

To the BRAC Commission

Dear BRAC Commissioners

CANNON AFB is located at an ideal location for Pilot training and near a small community of about 35000 friendly people. Above thousands of reasons not to close CANNON the most important one is security for the Armed Forces and their bases

as well as the local inhabitants.

All Internal and External TERRORIST ATTACKS in the past, were directed towards heavily populated areas. Please DO NOT

make easy TARGETS for the TERRORISTS.

Consider the impact of a Theoretical Attack from Terrorists even with the minimal success at a Super Base with Millions living around it.

Cannon in Clovis NM is the safest place to ENLARGE as a SUPER BASE.

Please REMOVE CANNON from the list of closures.

THANK YOU.

Chris Papageorgiou
