Representative James V. Hansen
BRAC Commission

Dear Representative Hansen:

Although I don't envy the difficult task before you and the BRAC Commission, I'm happy that someone from Utah is on this commission. You understand the rural west - its values, its economics, and its support of the Armed Services.

We don't have much to offer big business in rural eastern New Mexico, but we have big, blue skies, we have patriotic values, and we are willing to sacrifice whatever we need to, to keep Cannon flying over our homes. From the "brass" to the mechanics, every one of CAFB personnel has a place in their community. We support them. Please allow us to keep Cannon.

Sincerely,

Patrice Caldwell
