

DEPARTMENT OF THE NAVY
OFFICE OF THE SECRETARY
1000 NAVY PENTAGON
WASHINGTON DC 20350-1000

RECEIVED

22 June 2005

The Honorable Anthony Principi
Chairman
2005 Defense Base Closure and Realignment Commission
2521 South Clark Street, Suite 600
Arlington, Virginia 22202

07018005

Dear Chairman Principi:

Attached please find a letter we recently received from Mr. Michael Gentile, Executive Director, Southern Indiana Business Alliance. The letter forwards petitions signed by approximately 4,600 citizens expressing support for Naval Surface Warfare Center, Crane Division, Crane, IN and copies of resolutions in support of NSWC Crane from Daviess, Dubois, Greene, Knox, Lawrence, Martin, Monroe, Orange, and Spencer counties. I am forwarding the letter and enclosures to you as a matter under your purview.

For your information, I am also including a copy of my response to Mr. Gentile. Please contact me at (703) 602-6500 if I may be of further assistance.

Sincerely,

A handwritten signature in cursive script that reads "Anne Rathmell Davis".

Anne Rathmell Davis
Special Assistant to the Secretary of the Navy
for Base Realignment and Closure

DEPARTMENT OF THE NAVY
OFFICE OF THE SECRETARY
1000 NAVY PENTAGON
WASHINGTON DC 20350-1000

21 June 2005

Michael Gentile
Executive Director
Southern Indiana Business Alliance
P.O. Box 1968
Bloomington, Indiana 47402-1968

Dear Mr. Gentile:

Thank you for your letter of June 3, 2005 and the attached petitions and county resolutions expressing support for Naval Surface Warfare Center Crane Division, Crane, Indiana. I am responding on behalf of Mr. B. J. Penn, Assistant Secretary of the Navy for Installations and Environment.

As you know, Naval Surface Warfare Center Crane was recommended for realignment by the Department of Defense on 13 May 2005. Naval Surface Warfare Center Crane, like all other military installations inside the United States, was considered for closure under the process mandated by the Defense Base Closure and Realignment Act of 1990. Using specific selection criteria that emphasize military value, the Department of Defense completed a comprehensive review before it determined which military installations should be recommended for closure or realignment. The Defense Base Closure and Realignment Commission will now review the Secretary of Defense's recommendations and provide its independent recommendations to the President by 8 September 2005. More information concerning the BRAC 2005 process is available at <http://www.defenselink.mil/BRAC>. I have taken the liberty of forwarding your letter and enclosures to the Defense Base Closure and Realignment Commission as being a matter under their purview.

If this recommendation to realign Naval Surface Warfare Center Crane is approved by the Commission, the President, and the Congress, the Department of the Navy will do everything possible to make the transition as smooth as possible.

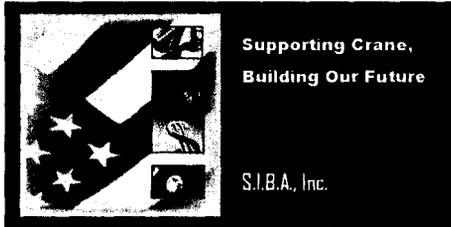

The Navy and Marine Corps Team is truly grateful for all the contributions to the national defense made by our military communities throughout the country. Although disappointing to many in the Naval Surface Warfare Center Crane community, the realignment of Naval Surface Warfare Center Crane will facilitate transformation of the naval service and optimize our warfighting capability.

Again, thank you for writing. Your continued interest and support in our national defense and the future of Naval Surface Warfare Center Crane is appreciated.

Sincerely,

A handwritten signature in cursive script that reads "Anne R. Davis".

Anne Rathmell Davis
Special Assistant to the Secretary of the Navy
for Base Realignment and Closure

BRAC OFFICE

3 June 2005

BJ Penn

Assistant Secretary of the Navy for Installations and Environment
1000 Navy Pentagon
Washington, D.C. 20350

Dear Honorable Penn:

As Executive Director of the Southern Indiana Business Alliance, I have been working for the past three years to promote and protect Crane Division, Naval Surface Warfare Center, Crane, Indiana during the current Base Realignment and Closure process. The people of southwestern Indiana have been very supportive of SIBA's efforts and are very pleased to have NSWC Crane in this region of the state. NSWC Crane is the second-largest employer in southwestern Indiana, providing nearly 5,000 direct jobs, as well as another 3,500 indirect jobs. The economic impact of NSWC Crane on this area is staggering. A good example is the small town of Loogootee, the county seat of Martin County (where the majority of the base is located). In Loogootee, nearly 67% of all wages earned are Crane-related.

I am very happy to present with this letter petitions from over 4,600 concerned Hoosiers voicing their support for NSWC Crane. In addition, I am including copies of county resolutions in support of NSWC Crane from Daviess, Dubois, Greene, Knox, Lawrence, Martin, Monroe, Orange, and Spencer counties. Although it's not one of the primary BRAC criteria, I know it's important to the Navy to have its installations in areas where it is wanted. This letter and the enclosures demonstrate how much the people of southwestern Indiana support NSWC Crane.

Respectfully,

Michael Gentile

RESOLUTION
OF INDIANA COUNTIES
IN SUPPORT OF
NAVAL SUPPORT ACTIVITY CRANE, INDIANA
NAVAL SURFACE WARFARE CENTER, CRANE DIVISION
AND
CRANE ARMY AMMUNITION ACTIVITY

WHEREAS, Naval Support Activity Crane, Naval Surface Warfare Center, Crane Division, and Crane Army Ammunition Activity constitute the Navy and Army Complex at Crane; and

WHEREAS, the Navy and Army Complex at Crane offers the Department of Defense a huge expanse of property in a low-population area of southern Indiana that allows the Navy and the Army to conduct a wide variety of military missions in its facilities and on its test ranges; and

WHEREAS, the Navy and Army Complex at Crane is not constrained by any form of encroachment; and

WHEREAS, the engineers, technicians and artisans at Crane are experts in solving the technological problems of 21st Century warfare for operational forces of all the Military Services; and

WHEREAS, the workforce at Naval Surface Warfare Center, Crane Division, performs its work in such an economical and efficient manner that it received the Department of Defense's "Installation of the Year" award in 2002, and the Department's "Value Engineering" award in 2004; and

WHEREAS, the workforce at Crane Army Ammunition Activity manufactured and supplied first-strike and war reserve munitions for U.S. forces in Afghanistan and Iraq; and

WHEREAS, the presence at Crane of both Navy and Army experts in ordnance engineering, production, and demilitarization makes Crane a unique Joint Center for Munitions and Pyrotechnics in the 21st Century; and

WHEREAS, the broad range of expertise, technologies, facilities and capabilities at Crane creates a truly Joint Service Product Center for critical military products that are essential to warfighters; and

WHEREAS, the technological expertise, facilities and ranges at Crane can also support Homeland Defense missions, programs and activities; and

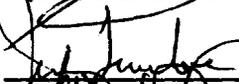

WHEREAS, Naval Support Activity Crane, Naval Surface Warfare Center, Crane Division, and Crane Army Ammunition Activity have a very substantial economic impact on the communities in southern Indiana and a substantial economic impact on the State of Indiana;

NOW, THEREFORE, it is resolved that these southern Indiana Counties, through this Resolution, urge the Department of Defense to maintain the Navy and Army Complex at Crane as an active installation and to expand its mission, programs and activities as the Department evaluates military facilities and activities during the 2005 round of Defense Base Closures and Realignment.

PROCLAMATION

To Support the Naval Support Activity Crane, Indiana ~ Naval Surface Warfare Center, Crane Division ~ And ~ Crane Army Ammunition Activity

- WHEREAS:** Naval Support Activity Crane, Naval Surface Warfare Center, Crane Division, and Crane Army Ammunition Activity constitute the Navy and Army Complex at Crane; and
- WHEREAS:** The Navy and Army Complex at Crane offers the Department of Defense a huge expanse of property in a low-population area of southern Indiana that allows the Navy and the Army to conduct a wide variety of military missions in its facilities and on its test ranges; and
- WHEREAS:** The Navy and Army Complex at Crane is not constrained by any form of encroachment; and
- WHEREAS:** The engineers, technicians and artisans at Crane are experts in solving the technological problems of 21st Century warfare for operational forces of all the Military Services; and
- WHEREAS:** The workforce at Naval Surface Warfare Center, Crane Division, performs its work in such an economical and efficient manner that it received the Department of Defense's "Installation of the Year" award in 2002, and the Department's "Value Engineering" award in 2004; and
- WHEREAS:** The workforce at Crane Army Ammunition Activity manufactured and supplied first-strike and war reserve munitions for U.S. forces in Afghanistan and Iraq; and
- WHEREAS:** The presence at Crane of both Navy and Army experts in ordnance engineering, production, and demilitarization makes Crane a unique Joint Center for Munitions and Pyrotechnics in the 21st Century; and
- WHEREAS:** The broad range of expertise, technologies, facilities and capabilities at Crane creates a truly Joint Service Product Center for critical military products that are essential to warfighters; and
- WHEREAS:** The technological expertise, facilities and ranges at Crane can also support Homeland Defense missions, programs and activities; and
- WHEREAS:** Naval Support Activity Crane, Naval Surface Warfare Center, Crane Division, and Crane Army Ammunition Activity have a very substantial economic impact on the communities in southern Indiana and a substantial economic impact on the State of Indiana.

NOW, THEREFORE: We, The Monroe County Board of Commissioners wish to proclaim along with the Counties of Martin, Daviess, Lawrence and Greene, that these southern Indiana Counties, through this Proclamation, urge the Department of Defense to maintain the Navy and Army Complex at Crane as an active installation and to expand its mission, programs and activities as the Department evaluates military facilities and activities during the 2005 round of Defense Base Closures and Realignments.

PROCLAIMED THIS FIFTEENTH DAY OF OCTOBER, 2004

RESOLUTION 2004-08
IN SUPPORT OF
NAVAL SUPPORT ACTIVITY CRANE, INDIANA
NAVAL SURFACE WARFARE CENTER, CRANE DIVISION
AND
CRANE ARMY AMMUNITION ACTIVITY

WHEREAS, Naval Support Activity Crane, Naval Surface Warfare Center, Crane Division, and Crane Army Ammunition Activity constitute the Navy and Army Complex at Crane; and

WHEREAS, the Navy and Army Complex at Crane offers the Department of Defense a huge expanse of property in a low-population area of southern Indiana that allows the Navy and the Army to conduct a wide variety of military missions in its facilities and on its test ranges; and

WHEREAS, the Navy and Army Complex at Crane is not constrained by any form of encroachment; and

WHEREAS, the engineers, technicians and artisans at Crane are experts in solving the technological problems of 21st Century warfare for operational forces of all the Military Services; and

WHEREAS, the workforce at Naval Surface Warfare Center, Crane Division, performs its work in such an economical and efficient manner that it received the Department of Defense's "Installation of the Year" award in 2002, and the Department's "Value Engineering" award in 2004; and

WHEREAS, the workforce at Crane Army Ammunition Activity manufactured and supplied first-strike and war reserve munitions for U.S. forces in Afghanistan and Iraq; and

WHEREAS, the presence at Crane of both Navy and Army experts in ordnance engineering, production, and demilitarization makes Crane a unique Joint Center for Munitions and Pyrotechnics in the 21st Century; and

WHEREAS, the broad range of expertise, technologies, facilities and capabilities at Crane creates a truly Joint Service Product Center for critical military products that are essential to warfighters; and

WHEREAS, the technological expertise, facilities and ranges at Crane can also support Homeland Defense missions, programs and activities; and

WHEREAS, Naval Support Activity Crane, Naval Surface Warfare Center, Crane Division, and Crane Army Ammunition Activity have a very substantial economic impact on the communities in southern Indiana and a substantial economic impact on the State of Indiana;

NOW, THEREFORE, it is resolved that the Spencer County Board of Commissioners and the Spencer County Council, through this Resolution, urge the Department of Defense to maintain the Navy and Army Complex at Crane as an active installation and to expand its mission, programs and activities as the Department evaluates military facilities and activities during the 2005 round of Defense Base Closures and Realignment.

CALL TO ACTION TO SAVE CRANE

RECEIVED

The undersigned wholeheartedly support Crane Naval Surface Warfare Center and the continuation of its operations. This facility provides much needed research and development that has contributed to the success of this great Nation's national defense, continued safety of its people and support for businesses throughout the State of Indiana. Additionally, there are thousands of highly trained technical and engineering positions that support the mission of this facility. To eliminate its presence would devastate the Southwest region of Indiana, leaving thousands unemployed and without much promise of finding similar positions.

We ask and pray that this facility be allowed to remain in Southwest Indiana.

CALL TO ACTION TO SAVE CRANE

The undersigned wholeheartedly support Crane Naval Surface Warfare Center and the continuation of its operations. This facility provides much needed research and development that has contributed to the success of this great Nation's national defense, continued safety of its people and support for businesses throughout the State of Indiana. Additionally there are hundreds of highly trained technical and engineering positions that support the mission of this facility. To eliminate its presence would devastate the Southwest region of Indiana, leaving hundreds unemployed and without much promise of finding similar positions.

We ask and pray that this facility be allowed to remain in Southwest Indiana.

CALL TO ACTION TO SAVE CRANE

The undersigned wholeheartedly support Crane Naval Surface Warfare Center and the continuation of its operations. This facility provides much needed research and development that has contributed to the success of this great Nation's national defense, continued safety of its people and support for businesses throughout the State of Indiana. Additionally, there are thousands of highly trained technical and engineering positions that support the mission of this facility. To eliminate its presence would devastate the Southwest region of Indiana, leaving thousands unemployed and without much promise of finding similar positions.

We ask and pray that this facility be allowed to remain in Southwest Indiana.

CALL TO ACTION TO SAVE CRANE

The undersigned wholeheartedly support Crane Naval Surface Warfare Center and the continuation of its operations. This facility provides much needed research and development that has contributed to the success of this great Nation's national defense, continued safety of its people and support for businesses throughout the State of Indiana. Additionally, there are thousands of highly trained technical and engineering positions that support the mission of this facility. To eliminate its presence would devastate the Southwest region of Indiana, leaving thousands unemployed and without much promise of finding similar positions.

We ask and pray that this facility be allowed to remain in Southwest Indiana.

CALL TO ACTION TO SAVE CRANE

The undersigned wholeheartedly support Crane Naval Surface Warfare Center and the continuation of its operations. This facility provides much needed research and development that has contributed to the success of this great Nation's national defense, continued safety of its people and support for businesses throughout the State of Indiana. Additionally there are hundreds of highly trained technical and engineering positions that support the mission of this facility. To eliminate its presence would devastate the Southwest region of Indiana, leaving hundreds unemployed and without much promise of finding similar positions.

We ask and pray that this facility be allowed to remain in Southwest Indiana.

CALL TO ACTION TO SAVE CRANE

The undersigned wholeheartedly support Crane Naval Surface Warfare Center and the continuation of its operations. This facility provides much needed research and development that has contributed to the success of this great Nation's national defense, continued safety of its people and support for businesses throughout the State of Indiana. Additionally there are hundreds of highly trained technical and engineering positions that support the mission of this facility. To eliminate its presence would devastate the Southwest region of Indiana, leaving hundreds unemployed and without much promise of finding similar positions.

We ask and pray that this facility be allowed to remain in Southwest Indiana.

CALL TO ACTION TO SAVE CRANE

The undersigned wholeheartedly support Crane Naval Surface Warfare Center and the continuation of its operations. This facility provides much needed research and development that has contributed to the success of this great Nation's national defense, continued safety of its people and support for businesses throughout the State of Indiana. Additionally, there are thousands of highly trained technical and engineering positions that support the mission of this facility. To eliminate its presence would devastate the Southwest region of Indiana, leaving thousands unemployed and without much promise of finding similar positions.

We ask and pray that this facility be allowed to remain in Southwest Indiana.

 PO Box 1968
 Bloomington, IN 47402-1968

CALL TO ACTION TO SAVE CRANE

The undersigned wholeheartedly support Crane Naval Surface Warfare Center and the continuation of its operations. This facility provides much needed research and development that has contributed to the success of this great Nation's national defense, continued safety of its people and support for businesses throughout the State of Indiana. Additionally there are hundreds of highly trained technical and engineering positions that support the mission of this facility. To eliminate its presence would devastate the Southwest region of Indiana, leaving hundreds unemployed and without much promise of finding similar positions.

We ask and pray that this facility be allowed to remain in Southwest Indiana.

CALL TO ACTION TO SAVE CRANE

The undersigned wholeheartedly support Crane Naval Surface Warfare Center and the continuation of its operations. This facility provides much needed research and development that has contributed to the success of this great Nation's national defense, continued safety of its people and support for businesses throughout the State of Indiana. Additionally there are hundreds of highly trained technical and engineering positions that support the mission of this facility. To eliminate its presence would devastate the Southwest region of Indiana, leaving hundreds unemployed and without much promise of finding similar positions.

We ask and pray that this facility be allowed to remain in Southwest Indiana.

CALL TO ACTION TO SAVE CRANE

The undersigned wholeheartedly support Crane Naval Surface Warfare Center and the continuation of its operations. This facility provides much needed research and development that has contributed to the success of this great Nation's national defense, continued safety of its people and support for businesses throughout the State of Indiana. Additionally there are hundreds of highly trained technical and engineering positions that support the mission of this facility. To eliminate its presence would devastate the Southwest region of Indiana, leaving hundreds unemployed and without much promise of finding similar positions.

We ask and pray that this facility be allowed to remain in Southwest Indiana.

CALL TO ACTION TO SAVE CRANE

The undersigned wholeheartedly support Crane Naval Surface Warfare Center and the Continuation of its operations. This facility provides much needed research and development that has contributed to the success of this great Nation's national defense, continued safety of its people and support for businesses throughout the State of Indiana. Additionally, there are thousands of highly trained technical and engineering positions that support the mission of this facility. To eliminate its presence would devastate the Southwest region of Indiana, leaving thousands unemployed and without much promise of finding similar positions.

We ask and pray that this facility be allowed to remain in Southwest Indiana.

CALL TO ACTION TO SAVE CRANE

The undersigned wholeheartedly support Crane Naval Surface Warfare Center and the continuation of its operations. This facility provides much needed research and development that has contributed to the success of this great Nation's national defense, continued safety of its people and support for businesses throughout the State of Indiana. Additionally there are hundreds of highly trained technical and engineering positions that support the mission of this facility. To eliminate its presence would devastate the Southwest region of Indiana, leaving hundreds unemployed and without much promise of finding similar positions.

We ask and pray that this facility be allowed to remain in Southwest Indiana.

CALL TO ACTION TO SAVE CRANE

The undersigned wholeheartedly support Crane Naval Surface Warfare Center and the continuation of its operations. This facility provides much needed research and development that has contributed to the success of this great Nation's national defense, continued safety of its people and support for businesses throughout the State of Indiana. Additionally there are hundreds of highly trained technical and engineering positions that support the mission of this facility. To eliminate its presence would devastate the Southwest region of Indiana, leaving hundreds unemployed and without much promise of finding similar positions.

We ask and pray that this facility be allowed to remain in Southwest Indiana.

CALL TO ACTION TO SAVE CRANE

The undersigned wholeheartedly support Crane Naval Surface Warfare Center and the continuation of its operations. This facility provides much needed research and development that has contributed to the success of this great Nation's national defense, continued safety of its people and support for businesses throughout the State of Indiana. Additionally there are hundreds of highly trained technical and engineering positions that support the mission of this facility. To eliminate its presence would devastate the Southwest region of Indiana, leaving hundreds unemployed and without much promise of finding similar positions.

We ask and pray that this facility be allowed to remain in Southwest Indiana.

 PO Box 1968
 Bloomington, IN 47402-1968

CALL TO ACTION TO SAVE CRANE

The undersigned wholeheartedly support Crane Naval Surface Warfare Center and the Continuation of its operations. This facility provides much needed research and development that has contributed to the success of this great Nation's national defense, continued safety of its people and support for businesses throughout the State of Indiana. Additionally, there are thousands of highly trained technical and engineering positions that support the mission of this facility. To eliminate its presence would devastate the Southwest region of Indiana, leaving thousands unemployed and without much promise of finding similar positions.

We ask and pray that this facility be allowed to remain in Southwest Indiana.

CALL TO ACTION TO SAVE CRANE

The undersigned wholeheartedly support Crane Naval Surface Warfare Center and the continuation of its operations. This facility provides much needed research and development that has contributed to the success of this great Nation's national defense, continued safety of its people and support for businesses throughout the State of Indiana. Additionally, there are thousands of highly trained technical and engineering positions that support the mission of this facility. To eliminate its presence would devastate the Southwest region of Indiana, leaving thousands unemployed and without much promise of finding similar positions.

We ask and pray that this facility be allowed to remain in Southwest Indiana.

CALL TO ACTION TO SAVE CRANE

The undersigned wholeheartedly support Crane Naval Surface Warfare Center and the continuation of its operations. This facility provides much needed research and development that has contributed to the success of this great Nation's national defense, continued safety of its people and support for businesses throughout the State of Indiana. Additionally there are hundreds of highly trained technical and engineering positions that support the mission of this facility. To eliminate its presence would devastate the Southwest region of Indiana, leaving hundreds unemployed and without much promise of finding similar positions.

We ask and pray that this facility be allowed to remain in Southwest Indiana.

CALL TO ACTION TO SAVE CRANE

The undersigned wholeheartedly support Crane Naval Surface Warfare Center and the Continuation of its operations. This facility provides much needed research and development that has contributed to the success of this great Nation's national defense, continued safety of its people and support for businesses throughout the State of Indiana. Additionally, there are thousands of highly trained technical and engineering positions that support the mission of this facility. To eliminate its presence would devastate the Southwest region of Indiana, leaving thousands unemployed and without much promise of finding similar positions.

We ask and pray that this facility be allowed to remain in Southwest Indiana.
