Dear BRAC Commission,

I am writing you a letter requesting not to close the Cannon Air Force Base. Here are some reasons to keep Cannon Air Force Base open. The first reason is that we have supersonic airspace. The second reason is that we have lots of space around our Air Force Base. The third reason is that we are really close to the Melrose Bombing Range. Also we are close to the Los Alamos Lab. The fourth reason is that we have great medical support. The last reason is that our educational system will help train the military and their families. Thank you for reading my letter.

Truly yours,
Haley Berry
