Clovis, New Mexico  
May 17 2005

Dear BRAC Commission I am writing to you  
to tell you to please do not shut down Cannon  
because we have much trainingspace and so no  
people will get hurt and good climate for air  
travel and so you will not burn up or freeze  
in the jet. And there is no encroachment around the  
base. Also they are the closest to Los Alamos lab.

Sincerely Austin
