Dani BRAC Committee

I have always had a best friend most of them are military kids and once I heard Cannon is closing down it all changed. I say Cannon air force base should not close down because schools have students that are military kids and the population of Elkins will shrink by $\frac{1}{3}$ and schools may close down.

Our education for school may fall down and I shall not let our friends move because of a situation. I want our population to stay and grow bigger but if Cannon closes down we may end up like Portales.
