

Dear: Brigadier General Sue E. Turner

I would like to urge you to reconsider your decision to place Cannon Air Force Base on the BRAC list. Cannon will be a vital part of flight training in the future as it is soon to be designated for supersonic training.

I have lived in other cities (Colorado Springs) where military bases are despised by the general public. This is not the case with Cannon it plays a vital role in the community. The closing of this base will be devastating to this community. I moved here for the quality of life, and Cannon is a part of that. If the American Dream can survive it will be driven by the sense of community only available in smaller towns. Please reconsider this decision and remove Cannon from The BRAC list.

Thank You

Jeff Blake
