United States Flag Day

Dear BRAC Commission for KEEPING Cannon Air Base Open!

The Amari^{ll}o Texas area has been fortunate, indeed, in having the Cannon Air Force Training facilities near by. The 'Fly Boys' (and 'Gals'), hover over our open skies, and we are glad.

Our Pantex workers too, appreciate the safety afforded to the area. Surveillance is quite necessary to a governmental control unit where nuclear attention becomes a world-wide concern.

Thank-you for considering the idea of keeping this important 'wide-open spaces' operable under our friendly blue skies of TEXAS, and the glorious sunset area of New Mexico.

Yours truly,

Aldine Manning

*The ECMA newsletter is far from enjoyment.
Our country store had a run on bananas
& had to run out of some more before they end.*
