Table 1A reflects more than one appropriation, then please provide a break out of the total shown for the "3. Grand-Total" line, by appropriation: N/A

<u>Appropriation</u>	<u>Amount (\$000)</u>
----------------------	-----------------------

NA; all O&MN appropriation

c. Table 1B - Base Operating Support Costs (DBOF Overhead). This Table should be submitted for all current DBOF activities. Costs reported should reflect BOS costs supporting the DBOF activity itself (usually included in the G&A cost of the activity). For DBOF activities which are tenants on another installation, total cost of BOS incurred by the tenant activity for itself should be shown on this table. It is recognized that differences exist among DBOF activity groups regarding the costing of base operating support: some groups reflect all such costs only in general and administrative (G&A), while others spread them between G&A and production overhead. Regardless of the costing process, all such costs should be included on Table 1B. The Minor Construction portion of the FY 1996 capital budget should be included on the appropriate line. Military personnel costs (at civilian equivalency rates) should also be included on the appropriate lines of the table. Please ensure that individual lines of the table do not include duplicate costs. Also ensure that there is no duplication between data provided on Table 1A. and 1B. These two tables must be mutually exclusive, since in those cases where both tables are submitted for an activity, the two tables will be added together to estimate total BOS costs at the activity. Add additional lines to the table (following line 21., as necessary, to identify any additional cost elements not currently shown). **Leave shaded areas of table blank.**

Other Notes: All costs of operating the five Major Range Test Facility Bases at DBOF activities (even if direct RDT&E funded) should be included on Table 1B. Weapon Stations should include underutilized plant capacity costs as a DBOF overhead "BOS expense" on Table 1B..

2. Services/Supplies Cost Data. The purpose of Table 2 is to provide information about projected FY 1996 costs for the purchase of services and supplies by the activity. (Note: Unlike Question 1 and Tables 1A and 1B, above, this question is not limited to overhead costs.) The source for this information, where possible, should be either the NAVCOMPT OP-32 Budget Exhibit for O&M activities or the NAVCOMPT UC/FUND-1/IF-4 exhibit for DBOF activities. Information must reflect FY 1996 budget data supporting the FY 1996 NAVCOMPT Budget Submit. Break out cost data by the major sub-headings identified on the OP-32 or UC/FUND-1/IF-4 exhibit, disregarding the sub-headings on the exhibit which apply to civilian and military salary costs and depreciation. Please note that while the OP-32 exhibit aggregates information by budget activity, this data call requests OP-32 data for the activity responding to the data call. Refer to NAVCOMPTINST 7102.2B of 23 April 1990, Subj: Guidance for the Preparation, Submission and Review of the Department of the Navy (DON) Budget Estimates (DON Budget Guidance Manual) with Changes 1 and 2 for more information on categories of costs identified. Any rows that do not apply to your activity may be left blank. However, totals reported should reflect all costs, exclusive of salary and depreciation.

Table 2 - Services/Supplies Cost Data	
Activity Name: HRO Groton (Newport Ops)	UIC: 68570
Cost Category	FY 1996 Projected Costs (\$000)
Travel:	8
Material and Supplies (including equipment):	15
Industrial Fund Purchases (other DBOF purchases):	0
Transportation:	0
Other Purchases (Contract support, etc.):	37
Total:	60

3. Contractor Workyears.

a. **On-Base Contract Workyear Table.** Provide a projected estimate of the number of contract workyears expected to be **performed "on base"** in support of the installation during FY 1996. Information should represent an annual estimate on a full-time equivalency basis. Several categories of contract support have been identified in the table below. While some of the categories are self-explanatory, please note that the category "mission support" entails management support, labor service and other mission support contracting efforts, e.g., aircraft maintenance, RDT&E support, technical services in support of aircraft and ships, etc.

Table 3 - Contract Workyears	
Activity Name: HRO Groton (Newport Ops)	UIC: 68570
Contract Type	FY 1996 Estimated Number of Workyears On-Base
Construction:	
Facilities Support:	
Mission Support:	
Procurement:	
Other:*	
Total Workyears:	0

* **Note:** Provide a brief narrative description of the type(s) of contracts, if any, included under the "Other" category.

UIC: 68570

b. Potential Disposition of On-Base Contract Workyears. If the mission/functions of your activity were relocated to another site, what would be the anticipated disposition of the **on-base contract workyears** identified in Table 3.?

1) Estimated number of contract workyears which would be transferred to the receiving site (This number should reflect the number of jobs which would in the future be contracted for at the receiving site, not an estimate of the number of people who would move or an indication that work would necessarily be done by the same contractor(s)):

NA; no contract workyears

2) Estimated number of workyears which would be eliminated:

NA; no contract workyears

3) Estimated number of contract workyears which would remain in place (i.e., contract would remain in place in current location even if activity were relocated outside of the local area):

NA; no contract workyears

INSTALLATION RESOURCES**

UIC: 68570

c. "Off-Base" Contract Workyear Data. Are there any contract workyears located in the local community, but not on-base, which would either be eliminated or relocated if your activity were to be closed or relocated? If so, then provide the following information (ensure that numbers reported below do not double count numbers included in 3.a. and 3.b., above): No.

No. of Additional Contract Workyears Which Would Be Eliminated	General Type of Work Performed on Contract (e.g., engineering support, technical services, etc.)
None	

No. of Additional Contract Workyears Which Would Be Relocated	General Type of Work Performed on Contract (e.g., engineering support, technical services, etc.)
None

FAMILY HOUSING DATA

255

Information on Family Housing is required for use in BRAC-95 return on investment calculations.

Installation Name:	NETC Newport RI
Unit Identification Code (UIC):	62661
Major Claimant:	CNET

Percentage of Military Families Living On-Base:	68%
Number of Vacant Officer Housing Units:	0
Number of Vacant Enlisted Housing Units:	140*
FY 1996 Family Housing Budget (\$000):	382.9
Total Number of Officer Housing Units:	15
Total Number of Enlisted Housing Units:	59

* Total for the complex (AD)

Note: All data should reflect figures as of the beginning of FY 1996. If major DON installations share a family housing complex, figures should reflect an estimate of the installation's prorated share of the family housing complex.

BRAC-95 CERTIFICATION

Reference: SECNAV NOTE 11000 dtd 8 Dec 93

In accordance with policy set forth by the Secretary of the Navy, personnel of the Department of the Navy, uniformed and civilian, who provide information for use in the BRAC-95 process are required to provide a signed certification that states "I certify that the information contained herein is accurate and complete to the best of my knowledge and belief."

The signing of this certification constitutes a representation that the certifying official has reviewed the information and either (1) personally vouches for its accuracy and completeness or (2) has possession of, and is relying upon, a certification executed by a competent subordinate.

Each individual in your activity generating information for the BRAC-95 process must certify that information. Enclosure (1) is provided for individual certifications and may be duplicated as necessary. You are directed to maintain those certifications at your activity for audit purposes. For purposes of this certification sheet, the commander of the activity will begin the certification process and each reporting senior in the Chain of Command reviewing the information will also sign this certification sheet. This sheet must remain attached to this package and be forwarded up the Chain of Command. Copies must be retained by each level in the Chain of Command for audit purposes.

I certify the information contained herein is accurate and complete to the best of my knowledge and belief.
