Sir,

I am very concerned about your questioning of the data provided by the Clovis Delegation to the BRAC hearing June 24, 2005. After multiple anomalies presented to you, you still seemed to believe only the data provided by Cannon AFB was acceptable. I find it incomprehensible and very disturbing you possibly would purposely ignore this very compelling argument against the accuracy of the Cannon data. Your question to Mr. Harris about why you should not (blindly implied) accept the Cannon data was revealing. Clearly you can see the discrepancies in the data you based your decision is flawed.

As a businessman, I am compelled to reevaluate every bit of new data I receive based on profit or loss possibilities. If I blindly accepted what I am given as inarguable fact, I would not stay in business long. Therefore Sir, as ultimately an agent of the American people, I urge you to do the right thing and remove Cannon from the BRAC list until this new data is properly evaluated. Furthermore, I would seriously question the other BRAC base's data based on the inconsistencies in Cannon's data alone.

Sir, I strongly encourage you to reevaluated the data and remove Cannon from the list. I would also encourage you, and all the members, to courageously and publicly qualify your personal vote.

Sincerely,

Greg F. Weigl
