Dear BRAC committee,

We are writing to you to ask you "please don't close our base."

To us the closing of the base is not just military men leaving it's that there kids that our our

friends and they have to go

too. When the base closes

our school population will

go down and some schools

will close. This will also affect churches, restrants, and small buisnesses.

This will make me very sad because all my friend some of my family and a lot of devoted military people will leave. This will be very depressing! It will hit clovis hard so please don't close # cannon air force base!

Sincerely,

Airen Martin
