General James T. Hill, USA (Ret)
2005 Defense Base Closure and Realignment Commission (BRAC)
2521 South Clark Street
Suite 600
Arlington, Virginia 22202

Dear General Hill,

Please find below reasons why I urge you to take the New London Sub Base off the Base Closure list:

The Far East is the current hot spot in the world. Why close a submarine base that can easily access both the Atlantic and the Pacific Oceans and has a faster route to the Far East than either Norfolk or King's Bay? Doesn't this versatility constitute significant military value? Also, remember the lesson we learned on December 7, 1941 at Pearl Harbor – painful.

The New London Sub Base should not be closed.

Thank you in advance for your immediate attention to this important issue.

Respectfully,
