**BRAC DATA CALL NUMBER 64
CONSTRUCTION COST AVOIDANCE**

Information on cost avoidance which could be realized as the result of cancellation of on-going or programmed construction projects is provided in Tables 1 (MILCON) and 2 (FAMILY HOUSING). These tables list MILCON/FAMILY HOUSING projects which fall within the following categories:

1. all programmed construction projects included in the FY1996 - 2001 MILCON/FAMILY HOUSING Project List,
2. all programmed projects from FY1995 or earlier for which cost avoidance could still be obtained if the project were to be canceled by 1 OCT 1995, and,
3. all programmed BRAC MILCON/FAMILY HOUSING projects for which cost avoidance could still be obtained if the project were to be canceled by 1 OCT 1995.

Projects listed in Tables 1 and 2 with potential cost avoidance were determined as meeting any one of the following criteria:

Projects with projected Work in Place (WIP) less than 75% of the Current Working Estimate (CWE) as of 1 OCT 1995 .

Projects with projected completion dates or Beneficial Occupancy Dates subsequent to 31 March 1996.

Projects with projected CWE amount greater than \$15M.

The estimated cost avoidance for projects terminated after construction award would be approximately one-half of the CWE for the remaining work. Close-out, claims and other termination costs can consume the other half.

**DATA CALL 63
FAMILY HOUSING DATA**

Information on Family Housing is required for use in BRAC-95 return on investment calculations.

Installation Name:	PWC Norfolk
Unit Identification Code (UIC):	N00187
Major Claimant:	NAVFAC

Percentage of Military Families Living On-Base:	9.63%
Number of Vacant Officer Housing Units:	0
Number of Vacant Enlisted Housing Units:	0
FY 1996 Family Housing Budget (\$000):	\$9.5
Total Number of Officer Housing Units:	1
Total Number of Enlisted Housing Units:	0

Note: All data should reflect figures as of the beginning of FY 1996. If major DON installations share a family housing complex, figures should reflect an estimate of the installation's prorated share of the family housing complex.

The number of officer and enlisted units reflected above are this activity's share of the family housing assets in the total survey complex, based on data extracted from the FY96 Family Housing Survey (DD Form 1377) and the Current Personnel Summary. These units are not necessarily located at this particular activity. If this activity were to close, the housing assets could still be utilized by other activities located in the survey complex.

I certify that the information contained herein is accurate and complete to the best of my knowledge and belief.

BRAC-95 CERTIFICATION

Reference: SECNAV NOTE 11000 dtd 8 Dec 93

In accordance with policy set forth by the Secretary of the Navy, personnel of the Department of the Navy, uniformed and civilian, who provide information for use in the BRAC-95 process are required to provide a signed certification that states "I certify that the information contained herein is accurate and complete to the best of my knowledge and belief."

The signing of this certification constitutes a representation that the certifying official has reviewed the information and either (1) personally vouches for its accuracy and completeness or (2) has possession of, and is relying upon, a certification executed by a competent subordinate.

Each individual in your activity generating information for the BRAC-95 process must certify that information. Enclosure (1) is provided for individual certifications and may be duplicated as necessary. You are directed to maintain these certifications at your activity for audit purposes. For purposes of this certification sheet, the commander of the activity will begin the certification process and each reporting senior in the Chain of Command reviewing the information will also sign this certification sheet. This sheet must remain attached to this package and be forwarded up the Chain of Command. Copies must be retained by each level in the Chain of Command for audit purposes.

I certify the information contained herein is accurate and complete to the best of my knowledge and belief.

DATA CALL FOR MILITARY VALUE ANALYSES

PUBLIC WORKS CENTER, NORFOLK

Category INDUSTRIAL SUPPORT
Type PUBLIC WORKS CENTERS (PWCs)
Claimant COMNAVFACENGCOM

**MILITARY VALUE DATA CALL
PUBLIC WORK CENTERS**

Primary UIC: N00187

(Use this number for activity identification at the top of each page.)

Mission Area

1. Customer Base

1.1 In the table below identify your major customers as reflected by your FY 1993 resource allocations. A major customer is defined as an activity that represents (a) 5% or more of your total cost, or (b) one for which you provided 5% or more of your direct workyears.

Table 1.1: Customer Base

Customer	Customer location	Percent of Costs	# Direct Workyears
SHIPS	SEWELL'S POINT PIERS	17%	526
NORFOLK NAVAL SHIPYARD	NNSY PORTSMOUTH	13%	101
NAVAL STATION	SEWELL'S POINT	8%	202
HOUSING	VARIOUS LOCATIONS	8%	316
NAVAL AIR STATION	SEWELL'S POINT	5%	70
CINCLANTFLT	CINCLANTFLT - NORFOLK	5%	52
NAVAL AMPHIBIOUS BASE	LITTLE CREEK - NORFOLK	5%	49
NAVAL AVIATION DEPOT	SEWELL'S POINT	5%	80
ALL OTHERS		34%	909
	TOTAL	100%	2305

ACTIVITY: N00187

1.2 What percentage of your total FY 1993 direct Man Years was allocated to direct fleet support? 48.5 %

1.3 What was your overall customer satisfaction rating for FY 1993? 3.4 on a 5 point scale.

1.4 Identify any specialized, unique or peculiar characteristics about the facilities, equipment, or skills at your activity. Highlight those that are one of a kind within the DON/DoD.

PWC Norfolk provides the full range of Base Operations Support Services, primarily to activities within the Tidewater Virginia area. These services include maintenance and repair of Class I and Class II properties and facilities, sales of more than \$200M of electricity, steam, water, sewage and natural gas. Maintenance and operations of more than 6,000 pieces of transportation equipment, management and maintenance of more than 3,000 units of family housing, a wide spectrum of engineering services and environmental services which include laboratory testing, packaging and disposal. These services are provided to more than 1,300 customers and includes more than 100 ships. The majority of customers are located at Naval Base Norfolk; Naval Air Station Oceana, Virginia Beach; Fleet Combat Training Center, Virginia Beach; Norfolk Naval Shipyard; Naval Medical Center and St. Julien's Creek; all located at Portsmouth, Virginia.

Mission Area

2. Family Housing

2.1 In the following table provide the occupancy rate of the family housing units managed/maintained by your activity. For those activities that do not control housing assignment, identify who does. The occupancy rate is requested for each housing area. Provide comments if applicable. The occupancy rate is defined as the total number of days occupied for all units in any given housing area divided by the total number of units times 365 days.

Table 2.1: **Housing**

Housing Area	Total # Units	Occupancy Rate (%)	Comments
Camp Allen	257	98.1	N/A
Capehart	225	97.9	N/A
Carper	600	98.8	N/A
Hewitt Farms	390	97.3	N/A
Torgerson	114	97.8	N/A
Willoughby	440	97.7	N/A
Woodbridge Crossing	300	97.8	N/A
Armed Forces Staff College	249	99.2	122 Units Temporarily Diverted
Sewell's Point Officers	131	93.9	N/A
Officers (Substandard)	3	83.0	N/A
St. Julien Creek (Officer)	34	91.3	N/A
Stanley Court	125	97.0	N/A
New Gosport (Substandard)	247	96.8	N/A

Features and Facilities

3. Availability and Condition

3.1 Identify, by three digit Category Code Number (CCN), *all facilities* at this activity, and their current condition and area in thousands of square feet (KSF), e.g. 210-Maintenance Facilities. Duplicate the table as necessary to report all facilities of any tenants for whom your activity serves as host.

Table 3.1: Facility Conditions

CC N	Descriptive Nomenclature	Condition (KSF)			Total (KSF)
		Adequate	Substandard	Inadequate	
213-48	Quality Assurance	3.80	0	0	3.80

* Not included in totals

** There are no current plans in progress to upgrade these facilities

3. Availability and Condition, continued

3.2 In accordance with NAVFACINST 11010.44E, an inadequate facility cannot be made adequate for its present use through "economically justifiable means". For all the categories in Table 3.1, above, where inadequate facilities are identified provide the following information:

- a. Facility type/code:
 - b. What makes it inadequate?
 - c. What use is being made of the facility?
 - d. What is the cost to upgrade the facility to substandard?
 - e. What other use could be made of the facility and at what cost?
 - f. Current improvement plans and programmed funding:
 - g. Has this facility condition resulted in C3 or C4 designation on your BASEREP?
- a. Facility type/Category code: Boat Shop-Waterfront Pier Operations Facility/213-58**
- b. The existing facility is a makeshift facility constructed of two aircraft storage containers. The physical condition of the facility is deterioration due to age and type of construction. The functional layout is not conducive to that of a Boat Shop-Waterfront Pier Operations Facility.
 - c. The existing facility is being utilized as a machine shop and to store parts in support of barge repair operations and repair and construction of waterfront pier structures.
 - d. It will cost approximately \$2,000,000 to upgrade the facility to substandard.
 - e. This facility is located on the waterfront and can only be utilized as a support function to waterfront activities. It will cost approximately \$2,250,000 to make the facility completely adequate for its present function.
 - f. A MILCON project (P-247, PWC Shops, Waterfront Pier Operations Facility), was programmed in the FY95 MILCON program. However, the project was deferred and is now in an unprogrammed status. There are no plans to renovate this facility because it is more cost effective to completely rebuild the existing facility.
 - g. The facility conditions has resulted in a C3 designation on the PWC Norfolk BASEREP.
- a. Facility type/Category code: Waterfront Service Support Building/213-70**
- b. This facility is small and showing signs of obvious deterioration. The facility is a makeshift concrete masonry unit building which is small, weathered, and is aesthetically displeasing.
 - c. The facility is being utilized to perform hydrographic surveys in support of dredging requirements at the Naval Base Norfolk within a 50 mile radius.

d. Upgrading this facility cannot be accomplished because the facility is too deteriorated. A new facility is required.

e. This facility cannot be converted to another function by providing facility upgrades. A new facility is required for such a conversion.

f. This facility is planned for demolition and the existing function will be relocated to another facility.

g. The facility condition has not been identified in the PWC Norfolk BASEREP because the existing function will be relocated to another facility. The building is planned for demolition.

a. Facility type/Category code: Auto Vehicle Shop/214-20

b. The building interior configuration is not adequate for shop maintenance. The aisle spaces are narrow which impedes maintenance on the larger PWC vehicles. The existing facilities were not originally designed to support vehicle maintenance; therefore, maintenance equipment and parts have been placed in areas of the facility that functionally hamper maintenance operations.

c. The Auto Vehicle Shop facilities are being utilized for maintenance of PWC and fleet vehicles. This includes the heavy truck type vehicles as well.

d. The interior spaces are an integral part of the facilities and cannot be upgraded to substandard. A state-of-the-art facility is required to satisfy the deficiencies.

e. The spaces could be converted to administrative space. However, this conversion would cost approximately \$1,500,000 and would be of MILCON scope.

f. This command has tentatively planned a MILCON project (P-772, Auto Vehicle Maintenance Facility) which is estimated at a cost of \$3,850,000. This project is presently unprogrammed.

g. The facility condition has resulted in a C3 designation on the PWC Norfolk BASEREP.

a. Facility type/Category code: Vehicle Holding Shed/214-40

b. The overall facilities are old and in a deteriorated state. The facilities are also located away from the Auto Vehicle Shop which is an added impediment to maintenance operations.

c. The Vehicle Holding Shed facilities are utilized to store vehicles pending maintenance work.

d. The cost to upgrade the facility is approximately \$352,000.

e. The existing facilities could be used for warehouse storage at approximately the \$352,000 since the facilities are all open bay.

f. These facilities have been planned for incorporation in a MILCON project (P-772, Auto Vehicle Maintenance Facility). This will allow for all of the Auto Vehicle facilities to be consolidated.

g. The facilities condition has resulted in a C3 designation on the PWC BASEREP.

a. Facility type/Category code: Container Repair Test Building/218-10

b. The facilities are inadequate because they were constructed as temporary structures. The deterioration of the pre-fabricated tin structure is quite apparent and is aesthetically displeasing.

c. The existing facilities are utilized to repair and reconstruct refuse containers which are used throughout the Naval Base Norfolk.

d. The facilities cannot be upgraded to substandard because they were originally constructed as temporary structures. The cost to significantly upgrade the facilities would be of MILCON scope.

e. These makeshift buildings provide minimum facilities to repair and reconstruct refuse containers. There are no other discernible uses for the facilities.

f. A MILCON project (P-896, Trash Bin Repair Facility) has been planned to replace the existing antiquated facilities with a new repair facility. The estimated cost of this project is \$460,000. The project is presently unprogrammed.

g. The facilities condition has resulted in a C3 designation on the PWC BASEREP.

a. Facility type/Category code: Battery Recharging Shop/218-51

b. The facility is inadequate due to the building configuration, structural condition, and general deterioration due to facility age. A bridge crane is needed to facilitate the battery recharging operation; however, the facility was not originally designed to accommodate such a load.

c. The facility is used to store and recharge batteries for a variety of light and heavy vehicles.

d. It would cost approximately \$42,000 to upgrade the facility to substandard.

e. The facility could be utilized for storage with an investment of at least \$42,000 to upgrade

the facility to substandard.

f. This operation will be incorporated in the Auto Vehicle Maintenance Facility MILCON project P-772. The MILCON project is currently unprogrammed.

g. The facility condition has resulted in a C3 designation on the PWC BASEREP.

a. Facility type/Category code: Repair Shop Storage/218-77

b. The existing facilities provide inefficient working conditions due to a lack of proper space and overall interior building configuration. The facilities are also very old buildings which are showing pronounced signs of deterioration.

c. The facilities are utilized to store parts critical to repairing and outfitting mobile vans.

d. The cost to upgrade these facilities to substandard would be approximately \$276,000.

e. The facilities could be utilized as a combination of warehouse and office spaces. The cost would be approximately \$1,035,000 for the complete conversion.

f. A MILCON project (P-251, Van Workshop Addition) has been planned to correct the existing facilities deficiencies. The project cost is estimated at \$1,350,000. The project is presently unprogrammed.

g. The facilities have been designated C3 on the PWC Norfolk BASEREP.

a. Facility type/Category code: Mobile Van Shop/218-91

b. The existing facilities provide inefficient working conditions due to a lack of proper space and overall interior building configuration. The facilities are also very old buildings which are showing pronounced signs of deterioration.

c. The facilities are being utilized to repair and outfit mobile vans.

d. It would cost approximately \$420,000 to upgrade the facilities to substandard.

e. The facilities could be utilized as a combination of warehouse and office space. The cost would be approximately \$1,035,000 for the complete conversion.

f. A MILCON project (P-251, Van Workshop Addition) has been planned to correct the existing facilities deficiencies. The project cost is estimated at \$1,350,000. The project is presently unprogrammed.

- g. The facilities have been designated C3 on the PWC Norfolk BASEREP.
- a. **Facility type/Category code: Public Works Shop/219-10**
- b. The existing facility does not provide enough area for shop work.
- c. The facility serves as a Public Works Shop.
- d. The existing facility cannot be upgraded to substandard without increasing the area. Increasing the area cannot be accomplished because other functions are located in the facility which precludes expansion. The space occupied for this particular shop function is only 100 SF.
- e. The area could be used for small administrative storage. The cost for this conversion would be a nominal \$3,000 to \$4,000.
- f. There is a plan to provide a new Public Works Shop (P-329, Public Works Shop) to allow PWC to relocate the Zone 3 Maintenance Shop. However, this is due to logistic problems. The 100 SF shop function supports building N26 on the Naval Base Norfolk, and no plans have been formulated to upgrade the space either through relocation or construction of another facility.
- g. The designation for the Public Works Shop Zone 3 is C3 on the PWC BASEREP.
- a. **Facility type/Category code: Public Works Maintenance Storage/219-77**
- b. The existing facilities conditions are lack of space, deterioration (due to age, and functional inefficiencies.
- c. The existing facilities are being utilized for storage of maintenance materials.
- d. It would cost approximately \$754,000 to upgrade the facilities to substandard.
- e. The facilities are best suited as maintenance support type facilities. Reconfiguring these type facilities to some other use, for example administrative space, would be of MILCON scope.
- f. The facilities will be incorporated between three planned MILCON projects (P-772, Auto Vehicle Maintenance Facility; P-667, Classified Incinerator/Shredder; P-896, Trash Bin Repair Facility). These MILCON projects are presently unprogrammed.
- g. The designation for the facilities condition is C3 on the PWC Norfolk BASEREP.

ACTIVITY: N00187

Facilities and Features

4. Stand Alone Features

4.1 Identify the support (police, fire protection, etc.) now provided by the host Naval or Marine Corps activity or other source. Add any additional applicable factors. Identify what factors would be needed by your activity if the host facility is closed.

Table 4.1: Support Facilities

Support	Currently Obtained from:	Needed if Host Closes?
Police *See below for additional support	COMNAVBASE-CITY OF NORFOLK-CITY OF VIRGINIA BEACH	YES
Security	COMNAVBASE	YES
Fire **See below for additional support	NAVAL STATION-CITY OF NORFOLK-CITY OF VIRGINIA BEACH	YES
Cafeteria	VARIOUS	YES
Parking	VARIOUS	YES
***Utilities	PURCHASED/PRODUCED	YES
Child Care	NAVAL STATION	NO

* Norfolk Naval Shipyard Police Department
Naval Medical Center Police Department
Naval Air Station, Oceana Police Department
Little Creek NAB Police Department
Fleet Combat Training Center Dam Neck Police Department

** Norfolk Naval Shipyard Fire Department
Naval Medical Center Fire Department
Naval Air Station, Oceana Fire Department
Little Creek NAB Fire Department
Fleet Combat Training Center Dam Neck Fire Department

*** Electricity - water - sewage - natural gas obtained from city of Norfolk/city of Portsmouth or public utilities companies

Steam - produced by activities power plants

5. Facility Investment

5.1 List the project number, description, funding year, and value of the *capital improvements at your base completed (beneficial occupancy) during FY 1988 to FY 1994*. Indicate if the capital improvement is a result of BRAC realignments or closures.

ACTIVITY: _____

Project	Description	Fund Year	Value (\$K)
93-011	LAB EXPANSION	FY97	200

5. Facility Investment, continued

5.3 List the project number, description, funding year, and value of the *BRAC related capital improvements planned* for FY 1995 through FY 1999.

Table 5.3: Planned BRAC Capital Improvements

Project	Description	Fund Year	Value
N/A	N/A	N/A	N/A
N/A	N/A	N/A	N/A
N/A	N/A	N/A	N/A
N/A	N/A	N/A	N/A
N/A	N/A	N/A	N/A

5. Facility Investment, continued

5.4 Identify by Investment Category Code and Name (e.g. 05-Training Facilities; 14-Administration) the actual investment at your activity, to include all MCON, maintenance and repair, installed equipment, and minor construction, in thousands of dollars (\$ K) over the period FY 1990 through FY 1994 for all your facilities. Report separately all other Class 2 equipment investments. The following table should include your responses to questions 5.1-5.3 above.

Table 5.4: Historic Investment Summary

Investment Category	\$ K
04 OTHER OPS	12,201
08 OTHER MAINT/PROD	4,068
12 OTHER SUPPLY/STAG	898
14 ADMINISTRATION	5,347
17 UTILITIES	195,282
18 REAL ESTATE & GRNDS	206
Other (specify)	
Equipment (other than Class 2)	19,701
Activity TOTAL	237,703

5.5 What is the total planned investment, in thousands of dollars (\$ K), over the period FY 1995 through FY 2001?

Total planned Investments = \$ 401,053 K

5. Facility Investment, continued

5.6 Provide a list of all other documented major facility deficiencies not addressed in 5.1-5.3 (e.g. major repairs) and the estimated cost to rectify each at this activity.

Table 5.6: Facility Deficiencies

Deficiency	Cost to Correct (\$ K)	Result of Corrections
N/A	N/A	N/A

Costs

6. Labor Rates and Expenses

6.1 In the following table provide the requested information, expressed as an hourly rate, on your labor rate as an average of the total direct labor costed to your customers.

Table 6.1: Average Labor Rate

	FY 1993	FY 1997
Average Direct Labor Rate (less materials)	20.24	22.73
Production Expense	11.11	8.47
Overhead (G&A)	5.13	5.05
Fully Burdened Labor Cost	36.48	36.25

6.2 In the following table, provide your G&A expenses as a percentage of total costs, and your Net Operating Results (revenues minus costs) for the years requested.

Table 6.2: Expense Comparisons

Fiscal Year	G&A % of Total Expenses	Net Operating Results (\$ K)
1989	5.6%	(\$6,023)
1990	5.7%	\$6,564
1991	6.6% TDS 6.7	(\$1,188)
1992	6.0%	\$505
1993	4.9% TDS 4.7	\$1,148

(\$2,885) TDS

\$6,832 TDS

Teresa Smith
Code 1324

Strategic Concerns

7. Mobilization Capability

7.1 Describe any mobilization responsibilities that your activity may be assigned and discuss your capability to carry out those responsibilities. Indicate any corrective action required to fully carry out assigned mobilization tasks.

PWC's responsibility is to provide maintenance, utilities, housing, engineering, environmental and transportation services in direct support to the fleet or to their support shore facilities. This activity stands ready to provide this support in peace or wartime.

8. Manpower and Recruiting Issues

8.1 In the following table, identify the average amount of time taken to fill critical vacant positions in the last three years (FY 1991-1993). In addition to those positions listed, you may add three positions that your activity believes to be critical.

Table 8.1: Recruiting Issues

Position	Average Recruitment Time (months)
Environmental Engineers	3
Engineers/Architects (all other)	3
Contract Specialists	2
High Voltage Electricians	2
N/A	N/A
N/A	N/A
N/A	N/A

Strategic Concerns

9. Natural Inhibitors to Operations

9.1 Identify the percent of the planned work schedule at your facility for the period FY 1990-1993 (averaged by month) interrupted by local weather or natural disasters (i.e., how many Man Years are lost annually by month because of: thunder storm, hurricane, tornado, blizzard, below freezing conditions, earthquake or other performance-impinging natural condition?).

Table 9.1.a: Impact on Operations

	January	February	March	April	May	June
Average % Schedule Interrupted	N/A	N/A	N/A	N/A	N/A	N/A

Table 9.1.b: Impact on Operations

	July	August	September	October	November	December
Average % Schedule Interrupted	N/A	.5%	1%	N/A	N/A	N/A

Location

10. Proximity to Customers

10.1 In the table below indicate the distance, in road-miles, from main complex to your major customers as identified in Table 1.1. Also, indicate the distance, in road-miles, of your nearest satellite office/facility to the major customers.

Table 10.1: Customer Locations

Major Customer	Distance to:		Comments
	Main Complex (miles)	Nearest Satellite Facility (miles)	
NAVAL STATION	0	0	
NORFOLK NAVAL SHIPYARD	16	0	
NAVDEP	3	0	
NAVAL AIR STATION	3	0	
HEDSUPPACT	3	1	
LITTLE CREEK AMPHIB BASE	7	0	
CINCLANTFLT	3	0	Zero mile indicates co-location

10.2 For the customer activity which is furthest from your location, what is the distance from main complex and average driving time to that activity?

Activity name: North West Radio Station Distance: 34 miles
 Driving Time: 65 minutes

10.3 What is the closest DON activity that is not serviced by you?

Activity name: Yorktown Naval Weapons Distance: 40 miles
 Driving Time: 45 minutes

ACTIVITY: N00187

10.4 Identify the closest non-DON DOD activity that is not serviced by you.

Activity name: US ARMY TRANSPORTATION CENTER, Ft. Eustis Distance:
40 miles
Driving Time: 45 minutes

Environment and Encroachment

11. Environmental Considerations

11.1 Identify all environmental restrictions to expansion at your activity.

The Hampton Roads area is classified as a non-attainment zone for NOx (Nitrous Oxides). In order to acquire new emission sources, we must offset emissions with existing sources.

11.2 Describe the undeveloped acreage or waterfront that is unique to the station or facility. Include any acreage that is suitable for industrial development.

Since PWC is not a Class One property holder, this question is not appropriate for PWC to answer.

11.3 Identify any specific facilities, programs, or capabilities in regard to the handling and disposal of hazardous materials / waste at your activity.

Building W-316 is a one year PCB storage facility with an enclosed storage area equal to 2600 square feet. SDA-215 is a one year temporary storage facility for hazardous waste with a capacity to store 131,340 gallons of hazardous materials/waste. PWC also maintains 29 hazardous waste accumulation and satellite sites that are listed as follows:

11.3 Continued

**Navy Public Works Center, Norfolk
Hazardous Waste Accumulation Sites**

PWC Code	Site Location	Building	Type of Site	Shop Function
215	Norfolk Naval Shipyard	39	Satellite	Carpentry
215	Naval Medical Command, Portsmouth	273	Satellite	Hospital Maintenance

942	Norfolk Naval Base	Q-50	90-Day	90-Day HW Accumulation
914	Norfolk Naval Base	Q-50	Oil Recovery	Oil Recovery

ACTIVITY: N00187

12. Encroachment Considerations

12.1 Identify any ground, industrial noise, approach channel, waterway, harbor, bridge height, turning basin, ESQD, HERO, airspace or other encroachments of record at your activity.

Table 12.1: Encroachments of Record

Encroachments	Date Recorded	Current Status
N/A	N/A	N/A
N/A	N/A	N/A
N/A	N/A	N/A

Quality of Life

13. Military Housing - Family Housing

13.1 Do you have mandatory assignment to on-base housing? No

13.2 For military family housing in your locale, provide the following information:

Table 13.2: Available Military Family Housing

Type of Quarters	Number of Bedrooms	Total number of units	Number Adequate	Number Substandard	Number Inadequate
Officer	4+	199	199	0	0
Officer	3	197	195	2	0
Officer	1 or 2	15	14	1	0
Enlisted	4+	870	870	0	0
Enlisted	3	889	863	26	0
Enlisted	1 or 2	944	723	221	0
Mobile Homes	0	0	0	0	0
Mobile Home lots	0	0	0	0	0

13.3 In accordance with NAVFACINST 11010.44E, an inadequate facility cannot be made adequate for its present use through "economically justifiable means". For all the categories above where inadequate facilities are identified provide the following information.

- a. Facility type/code: N/A
- b. What makes it inadequate? N/A
- c. What use is being made of the facility? N/A
- d. What is the cost to upgrade the facility to substandard? N/A
- e. What other use could be made of the facility and at what cost? N/A
- f. Current improvement plans and programmed funding: N/A
- g. Has this facility condition resulted in C3 or C4 designation on your BASEREP? N/A

13. Military Housing - Family Housing, continued

13.4 Complete the following table for the military housing waiting list. Report Number on list as of 31 March 1994.

Table 13.4: Military Housing Waiting List

Pay Grade	Number of Bedrooms	Number on List	Average Wait
O-6/7/8/9	1	0	0
	2	0	8-10 MONTHS
	3	0	8-10 MONTHS
	4+	14	12-14 MONTHS
O-4/5	1	0	0
	2	1	9-12 MONTHS

	4+	33	10-16 MONTHS
O-1/2/3/CWO	1	0	4-9 MONTHS
	2	3	4-9 MONTHS
	3	3	6-15 MONTHS
	4+	16	12-14 MONTHS
E7-E9	1	0	2-9 MONTHS
	2	11	6-14 MONTHS
	3	67	7-13 MONTHS
	4+	63	12-24 MONTHS
E1-E6	1	0	2-9 MONTHS
	2	1080	6-14 MONTHS
	3	778	7-13 MONTHS
	4+	534	12-24 MONTHS

13. Military Housing - Family Housing, continued

13.5 What do you consider to be the top five factors driving the demand for base housing? Does it vary by grade category? If so provide details.

Table 13.5: Housing Demand Factors

Top Five Factors Driving the Demand for Base Housing	
1	High cost for junior enlisted, 3 or more bedrooms
2	Travel time/distance
3	Convenience to Base facilities/child care
4	Sense of safety/security (undesirable high crime areas)
5	Area has large deployable sector Shared comraderie/problems/expenses

13.6 What percent of your family housing units have all the amenities required by "The Facility Planning & Design Guide" (Military Handbook 1190 & Military Handbook 1035-Family Housing)?

32 %

13.7 Provide the utilization rate for family housing for FY 1993.

Table 13.7: Family Housing Utilization

Type of Quarters	Utilization Rate (%)
Adequate	98.2
Substandard	97.4
Inadequate	N/A

13.8 As of 31 March 1994, have you experienced much of a change since FY 1993? If so, why? If occupancy is under 98% (or vacancy over 2%), is there a reason?

(1) Yes.

(2) 600 substandard units in Ben Moreell housing are being demolished; 388 units will be rebuilt on the same site. Some quarters have been taken off line in Camp Allen and Torgerson sites for planned revitalization projects scheduled FY95-97 time frame. Some units have been taken off line in Carper housing due to unsafe structural conditions, as identified by Engineering Structural inspection.

Quality of Life

14. Military Housing - Bachelor Quarters

14.1 Provide the utilization rate for Bachelor Enlisted Quarters (BEQs) for FY 1993.

Table 14.1: BEQ Utilization

Type of Quarters	Utilization Rate
Adequate	N/A*
Substandard	N/A*
Inadequate	N/A*

*Answered by Naval Station, Norfolk

14.2 As of 31 March 1994, have you experienced much of a change since FY 1993? If so, why? If occupancy is under 95% (or vacancy over 5%), is there a reason? N/A Answered by Naval Station, Norfolk

14.3 Calculate the Average on Board (AOB) for Geographic Bachelors (GB) as follows:

$$AOB = \frac{(\# \text{ GB}) \times (\text{average \# of days in barracks})}{365}$$

AOB = N/A

14.4 Indicate in the following chart the percentage of Geographic Bachelors (GB) by category of reasons for family separation. Provide comments as necessary.

Table 14.4: Reasons for Geographic Separation (BEQ)

Reason for Separation from Family	Number of GB	Percent of GB	Comments
Family Commitments (children in school, financial, etc.)	N/A	N/A	N/A
Spouse Employment (non-military)	N/A	N/A	N/A
Other	N/A	N/A	N/A
TOTAL		100 %	

ACTIVITY: N00187

14.5 How many enlisted Geographic Bachelors (GB) do not live on base?

GB Off-Base = N/A

14. Military Housing - Bachelor Quarters, continued

14.6 Provide the utilization rate for Bachelor Officers Quarters (EOQs) for FY 1993.

Table 14.6: BOQ Utilization

Type of Quarters	Utilization Rate
Adequate	N/A
Substandard	N/A
Inadequate	N/A

14.7 As of 31 March 1994, have you experienced much of a change since FY 1993? If so, why? If occupancy is under 95% (or vacancy over 5%), is there a reason? N/A

14.8 Calculate the Average on Board (AOB) for Geographic Bachelors as follows:

$$\text{AOB} = \frac{(\# \text{ GB} \times \text{average } \# \text{ days in barracks})}{365}$$

AOB = N/A

14.9 Indicate in the following chart the percentage of Geographic Bachelors by category of reasons for family separation. Provide comments as necessary.

Table 14.9: Reasons for Geographic Separation (BOQ)

Reason for Separation from Family	Number of GB	Percent of GB	Comments
Family Commitments (children in school, financial, etc.)	N/A	N/A	N/A
Spouse Employment (non-military)	N/A	N/A	N/A
Other	N/A	N/A	N/A
TOTAL		100	

14.10 How many officer Geographic Bachelors do not live on base?

GB Off-Base = N/A

Quality of Life

15. MWR Facilities

15.1 For on-base MWR facilities available, complete the following table for each separate location. These are spaces designed for a particular use. A single building might contain several facilities, each of which should be listed separately.

For off-base government-owned or leased recreation facilities, indicate their distance from your base. If there are any facilities not listed, include them at the bottom of the table.

LOCATION _____ N/A DISTANCE _____ N/A

Table 15.1.a: MWR Facilities Summary

Facility	Unit of Measure	Total	Profitable (Y / N / N/A)
Auto Hobby	Indoor Bays	N/A	N/A
	Outdoor Bays	N/A	N/A
Arts / Crafts	SF	N/A	N/A
Wood Hobby	SF	N/A	N/A
Bowling	Lanes	N/A	N/A
Enlisted Club	SF	N/A	N/A
Officers Club	SF	N/A	N/A
Library	SF	N/A	N/A
Library	Books	N/A	N/A
Theater	Seats	N/A	N/A

N/A

Quality of Life

16. Base Family Support Facilities and Programs

16.1 Complete the following table on the availability of child care in a child care center on your base.

Table 16.1: Child Care Availability

Age Category	Capacity (# of Children)	SF			Number on Wait List	Average Wait (Days)
		Adequate	Substandard	Inadequate		
0-6 Months	N/A	N/A	N/A	N/A	N/A	N/A
6-12 Months	N/A	N/A	N/A	N/A	N/A	N/A
12-24 Months	N/A	N/A	N/A	N/A	N/A	N/A
24-36 Months	N/A	N/A	N/A	N/A	N/A	N/A
3-5 Years	N/A	N/A	N/A	N/A	N/A	N/A

16.2 In accordance with NAVFACINST 11010.44E, an inadequate facility cannot be made adequate for its present use through "economically justifiable means." For all the categories above where inadequate facilities are identified provide the following information:

- a. Facility type/code: N/A
- b. What makes it inadequate? N/A
- c. What use is being made of the facility? N/A
- d. What is the cost to upgrade the facility to substandard? N/A
- e. What other use could be made of the facility and at what cost? N/A
- f. Current improvement plans and programmed funding: N/A
- g. Has this facility condition resulted in C3 or C4 designation on your BASEREP? N/A

Included in Naval Station/Site response

ACTIVITY: NO0187

16. Base Family Support Facilities and Programs, continued

16.3 If you have a waiting list, describe what programs or facilities, other than those sponsored by your command, are available to accommodate those on the list. N/A

16.4 How many "certified home care providers" are registered at your base? # = N/A

16.5 Are there other military child care facilities within 30 minutes of the base?/ No N/A
State owner and capacity (e.g. 60 children, 0-5 years). N/A

16. Base Family Support Facilities and Programs, continued

16.6 Complete the following table for services available on your base. If you have any services not listed, include them at the bottom.

Table 16.6: Available Services

Service	Unit of Measure	Quantity
Exchange	SF	N/A
Gas Station	SF	N/A
Auto Repair	SF	N/A

19. Off-base Housing Rental and Purchase

19.1 Fill in the following table for average rental costs in the area for the period 1 April 1993 through 31 March 1994.

Table 19.1: Recent Rental Rates

Type of Rental	Average Monthly Rent		Average Monthly Utilities Cost
	Annual High	Annual Low	
Efficiency	535	265	75
Apartment (1-2 Bedroom)	*1300	229	141
Apartment (3+ Bedroom)	900	450	201
Single Family Home (3 Bedroom)	1600	460	213
Single Family Home (4+ Bedroom)	1500	595	260
Town House (2 Bedroom)	1150	320	130
Town House (3+ Bedroom)	1250	575	180
Condominium (2 Bedroom)	1400	500	123
Condominium (3+ Bedroom)	1400	600	192

*Many of these high cost units are located in the resort area.

19.2 What was the rental occupancy rate in the community as of 31 March 1994?

Table 19.2: Rental Occupancy Rate

Type Rental	Occupancy Rate (%)
Efficiency	92.16
Apartment (1-2 Bedroom)	96.00
Apartment (3+ Bedroom)	96.00
Single Family Home (3 Bedroom)	96.00
Single Family Home (4+ Bedroom)	99.00
Town House (2 Bedroom)	92.00
Town House (3+ Bedroom)	92.00
Condominium (2 Bedroom)	88.00

ACTIVITY: N00187

Condominium (3+ Bedroom)	88.00
--------------------------	-------

19. Off-base Housing Rental and Purchase, continued

19.3 What are the median costs for homes in the area?

Table 19.3: Regional Home Costs

Type of Home	Median Cost
Single Family Home (3 Bedroom)	\$625.00
Single Family Home (4+ Bedroom)	700.00
Town House (2 Bedroom)	550.00
Town House (3+ Bedroom)	600.00
Condominium (2 Bedroom)	550.00
Condominium (3+ Bedroom)	626.00

19.4 For calendar year 1993, from the local MLS listings, provide the number of 2, 3, and 4 bedroom homes available for purchase. Use only homes for which monthly payments would be within 90 to 110 percent of the E5 BAQ and VHA for your area.

Table 19.4: Housing Availability

Month	Number of Bedrooms		
	2	3	4+
January	14	27	4
February	17	26	5
March	20	45	4

BRAC-95 CERTIFICATION

Reference: SECNAVNOTE 11000 of 08 December 1993

In accordance with policy set forth by the Secretary of the Navy, personnel of the Department of the Navy, uniformed and civilian, who provide information for use in the BRAC-95 process are required to provide a signed certification that states "I certify that the information contained herein is accurate and complete to the best of my knowledge and belief."

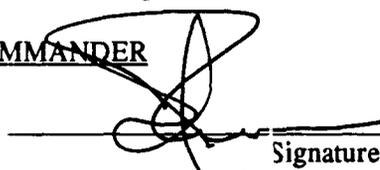

The signing of this certification constitutes a representation that the certifying official has reviewed the information and either (1) personally vouches for its accuracy and completeness or (2) has possession of, and is relying upon, a certification executed by a competent subordinate.

Each individual in your activity generating information for the BRAC-95 process must certify that information. Enclosure (1) is provided for individual certifications and may be duplicated as necessary. You are directed to maintain those certifications at your activity for audit purposes. For purposes of this certification sheet, the commander of the activity will begin the certification process and each reporting senior in the Chain of Command reviewing the information will also sign this certification sheet. This sheet must remain attached to this package and be forwarded up the Chain of Command. Copies must be retained by each level in the Chain of Command for audit purposes.

I certify that the information contained herein is accurate and complete to the best of my knowledge and belief.

Pollutant	Attainment	Non-Attainment	Maintenance	Target Attainment Year ¹	Comments ²
CO	YES	N/A	N/A	N/A	N/A
Ozone	NO	Marginal (See Note)	N/A	Nov. 15, 1993	Attainment dependent on EPA requirements
PM-10	YES	N/A	N/A	N/A	N/A
SO ₂	YES	N/A	N/A	N/A	N/A
NO ₂	YES	N/A	N/A	N/A	N/A
Pb	YES	N/A	N/A	N/A	N/A

¹ Based on national standard for Non-Attainment areas or SIF for Maintenance areas.² Indicate if attainment is dependent upon BRACON, MILCON or Special Projects. Also indicate if the project is currently programmed within the President's FY1997 budget.

Note: The EPA has classified the Hampton Roads area as a marginal nonattainment area for ozone, the least severe of the nonattainment designations. In accordance with EPA regulations, Hampton Roads did not meet marginal requirements by November 15, 1993, the Commonwealth of Virginia is anticipating notice from the WPA as to the possible reclassification of Hampton Roads to a moderate nonattainment area. If a reclassification does occur, the EPA will assist the Commonwealth of Virginia in developing a time table and plan of action for the reduction of ozone in the Hampton Roads area.

**1993 EMISSIONS CALCULATIONS
DAM NECK
VIRGINIA BEACH, VIRGINIA**

All calculations are based on fuel consumed and AP-42 emission factors.

Emissions based on amount of *fuel burned* (lb/mmcf or lb/mgal) multiplied by *emission factor* and divided by *2000 lb/ton*

Note:

mgal=thousand gallons

mmcf=million cubic feet

Boiler No. 1 - Bldg. 529

CO Emissions:

- A) (No. 4 Fuel Oil) 13 mgal/yr (x) 5 lb/mgal (/) 2000 lb/ton = 0.03 tons/yr
(Natural Gas) 45 mmcf/yr (x) 35 lb/mmcf (/) 2000 lb/ton = 0.79 tons/yr
TOTAL = 0.03 + 0.79 = 0.82 TONS/YEAR

NO_x Emissions:

- B) (No. 4 Fuel Oil) 13 mgal/yr (x) 20 lb/mgal (/) 2000 lb/ton = 0.13 tons/yr
(Natural Gas) 45 mmcf/yr (x) 140 lb/mmcf (/) 2000 lb/ton = 3.41 tons/yr
TOTAL = 0.13 + 3.14 = 3.27 TONS/YEAR

VOC Emissions:

- C) (No. 4 Fuel Oil) 13 mgal/yr (x) 0.2 lb/mgal (/) 2000 lb/ton = 0.001 tons/yr
(Natural Gas) 45 mmcf/yr (x) 2.8 lb/mmcf (/) 2000 lb/ton = 0.06 tons/yr
TOTAL = 0.001 + 0.06 = 0.06 TONS/YEAR

PM₁₀ Emissions:

- D) (No. 4 Fuel Oil) 13 mgal/yr (x) 7 lb/mgal (/) 2000 lb/ton = 0.05 tons/yr
(Natural Gas) 45 mmcf/yr (x) 13.7 lb/mmcf (/) 2000 lb/ton = 0.31 tons/yr
TOTAL = 0.05 + 0.31 = 0.36 TONS/YEAR

Boiler No. 2 - Bldg. 529

CO Emissions:

- E) (No. 4 Fuel Oil) 37 mgal/yr (x) 5 lb/mgal (/) 2000 lb/ton = 0.09 tons/yr
(Natural Gas) 59 mmcf/yr (x) 35 lb/mmcf (/) 2000 lb/ton = 1.03 tons/yr
TOTAL = 0.09 + 1.03 = 1.12 TONS/YEAR

NO_x Emissions:

- F) (No. 4 Fuel Oil) 37 mgal/yr (x) 20 lb/mgal (/) 2000 lb/ton = 0.37 tons/yr
(Natural Gas) 59 mmcf/yr (x) 140 lb/mmcf (/) 2000 lb/ton = 4.12 tons/yr
TOTAL = 0.37 + 4.12 = 4.49 TONS/YEAR

VOC Emissions:

G) (No. 4 Fuel Oil) 37 mgal/yr (x) 0.2 lb/mgal (/) 2000 lb/ton = 0.004 tons/yr
(Natural Gas) 59 mmcf/yr (x) 2.8 lb/mmcf (/) 2000 lb/ton = 0.08 tons/yr
TOTAL = 0.004 + 0.08 = 0.08 TONS/YEAR

PM10 Emissions:

H) (No. 4 Fuel Oil) 37 gal/yr (x) 7 lb/mgal (/) 2000 lb/ton = 0.13 tons/yr
(Natural Gas) 59 mmcf/yr (x) 13.7 lb/mmcf (/) 2000 lb/ton = 0.40 tons/yr
TOTAL = 0.13 + 0.40 = 0.53 TONS/YEAR

Boiler No. 3 - Bldg. 529

CO Emissions:

D) (No. 4 Fuel Oil) 49 mgal/yr (x) 5 lb/mgal (/) 2000 lb/ton = 0.12 tons/yr
(Natural Gas) 51 mmcf/yr (x) 35 lb/mmcf (/) 2000 lb/ton = 0.89 tons/yr
TOTAL = 0.12 + 0.89 = 1.01 TONS/YEAR

NOx Emissions:

J) (No. 4 Fuel Oil) 49 mgal/yr (x) 20 lb/mgal (/) 2000 lb/ton = 0.49 tons/yr
(Natural Gas) 51 mmcf/yr (x) 140 lb/mmcf (/) 2000 lb/ton = 3.58 tons/yr
TOTAL = 0.49 + 3.58 = 4.07 TONS/YEAR

VOC Emissions:

K) (No. 4 Fuel Oil) 49 mgal/yr (x) 0.2 lb/mgal (/) 2000 lb/ton = 0.005 tons/yr
(Natural Gas) 51 mmcf/yr (x) 2.8 lb/mmcf (/) 2000 lb/ton = 0.07 tons/yr
TOTAL = 0.005 + 0.07 = 0.08 TONS/YEAR

PM10 Emissions:

L) (No. 4 Fuel Oil) 49 gal/yr (x) 7 lb/mgal (/) 2000 lb/ton = 0.17 tons/yr
(Natural Gas) 51 mmcf/yr (x) 13.7 lb/mmcf (/) 2000 lb/ton = 0.35 tons/yr
TOTAL = 0.17 + 0.35 = 0.52 TONS/YEAR

1993 EMISSIONS CALCULATIONS NORFOLK

All calculations are based on fuel consumed and AP-42 emission factors.

Emissions based on amount of *fuel burned* (lb/mmcf or lb/mgal) multiplied by *emission factor* and divided by *2000 lb/ton*

Note:

mgal=thousand gallons

mmcf=million cubic feet

Boiler No. 55 - Bldg. P-1

CO Emissions:

- A) (No. 2 Fuel Oil - Fuel Oil Reclaimed) 72 mgal/yr (x) 5 lb/mgal (/) 2000 lb/ton = 0.18 tons/yr

5e. Public Works Center is planning to convert the NAB 757 Steam Plant from coal to natural gas operation.

Estimated decrease in air emissions will be reported on NAVBASE Little Creek BRAC 95 Report.

5f. Richmond, Virginia is approximately 100 miles from all PWC sites and is currently identified as an ozone non-attainment area. Richmond obtained this status in 1990 and has until 1996 to meet EPA compliance.

5g. No restrictions as indicated above are currently in place nor are any anticipated in near future for the Hampton Roads area.

5h. The Common Wealth of Virginia has not implemented Emission Reduction Credits as of May 1994.

BRAC-95 CERTIFICATION

Reference: SECNAVNOTE 11000 of 08 December 1993

In accordance with policy set forth by the Secretary of the Navy, personnel of the Department of the Navy, uniformed and civilian, who provide information for use in the BRAC-95 process are required to provide a signed certification that states "I certify that the information contained herein is accurate and complete to the best of my knowledge and belief."

The signing of this certification constitutes a representation that the certifying official has reviewed the information and either (1) personally vouches for its accuracy and completeness or (2) has possession of, and is relying upon, a certification executed by a competent subordinate.

Each individual in your activity generating information for the BRAC-95 process must certify that information. Enclosure (1) is provided for individual certifications and may be duplicated as necessary. You are directed to maintain those certifications at your activity for audit purposes. For purposes of this certification sheet, the commander of the activity will begin the certification process and each reporting senior in the Chain of Command reviewing the information will also sign this certification sheet. This sheet must remain attached to this package and be forwarded up the Chain of Command. Copies must be retained by each level in the Chain of Command for audit purposes.

I certify that the information contained herein is accurate and complete to the best of my knowledge and belief.

Mission Area

3. Maximum Potential Workload

3.1 The success of DMRD 967 has shown that PWC's, operating financially under the DBOF concept, are capable of expanding the productive workforce with only marginal increases in overhead. This is made possible by using an approach consistent with the NAVFAC EFD/EFA approach where additional activities are served with a decentralized productive work execution function supported by centralized command overhead.

The combination of proven management initiatives/practices and the application of advanced automated data processing equipment and techniques make it possible for PWC Norfolk to expand services to any Navy or Marine Corps activity located on the Eastern seaboard. Expansions should only be undertaken, however, after a thorough study has proven that it is in the best economic and operational interest of the Navy. Specific areas that have expressed an interest in being served by PWC Norfolk are:

- a. Naval Weapons Station Yorktown, VA (30 miles North)
- b. Naval Weapons Station Earle, N.J. (292 miles North)

The resources (labor, equipment, etc.) needed to expand services to these and other remote sites are extremely difficult to predict. Experience has shown, however, that significant savings can be achieved in areas such as utilities and transportation.

Additional services:

REGIONAL FAMILY HOUSING MANAGEMENT

South Hampton Roads contains seven separate military installations. These include Naval Base Norfolk, Little Creek Amphibious Base, Oceana Naval Air Station, Fleet Combat Training Center Atlantic, Dam Neck, Portsmouth Naval Hospital, Norfolk Naval Shipyard and Fort Story. All of these facilities are within 20 miles of Naval Base Norfolk. Maximum commute time to any of the bases is approximately 30 to 45 minutes at rush hour.

In April 1993, Norfolk Naval Shipyard housing was consolidated with Public Works Center (PWC) Norfolk. The other installations however, continued to manage their own assets. PWC Norfolk currently manages the largest inventory in the area with over 3,000 units. PWC Norfolk also serves as the housing technical advisor to the area coordinator, COMNAVBASE Norfolk. Given the close proximity of all the housing and the success of the consolidation with the shipyard, PWC Norfolk could easily assume regional responsibility for all family housing management. Central assignments and housing referral operations would provide consistent, equitable service to all military stationed in south Hampton Roads. Centralized purchasing and contracting also offer potential dollar savings.

PWC Norfolk currently operates the Navy Housing Welcome Center which provides extended weekday and Saturday office hours. The Welcome Center also provides a supervised child play area, home buying and home selling workshops, showing service to assist military members in locating economic housing and a Departure Service to help families and bachelors locate housing at their new duty station. Although these services are available to all personnel, many do not take advantage of them because they check in at one of the other bases in the area. Establishing PWC Norfolk as the regional housing authority will ensure that all personnel stationed in south Hampton Roads have maximum access to these services.

Primary UIC: NOO187

3. Maximum Potential Workload, continued

No additional funds are required to implement a regional housing authority. Currently the Naval Bases in south Hampton Roads use 127.5 manyears. This excludes Fort Story which is a contract operation. Three to four manyears would be required to operate housing at Fort Story. Anticipate that total manyears could be reduced by at least 5 through a regional operation.

PROFESSIONAL ENGINEERING SERVICES

The following services are currently provided by PWC NORVA ON A REGIONAL basis. In addition, several of these commodities are provided outside of the NORVA region to include large portions of the east coast and overseas NAVY and DOD locations. The recommendation is to consider a broad region (east coast, fleet alignment, claimant alignment, etc.) where PWC NORVA would be the focal point for delivering these commodities:

- Facilities condition assessment and Long Range Maintenance Planning (LRMP)
- LEAD Assessment of Abatement Program
- East Coast Navy Center of Excellence for Energy Planning, Management and Execution
- Execution of Program for Backflow Prevention devices including certification, consultation, maintenance/repair planning and estimating, and work execution by contract and in-house forces
 - Additionally, applicable to elevator
 - Additionally, applicable to boilers
- NAVY center of expertise for family housing rehabilitation program supporting the Neighborhoods of Excellence (NOE)
- Technical consultation, testing/certification, and program management for weight handling equipment

Since PWC Norfolk is already providing these services, additional resources required for an expanded service would be incremental and dependent on quantity and duration of additional workload.

Primary UIC: N00187

4.1.b Production Facilities

There are no programmed MILCON and/or BRACON projects for production facilities at PWC Norfolk.

4.2 Inadequate Facilities

For all categories cited in 4.1.a where inadequate space exists, the following information is provided:

- a. **Facility type/category code: Boat Shop-Waterfront Pier Operations Facility/213-58**
- b. The existing facility is a makeshift facility constructed of two aircraft storage containers. The physical condition of the facility is deterioration due to age and type of construction. The functional layout is not conducive to that of a Boat Shop-Waterfront Pier Operations Facility.
- c. The existing facility is being utilized as a machine shop and to store parts in support of barge repair operations and repair and construction of waterfront pier structures.
- d. It will cost approximately \$2,000,000 to upgrade the facility to substandard.
- e. This facility is located on the waterfront and can only be utilized as a support function to waterfront activities. It will cost approximately \$2,250,000 to make the facility completely adequate for its present function.
- f. A MILCON project (P-247, PWC Shops, Waterfront Pier Operations Facility), was programmed in the FY95 MILCON program. However, the project was deferred and is now in an unprogrammed status. There are no plans to renovate this facility because it is more cost effective to completely rebuild the existing facility.
- g. The facility condition has resulted in a C3 designation on the PWC Norfolk BASEREP.
- a. **Facility type/Category code: Waterfront Service Support Building/213-70**
- b. This facility is small and showing signs of obvious deterioration. The facility is a makeshift concrete masonry unit building which is small, weathered, and is aesthetically displeasing.
- c. The facility is being utilized to perform hydrographic surveys in support of dredging requirements at the Naval Base Norfolk within a 50 mile radius.
- d. Upgrading this facility cannot be accomplished because the facility is too deteriorated. A new facility is required.
- e. This facility cannot be converted to another function by providing facility upgrades. A new facility is required for such a conversion.
- f. This facility is planned for demolition and the existing function will be relocated to another facility.
- g. The facility condition has not been identified in the PWC Norfolk BASEREP because the existing function will be relocated to another facility. The building is planned for demolition.

Primary UIC: N00187

4.2 Inadequate Facilities, continued

a. Facility type/Category code: Auto Vehicle Shop/214-20

- b. The building interior configuration is not adequate for shop maintenance. The aisle spaces are narrow which impedes maintenance on the larger PWC vehicles. The existing facilities were not originally designed to support vehicle maintenance; therefore, maintenance equipment and parts have been placed in areas of the facility that functionally hamper maintenance operations.
- c. The Auto Vehicle Shop facilities are being utilized for maintenance of PWC and fleet vehicles. This includes the heavy truck type vehicles as well.
- d. The interior spaces are an integral part of the facilities and cannot be upgraded to substandard. A state-of-the-art facility is required to satisfy the deficiencies.
- e. The spaces could be converted to administrative space. However, this conversion would cost approximately \$1,500,000 and would be of MILCON scope.
- f. This command has tentatively planned a MILCON project (P-772, Auto Vehicle Maintenance Facility) which is estimated at a cost of \$3,850,000. This project is presently unprogrammed.
- g. The facility condition has resulted in a C3 designation on the PWC Norfolk BASEREP.

a. Facility type/Category code: Vehicle Holding Shed/214-40

- b. The overall facilities are old and in a deteriorated state. The facilities are also located away from the Auto Vehicle Shop which is an added impediment to maintenance operations.
- c. The Vehicle Holding Shed facilities are utilized to store vehicles pending maintenance work.
- d. The cost to upgrade the facility is approximately \$352,000.
- e. The existing facilities could be used for warehouse storage at approximately the \$352,000 since the facilities are all open bay.
- f. These facilities have been planned for incorporation in a MILCON project (P-772), Auto Vehicle Maintenance Facility). This will allow for all of the Auto Vehicle facilities to be consolidated.
- g. The facilities condition has resulted in a C3 designation on the PWC BASEREP.

a. Facility type/Category code: Container Repair Test Building/218-10

- b. The facilities are inadequate because they were constructed as temporary structures. The deterioration of the pre-fabricated tin structure is quite apparent and is aesthetically displeasing.
- c. The existing facilities are utilized to repair and reconstruct refuse containers which are used throughout areas served by PWC.

Primary UIC: N00197

4.2 Inadequate Facilities, continued

- d. The facilities cannot be upgraded to substandard because they were originally constructed as temporary structures. The cost to significantly upgrade the facilities would be of MILCON scope.
- e. These makeshift buildings provide minimum facilities to repair and reconstruct refuse containers. There are no other discernible uses for the facilities.
- f. A MILCON project (P-896, Trash bin Repair Facility) has been planned to replace the existing antiquated facilities with repair facility. The estimated cost of this project is \$460,000. The project is presently unprogrammed.
- g. The facilities condition has resulted in a C3 designation on the PWC BASEREP.
- a. **Facility type/Category code: Battery Recharging shop/218-51**
- b. The facility is inadequate due to the building configuration, structural condition, and general deterioration due to facility age. A bridge crane is needed to facilitate the battery recharging operation; however, the facility was not originally designed to accommodate such a load.
- c. The facility is used to store and recharge batteries for a variety of light and heavy vehicles.
- d. It would cost approximately \$42,000 to upgrade the facility to substandard.
- e. The facility could be utilized for storage with an investment of at least \$42,000 to upgrade the facility to substandard.
- f. This operation will be incorporated in the Auto Vehicle Maintenance Facility MILCON project P-772. The MILCON project is currently unprogrammed.
- g. The facility condition has resulted in a C3 designation on the PWC BASEREP.
- a. **Facility type/Category code: Repair Shop Storage/218-77**
- b. The existing facilities provide inefficient working conditions due to a lack of proper space and overall interior building configuration. The facilities are also very old building which are showing pronounced signs of deterioration.
- c. The facilities are being utilized to store parts critical to repairing and outfitting mobile vans.
- d. The cost to upgrade these facilities to substandard would be approximately \$276,000.
- e. The facilities could be utilized as a combination of warehouse and office spaces. The cost would be approximately \$1,035,000 for the complete conversion.
- f. A MILCON project (P-251, Van Workshop Additions) has been planned to correct the existing facilities deficiencies. The project cost is estimated at \$1,350,000. The project is presently unprogrammed.

Primary UIC: N00187

Inadequate Facilities, continued

- g. The facilities have been designated C3 on the PWC Norfolk BASEREP.
- a. **Facility type/Category code: Mobile Van Shop/218-91**
- b. The existing facilities provide inefficient working conditions due to a lack of proper space and overall interior building configuration. The facilities are also very old buildings which are showing pronounced signs of deterioration.
- c. The facilities are being utilized to repair and outfit mobile vans.
- d. It would cost approximately \$420,000 to upgrade the facilities to substandard.
- e. The facilities could be utilized as a combination of warehouse and office spaces. The cost would be approximately \$1,035,000 for the complete conversion.
- f. A MILCON project (P-251, Van Workshop Additions) has been planned to correct the existing facilities deficiencies. The project cost is estimated at \$1,350,000. The project is presently unprogrammed.
- g. The facilities have been designated C3 on the PWC Norfolk BASEREP.
- a. **Facility type/Category code: Public Works Shop/219-10**
- b. The existing facility does not provide enough area for shop work.
- c. The facility serves as a Public Works Shop.
- d. The existing facility cannot be upgraded to substandard without increasing the area. Increasing the area cannot be accomplished because other functions are located in the facility which precludes expansion. The space occupied for the particular shop function is only 100 SF.
- e. The area could be used for small administrative storage. The cost for this conversion would be a nominal \$3,000 to \$4,000.
- f. There is a plan to provide a new Public Works Shop (P-329, Public Works Shop) to allow PWC to relocate the Zone 3 Maintenance Shop. However, this is due to logistic problems. The 100 SF shop function supports building N26 on the Naval Base Norfolk, and no plans have been formulated to upgrade the space either through relocation or construction of another facility.
- g. The designation for the Public Works Shop Zone 3 is C3 on the PWC BASEREP.
- a. **Facility type/Category code: Public Works Maintenance Storage/219-77**
- b. The existing facilities conditions are lack of space, deterioration due to age, and functional inefficiencies.
- c. The existing facilities are being utilized for storage of maintenance materials.

Primary UIC: N00187

Inadequate Facilities, continued

- d. It would cost approximately \$754,000 to upgrade the facilities to substandard.
- e. The facilities are best suited as maintenance support type facilities. Reconfiguring these type facilities to some other use, for example administrative space, would be of MILCON scope.
- f. The facilities will be incorporated between three planned MILCON projects (P-772, Auto Vehicle Maintenance Facility; P-667, Classified Incinerator/Shredder; P-896, Trash Bin Repair Facility). These MILCON projects are presently unprogrammed.
- g. The designation for the facilities condition is C3 on the PWC Norfolk BASEREP.

Inadequate Officer Unit - On Base

Inadequate due to size (square footage)
Currently occupied as family housing units
Repairs/improvements planned for FY-98
No projects as of this date

Cost* SP-76 - \$96,000 - 2 BR - FY98
SP-79 - \$88,000 - 3 BR - FY98
SP-80 - \$80,000 - 3 BR - FY98

*Economic analysis will be performed to determine if cost effective to repair/improve.

Inadequate New Gosport Units - Enlisted

Inadequate due to size, parking, no air conditioning.
Currently occupied as family housing units
PWC Norfolk does not plan to correct deficiencies. Current plan is to divest units in FY99. FY96 family housing survey does not show need for the units.

Programmed Project - H-258

Ben Moreell Enlisted Housing - FY94
Demolish 608 World War II units
Replace with 388 units on same site
Bedroom composition: 188 - 3 BR
175 - 4 BR
25 - 5 BR

Programmed Project - H -272

Carper Housing Replacement
Phase I * - 202 units
New Site
Bedroom Composition: 52 - 2 BR
150 - 3 BR

*Existing Carper Units will be demolished beginning in FY97.

Activity: NFVC NORFOLK

Primary UIC: N00187

4. Facility Utilization, continued

4.5 Expansion Capability

A vast majority of the facilities at PWC Norfolk are production oriented facilities. The functions in the facilities provide a variety of services to customer naval activities in support of the fleet at the Naval Base Norfolk. There are no present or foreseeable facilities expansion capabilities at PWC Norfolk based on the premise of underutilized facilities. This command's MILCON program will provide for some facilities expansion; however, the program also entails replacement facilities for PWC functions located in antiquated deteriorated buildings and functionally inadequate buildings.

Table 4.5: Space Available for Expansion

N/A

4.6 Expansion Potential

There is no discernible facilities expansion potential at PWC Norfolk except through new construction in the MILCON program.

4.7 Real Estate Resources

N/A

4.8 Other Constraints

At Naval Base Norfolk, COMNAVBASE holds all Class I property. PWC holds records for numerous Class II facilities - not for the land on which these facilities sit.

PWC Norfolk utilizes approximately 90,342 SF of parking on the Naval Base Norfolk. A majority of this parking is adjacent to PWC owned and occupied facilities. This precludes expansion of existing facilities. In addition, parking is very limited aboard the Naval Base Norfolk. The parking areas that PWC occupy are a small fraction of the overall parking areas on the Naval Base Norfolk. Therefore, it is imperative that this parking remain in support of the many military and civilian personnel who work for PWC Norfolk.

4. SPECIAL AREAS:

<u>A. NAME</u>	<u>LOCATION</u>	<u>UIC</u>
LITTLE CREEK AMPHIBIOUS BASE	NORFOLK, VA	N00187
NAVAL AIR STATION OCEANA	VIRGINIA BEACH VIRGINIA	N00187
NORFOLK NAVAL SHIPYARD/ SAINT JULIEN'S CREEK	PORTSMOUTH VIRGINIA	N00187
FLEET COMBAT TRAINING CENTER	VIRGINIA BEACH VIRGINIA	N00187
NAVAL MEDICAL CENTER PORTSMOUTH	PORTSMOUTH VIRGINIA	N00187

COMMENTS:

Per Defense Management Review Decision (DMRD) 967, Public Works Center Norfolk recently consolidated with the Public Works Department; located at the above

listed sites. This decision requires that PWC Norfolk operate as a regional Public Works Center providing a full range of Base Operating Support Services to Navy activities located in Southside Hampton Roads. It further required that PWC Norfolk take over the responsibility for operations and ownership of all utility systems and other selected Class II buildings necessary to house materials, equipment, and administrative and shop personnel located at the above sites. DMRD 967 has increased both the plant value of Class II facilities and personnel on the rolls of the PWC. These increases by site are as follows:

<u>CLASS II</u>	<u>INCREASE IN PLANT VALUE</u>
LITTLE CREEK AMPHIBIOUS BASE	\$ 21,861,615
NORFOLK NAVAL SHIPYARD/SAINT JULIEN'S CREEK	154,260,709
NAVAL AIR STATION OCEANA	13,503,620
FLEET COMBAT TRAINING CENTER, DAM NECK	12,509,625
NAVAL MEDICAL CENTER PORTSMOUTH	<u>11,517,639</u>
TOTAL	<u>\$214,653,208</u>

<u>PERSONNEL</u>	<u>AMOUNT</u>
LITTLE CREEK AMPHIBIOUS BASE	259
NORFOLK NAVAL SHIPYARD/SAINT JULIEN'S CREEK	327
NAVAL AIR STATION OCEANA	188
FLEET COMBAT TRAINING CENTER, DAM NECK	98
NAVAL MEDICAL CENTER PORTSMOUTH	79

<u>B.</u>	<u>NAME</u>	<u>LOCATION</u>	<u>UIC</u>
	FAMILY HOUSING	HEWITT FARMS NORFOLK (390 UNITS)	N00187
		CARPER, VIRGINIA BEACH (600 UNITS)	N00187
		*WOODBRIDGE CROSSING NEWPORT NEWS, VA (300 UNITS)	N/A

LAFAYETTE BRANCH RIVER CLINIC, NORFOLK (6 UNITS)	N00187
NEW GOSPORT PORTSMOUTH, VA (247 UNITS)	N00187
STANLEY COURT PORTSMOUTH, VA (125 UNITS)	N00187
NAVAL SHIPYARD PORTSMOUTH, VA (27 UNITS)	N00187
SAINT JULIEN'S CREEK PORTSMOUTH, VA (8 UNITS)	N00187

* Leased Housing -- title to pass to U.S. Government at end of lease period.

COMMENTS:

PWC Norfolk is responsible for the management and maintenance of 3,722 units of family housing. Of this number 1,703 units are not located on or contiguous to Naval Base Norfolk. These units are listed above. Of the remaining housing units, 608 Ben Moreell units are in process of demolition. They are to be replaced by 388 units scheduled for completion late FY95 or early FY96. The estimated operations and maintenance cost for family housing in FY94 is approximately \$35M.

<u>C. NAME</u>	<u>UIC</u>	<u>LOCATION</u>	<u>PLANT VALUE</u>
DRIVER DEEP POTABLE WELLS	N00187	DRIVER VIRGINIA	\$1,582,324

COMMENTS:

The above wells are located at the Naval Radio Transmission Facility (NRTF) Driver. The reason these wells were located on NRTF Driver is their proximity to the city of Norfolk's raw water line which crosses Driver and for which there is an existing easement. The wells feed directly into the raw water pipe line and, when and if required, the city of Norfolk, under its utility contract with the Navy, would wheel and treat water for the Navy during drought conditions. BRAC 93 recommended the closure of NRTF Driver allowing the wells to become available to public agencies. These wells are mission essential to the Navy. Request BRAC 95 address the status of these wells and that they remain the property of the Navy Public Works Center, Norfolk.

5. DETACHMENTS:

<u>NAME</u>	<u>UIC</u>	<u>LOCATION</u>	<u>HOST NAME</u>	<u>HOST UIC</u>
NAVY PUBLIC WORKS CENTER	N00187	FORT STORY VIRGINIA	U.S. ARMY TRANSPORTATION CENTER FORT EUSTIS, VIRGINIA	W26CJU

The Navy Public Works Center and the U.S. Army transportation Center entered into a support agreement in 1973 to provide maintenance service for equipment,

buildings, roadways, parking areas and utility systems. In addition PWC provides utility service, i.e., electricity, water, sanitary sewage, insect, rodent and pest control services, trash and refuse collection and disposal functions, fuel oil and LP gas, janitorial services, grounds maintenance and environmental services as required.

The agreement covers Headquarters, Family Housing and the 80th Division (USAR) all located at Fort Story, Virginia Beach, VA. In addition, PWC provides miscellaneous maintenance service to the U.S. Army Reserve Center 29th and Gazel Streets, Norfolk and at the Army Reserve Center, Suffolk, Virginia. Total PWC sales to the Army is approximately \$4M annually and requires 34 man years of effort.

6. BRAC IMPACT:

Previous BRAC decisions, including BRAC 93 proposals to close/realign the Naval Aviation Depot (UIC 65887), the Naval Under Warfare Engineering Command Detachment, Norfolk (UIC N64281) and the Naval Electronics Systems Engineering Center (UIC 65580) are anticipated to have a minimal impact on PWC Norfolk. Thru realignment, it is expected that the areas affected will be occupied and that the total PWC Norfolk business volume should remain relatively constant. One reasonably serious issue, however, does exist as a result of BRAC 93. The Public Works Center owns two wells at Naval Radio Transmission Facility (NRTF) Driver, a facility scheduled for closure. These wells are on PWC's Class II property and were constructed to support the Norfolk Naval Base during drought conditions. BRAC 95 needs to address this situation and clear up any ambiguity about control over the wells, as they are essential to the Navy's regional water plan.

7. MISSION:

Current Missions

- Navy Public Works Center provides a full range of Base Operating Support Services (BOSS) to all activities within the Tidewater Virginia geographical area. These services include maintenance and repair of all Class I and II properties and facilities, operations, maintenance and sales of electricity, steam, water, sewage, and other utilities, maintenance and operations of more than 6,200 pieces of transportation equipment, management and maintenance of 3,722 units of family housing, a wide spectrum of engineering services and environmental services including laboratory testing, packaging and disposal.

Prior to implementation of DMRD 967, PWC sales for FY92 totaled \$268.3M. Implementation of DMRD 967 increased PWC's sales by 48% in FY93. Total sales by customer and product for FY93 are as follows:

<u>FY93 SALES BY MAJOR CUSTOMER</u>		<u>FY93 SALES BY PRODUCT LINE</u>	
SHIPS	\$69.6M	STEAM	\$22.5M

*These activities transitioned to PWC during FY93. FY94 sales to these activities will increase.

- Maintenance Services
 - Major and Minor structural, mechanical and electrical repairs for shore facilities.
 - Emergency Service - Immediate response to eliminate a hazardous situation or restore essential services.
 - Routine Service - Work performed on a first-in, first-out basis, usually completed within two weeks.
 - Minor Work - Maintenance, repair and other work with a cost of up to \$10,000.
 - Specific Work - Service that normally exceeds \$10,000. This work is scoped in advance to provide accurate cost estimates and includes renovation and custom building.
 - Recurring Work - Periodic service for preventive maintenance.
 - Maintenance Service Agreements can extend the life of facilities or equipment with scheduled preventive maintenance.
 - Waterfront maintenance - pier, fender and barge repair and barge overhaul.
- Mobile Facilities Program - Configuration of special mobile facilities, i.e., communications vans, weather vans, medical vans, etc. to be utilized to sustain the support of tactical forces and other systems during worldwide combat operations.
- Utility Services
 - PWC generates and distributes steam. In addition, the Center maintains the on-base distribution systems for electricity, gas, water and sewage in support of the Fleet and Shore Facilities.
 - Manages the Refuse Derived Fuel plant to produce steam and generate electricity at NNSY.
 - Generates "clean steam" for ships.
 - Maintains and supports utility connections for shore services to ships.
 - Supports a variety of energy conservation programs.
- Engineering Support
 - Prepares plans, specifications, contract documentation, cost estimates, investigations, studies, designs and customer reports.
 - Develops long range maintenance planning (structural, mechanical and electrical).
 - Worldwide asbestos and lead identification and removal planning.
 - Hydrographic and topographic surveys.

- Inspection and certification of:
 - Boilers
 - Elevators
 - Backflow devices
 - Unfired pressure vessels
 - Weight handling equipment
- Test, adjust and balance (TAB) heating, ventilation and air conditioning systems.
- Navy wide identification of energy conservation measures.
- Contract support
 - Mission essential services that are not specifically available or services requiring special time restraints can be obtained through our facilities support contracts.
- Transportation Services
 - Maintains approximately 6,200 vehicles and pieces of equipment that range from sedans to heavy construction equipment.
 - Provides short term and long term vehicle rental to ships and shore community, crane support to piers based on customer requirements.
 - Provides day and night fuel service to customers.
 - Quickline service available for preventive maintenance and minor repairs.
 - Maintain customer equipment including emergency vehicles, cranes, materials handling equipment, etc.
 - Personnel transport and heavy equipment operations including asphalt repair and snow removal.
 - Vehicle licensing for special equipment, i.e., manlifts, forklifts, one ton or more trucks, and heavy equipment training available to customers.
 - Solid waste management services including providing dumpsters for trash removal on a scheduled basis, cans and bulk pickups at all family housing areas.
 - Quarantined waste (foreign and medical) pick up and disposal service provided.
 - Management of a recycling facility to recover items for reuse.
- Environmental Services
 - Participate actively in effort to maintain and preserve a clean environment.
 - Provide oil spill prevention and recovery services oil salvaged and processed for reuse.
 - Clean up and disposal of hazardous waste spills.

- Collection, identification and disposal services for hazardous waste materials including shipboard waste, asbestos, pesticides, paint, etc.
 - Providing analytical laboratory services including inspections, quality assurance, sample tracking and assistance in interpretation of test results. Tests not routinely done by in-house personnel are obtained for customer through local contractors but monitored by in-house lab personnel.
 - Pest, weed and rodent control provided to area customers including family housing areas.
 - Operate Industrial Waste Treatment Plant.
- Family Housing
- Administer/Manages 3,722 on base and remote family housing units and government-owned quarters, housing over 15,000 military personnel and their families.
 - PWC, in concert with the City of Norfolk, established a Housing Referral Office located at JANAF Shopping Center. The office provides housing information to more than 20,000 customers annually.
- Ship Support Office - insures the fleet is provided with reliable and prompt services including utility connections, telecommunications, crane services, trash collection, oil spill recovery, etc.

Projected Missions for FY 2001

- Maintenance Services
- Major and Minor structural, mechanical and electrical repairs for shore commands, Sewells Point, Little Creek, Oceana/Dam Neck, Shipyard and Fort Story.
 - Emergency Service - Immediate response to eliminate a hazardous situation or restore essential services.
 - Routine Service - Work performed on a first-in, first-out basis, usually completed within two weeks.
 - Minor Work - Maintenance, repair and other work with a cost of up to \$10,000.
 - Specific Work - Service that normally exceeds \$10,000. This work is scoped in advance to provide accurate cost estimates and includes renovation and custom building.
 - Recurring Work - Periodic service for preventive maintenance.
 - Maintenance Service Agreements can extend the life of facilities or equipment with scheduled preventive maintenance.

- Waterfront maintenance - pier, fender and barge repair and barge overhaul.
- Mobile Facilities Program - Configuration of special mobile facilities, i.e., communications, vans, weather vans, medical vans, etc. to be utilized to sustain the support of tactical forces and other systems during worldwide combat operations.
- Utility Services
 - PWC generates and distributes steam. In addition, the on-base distribution systems for electricity, gas, water and sewage in support of the Fleet and Shore Facilities.
 - Manages the Refuse Derived Fuel plant to produce steam and generate electricity at NNSY.
 - Generates "clean steam" for ships.
 - Maintains and supports utility connections for shore services to ships.
 - Supports a variety of energy conservation programs.
- Engineering Support
 - Prepare plans, specifications, contract documentation, cost estimates, investigations, studies, designs and customer reports.

- Ship Support Office - insures the fleet is provided with reliable and prompt services including utility connections, telecommunications, crane services, trash collection, oil spill recovery, etc.

8. UNIQUE MISSIONS:

Current Unique Missions

- Mobile Facilities Program - Configuration of special mobile facilities, i.e., communications, weather vans, medical vans, etc. to be utilized to sustain the support of tactical forces and other systems during worldwide combat operations.
- Ship support office maintained and operated in conjunction with the Naval Station to insure fleet is provided with reliable and prompt services as required including utility connections, Telecommunications, crane services, trash collection, oil spill recovery, etc.
- Manage operation of refuse derived fuel plant by SPSA to produce steam and generate electricity at NNSY using trash as an alternative energy source.
- Worldwide asbestos and lead identification. This includes the necessary planning for the removal of lead base paints from all DOD housing, child care centers and DOD schools.

Projected Unique Missions for FY 2001

- Mobile Facilities Program - Configuration of special mobile facilities, i.e., communications, weather vans, medical vans, etc. to be utilized to sustain the support of tactical forces and other systems during worldwide combat operations.
- Ship support office maintained and operated in conjunction with the Naval Station to insure fleet is provided with reliable and prompt services as required including utility connections, Telecommunications, crane services, trash collection, oil spill recovery, etc.

**DATA CALL 65
ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA**

Activity Identification: Please complete the following table, identifying the activity for which this response is being submitted.

Activity Name:	NAVY PUBLIC WORKS CENTER NORFOLK
UIC:	N00187
Major Claimant:	COMNAVFACENGCOM

General Instructions/Background:

Information requested in this data call is required for use by the Base Structure Evaluation Committee (BSEC), in concert with information from other data calls, to analyze both the impact that potential closure or realignment actions would have on a local community and the impact that relocations of personnel would have on communities surrounding receiving activities. In addition to Cost of Base Realignment Actions (COBRA) analyses which incorporate standard Department of the Navy (DCN) average cost factors, the BSEC will also be conducting more sophisticated economic and community infrastructure analyses requiring more precise, activity-specific data. For example, activity-specific salary rates are required to reflect differences in salary costs for activities with large concentrations of scientists and engineers and to address geographic differences in wage grade salary rates. Questions relating to "Community Infrastructure" are required to assist the BSEC in evaluating the ability of a community to absorb additional employees and functions as the result of relocation from a closing or realigning DON activity.

Due to the varied nature of potential sources which could be used to respond to the questions contained in this data call, a block appears after each question, requesting the identification of the source of data used to respond to the question. To complete this block, identify the source of the data provided, including the appropriate references for source documents, names and organizational titles of individuals providing information, etc. Completion of this "Source of Data" block is critical since some of the information requested may be available from a non-DoD source such as a published document from the local chamber of commerce, school board, etc. Certification of data obtained from a non-DoD source is then limited to certifying that the information contained in the data call response is an accurate and complete representation of the information obtained from the source. Records must be retained by the certifying official to clearly document the source of any non-DoD information submitted for this data call.

Enclosure (1)

**DATA CALL 65
ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA**

General Instructions/Background (Continued):

The following notes are provided to further define terms and methodologies used in this data call. Please ensure that responses consistently follow this guidance:

Note 1: Throughout this data call, the term "activity" is used to refer to the DON installation that is the addressee for the data call.

Note 2: Periodically throughout this data call, questions will include the statement that the response should refer to the "area defined in response to question 1.b., (page 3)". Recognizing that in some large metropolitan areas employee residences may be scattered among many counties or states, the scope of the "area defined" may be limited to the sum of:

- those counties that contain government (DoD) housing units (as identified in 1.b.2)), and,
- those counties closest to the activity which, in the aggregate, include the residences of 80% or more of the activity's employees.

Note 3: Responses to questions referring to "civilians" in this data call should reflect federal civil service appropriated fund employees.

1. Workforce Data

a. **Average Federal Civilian Salary Rate.** Provide the projected FY 1996 average gross annual appropriated fund civil service salary rate for the activity identified as the addressee in this data call. This rate should include all cash payments to employees, and exclude non-cash personnel benefits such as employer retirement contributions, payments to former employees, etc.

Average Appropriated Fund Civilian Salary Rate:	\$32,628.14
--	--------------------

Source of Data (1.a. Salary Rate): CIVPERS Object Class 11 Data
--

DATA CALL 65
ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA

b. Location of Residence. Complete the following table to identify where employees live. Data should reflect current workforce.

1) Residency Table. Identify residency data, by county, for both military and civilian (civil service) employees working at the installation (including, for example, operational units that are homeported or stationed at the installation). For each county listed, also provide the estimated average distance from the activity, in miles, of employee residences and the estimated average length of time to commute one-way to work. For the purposes of displaying data in the table, any county(s) in which 1 % or fewer of the activity's employees reside may be consolidated as a single line entry in the table, titled "Other".

County of Residence City of:	State	No. of Employees Residing in County		Percentage of Total Employees	Average Distance From Base (Miles)	Average Duration of Commute (Minutes)
		Military	Civilian			
Norfolk	VA	1	673	27.6	7.9	20
Virginia Beach	VA	14	637	26.7	13.3	40
Portsmouth	VA	1	252	10.3	10.4	40
Chesapeake	VA	1	423	17.4	16.3	45
Hampton	VA	N/A	89	3.6	13.0	30
Newport News	VA	N/A	60	2.5	20.0	45
All Other - VA	VA	N/A	206	8.4	N/A	N/A
All Other - NC	NC	N/A	85	3.5	N/A	N/A

= 100%

As discussed in Note 2 on Page 2, subsequent questions in the data call refer to the "area defined in response to question 1.b., (page 3)". In responding to these questions, the scope of the "area defined" may be limited to the sum of: a) those counties that contain government (DoD) housing units (as identified below), and, b) those counties closest to the activity which, in the aggregate, include the residences of 80% or more of the activity's employees.

2) Location of Government (DoD) Housing. If some employees of the base live in government housing, identify the county(s) where government housing is located:

City of Norfolk - 1 Military

**DATA CALL 65
ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA**

Source of Data (1.b. 1) & 2) Residence Data): Defense Civilian Personnel Data System

c. **Nearest Metropolitan Area(s).** Identify all major metropolitan area(s) (i.e., population concentrations of 100,000 or more people) which are within 50 miles of the installation. If no major metropolitan area is within 50 miles of the base, then identify the nearest major metropolitan area(s) (100,000 or more people) and its distance(s) from the base.

City	County	Distance from base (miles)
Norfolk	N/A	7.9
Portsmouth	N/A	12.4
Chesapeake	N/A	16.3
Virginia Beach	N/A	13.3
Hampton	N/A	13.0
Newport News	N/A	20.0

Source of Data (1.c. Metro Areas): Hampton Roads Planning District Commission

d. **Age of Civilian Workforce.** Complete the following table, identifying the age of the activity's civil service workforce.

Age Category	Number of Employees	Percentage of Employees
16 - 19 Years	29	1.2%
20 - 24 Years	59	2.4%
25 - 34 Years	415	17.1%
35 - 44 Years	893	36.9%
45 - 54 Years	706	29.1%

DATA CALL 65
ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA

55 - 64 Years	294	12.1%
65 or Older	29	1.2%
TOTAL	2,425 Note 1	100%

Source of Data (1.d.) Age Data): Defense Civilian Personnel Data System
--

e. Education Level of Civilian Workforce

1) **Education Level Table.** Complete the following table, identifying the education level of the activity's **civil service** workforce.

Last School Year Completed	Number of Employees	Percentage of Employees
8th Grade or less	37	1.5%
9th through 11th Grade	253	10.4%
12th Grade or High School Equivalency	1,564	64.5%
1-3 Years of College	307	12.7%
*4 Years of College (Bachelors Degree)	214	8.8%
5 or More Years of College (Graduate Work)	47	2.0%
Unknown	3	.1%
TOTAL	2,425 Note 1	100%

* Includes employees with more than sufficient number of hours to qualify for Bachelors Degree, i.e., 120 semester/160 quarter hours, but has not been awarded diploma.

2) **Degrees Achieved.** Complete the following table for the activity's **civil service** workforce. Identify the number of employees with each of the following degrees, etc. To

Note 1: Does not include approximately 900⁵ PWC employees located at additional sites, i.e., NAS Oceana, Norfolk Naval Shipyard, Little Creek Amphibious Base, etc. This direction is per BSAT response dated 8 July 1994.

**DATA CALL 65
ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA**

avoid double counting, only identify the highest degree obtained by a worker (e.g., if an employee has both a Master's Degree and a Doctorate, only include the employee under the category "Doctorate").

Degree	Number of Civilian Employees
Terminal Occupation Program - Certificate of Completion, Diploma or Equivalent (for areas such as technicians, craftsmen, artisans, skilled operators, etc.)	107
Associate Degree	63
**Bachelor Degree	202
Masters Degree	27
Doctorate	1

** Number of employees with degree

Source of Data (1.e.1) and 2) Education Level Data): Defense Civilian Personnel Data System

f. Civilian Employment By Industry. Complete the following table to identify by "industry" the type of work performed by **civil service** employees at the activity. The intent of this table is to attempt to stratify the activity civilian workforce using the same categories of industries used to identify private sector employment. Employees should be categorized based on their primary duties. Additional information on categorization of private sector employment by industry can be found in the Office of Management and Budget Standard Industrial Classification (SIC) Manual. However, you do not need to obtain a copy of this publication to provide the data requested in this table.

Note the following specific guidance regarding the "Industry Type" codes in the first column of the table: Even though categories listed may not perfectly match the type of work performed by civilian employees, please attempt to assign each civilian employee to one of the "Industry Types" identified in the table. However, only use the Category 6, "Public Administration" sub-categories when none of the other categories apply. Retain supporting data used to construct this table at the activity-level, in case questions arise or additional information is required at some future time. Leave shaded areas blank.

Source of Data (1.f.) Classification By Industry Data): Defense Civilian Personnel Data System

g. Civilian Employment by Occupation. Complete the following table to identify the types of "occupations" performed by civil service employees at the activity. Employees should be categorized based on their primary duties. Additional information on categorization of employment by occupation can be found in the Department of Labor Occupational Outlook Handbook. However, you do not need to obtain a copy of this publication to provide the data requested in this table.

Note the following specific guidance regarding the "Occupation Type" codes in the first column of the table: Even though categories listed may not perfectly match the type of work performed by civilian employees, please attempt to assign each civilian employee to one of the "Occupation Types" identified in the table. Refer to the descriptions immediately following this table for more information on the various occupational categories. Retain supporting data used to construct this table at the activity-level, in case questions arise or additional information is required at some future time. Leave shaded areas blank.

Note 1: Does not include approximately 900 PWC employees located at additional sites, i.e., NAS Oceana, Norfolk Naval Shipyard, Little Creek Amphibious Base, etc. This direction is per BSAT response dated 8 July 1994.

Source of Data (1.g.) Classification By Occupation Data): Defense Civilian Personnel Data System

Description of Occupational Categories used in Table 1.g. The following list identifies public and private sector occupations included in each of the major occupational categories used in the table. Refer to these examples as a guide in determining where to allocate appropriated fund civil service jobs at the activity.

1. **Executive, Administrative and Management.** Accountants and auditors; administrative services managers; budget analysts; construction and building inspectors; construction contractors and managers; cost estimators; education administrators; employment interviewers; engineering, science and data processing managers; financial managers; general managers and top executives; chief executives and legislators; health services managers; hotel managers and assistants; industrial production managers; inspectors and compliance officers, except construction; management analysts and consultants; marketing,

DATA CALL 65
ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA

- advertising and public relations managers; personnel, training and labor relations specialists and managers; property and real estate managers; purchasing agents and managers; restaurant and food service managers; underwriters; wholesale and retail buyers and merchandise managers.
2. **Professional Specialty.** Use sub-headings provided.
 3. **Technicians and Related Support.** Health Technologists and Technicians sub-category - self-explanatory. Other Technologists sub-category includes aircraft pilots; air traffic controllers; broadcast technicians; computer programmers; drafters; engineering technicians; library technicians; paralegals; science technicians; numerical control tool programmers.
 4. **Administrative Support & Clerical.** Adjusters, investigators and collectors; bank tellers; clerical supervisors and managers; computer and peripheral equipment operators; credit clerks and authorizers; general office clerks; information clerks; mail clerks and messengers; material recording, scheduling, dispatching and distributing; postal clerks and mail carriers; records clerks; secretaries; stenographers and court reporters; teacher aides; telephone, telegraph and teletype operators; typists, word processors and data entry keyers.
 5. **Services.** Use sub-headings provided.
 6. **Agricultural, Forestry & Fishing.** Self explanatory.
 7. **Mechanics, Installers and Repairers.** Aircraft mechanics and engine specialists; automotive body repairers; automotive mechanics; diesel mechanics; electronic equipment repairers; elevator installers and repairers; farm equipment mechanics; general maintenance mechanics; heating, air conditioning and refrigeration technicians; home appliance and power tool repairers, industrial machinery repairers; line installers and cable splicers; millwrights; mobile heavy equipment mechanics; motorcycle, boat and small engine mechanics; musical instrument repairers and tuners; vending machine servicers and repairers.
 8. **Construction Trades.** Bricklayers and stonemasons; carpenters; carpet installers; concrete masons and terrazzo workers; drywall workers and lathers; electricians; glaziers; highway maintenance; insulation workers; painters and paperhangers; plasterers; plumbers and pipefitters; roofers; sheet metal workers; structural and reinforcing ironworkers; tilesetters.
 9. **Production Occupations.** Assemblers; food processing occupations; inspectors, testers and graders; metalworking and plastics-working occupations; plant and systems operators, printing occupations; textile, apparel and furnishings occupations; woodworking occupations; miscellaneous production operations.
 10. **Transportation & Material Moving.** Busdrivers; material moving equipment operators; rail transportation occupations; truckdrivers; water transportation occupations.
 11. **Handlers, Equipment Cleaners, Helpers and Laborers** (not included elsewhere). Entry level jobs not requiring significant training.

h. Employment of Military Spouses. Complete the following table to provide estimated information concerning military spouses who are also employed in the area defined in response to question 1.b., above. Do not fill in shaded area.

1. Percentage of Military Employees Who Are Married:	94%
2. Percentage of Military Spouses Who Work Outside of the Home:	75%
3. Break out of Spouses' Location of Employment (Total of rows 3a. through 3d. should equal 100% and reflect the number of spouses used in the calculation of the "Percentage of Spouses Who Work Outside of the Home".	

**DATA CALL 65
ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA**

3a. Employed "On-Base" - Appropriated Fund:	25%
3b. Employed "On-Base" - Non-Appropriated Fund:	N/A
3c. Employed "Off-Base" - Federal Employment:	N/A
3d. Employed "Off-Base" - Other Than Federal Employment	75%

Source of Data (1.h.) Spouse Employment Data): Activity Personnel Files
--

2. Infrastructure Data. For each element of community infrastructure identified in the two tables below, rate the community's ability to accommodate the relocation of additional functions and personnel to your activity. Please complete each of the three columns listed in the table, reflecting the impact of various levels of increase (20%, 50% and 100%) in the number of personnel working at the activity (and their associated families). In ranking each category, use one of the following three ratings:

A - Growth can be accommodated with little or no adverse impact to existing community infrastructure and at little or no additional expense.

B - Growth can be accommodated, but will require some investment to improve and/or expand existing community infrastructure.

C - Growth either cannot be accommodated due to physical/environmental limitations or would require substantial investment in community infrastructure improvements.

Table 2.a., "Local Communities": This first table refers to the local community (i.e., the community in which the base is located) and its ability to meet the increased requirements of the installation.

Table 2.b., "Economic Region": This second table asks for an assessment of the infrastructure of the economic region (those counties identified in response to question 1.b., (page 3) - taken in the aggregate) and its ability to meet the needs of additional employees and their families moving into the area.

For both tables, annotate with an asterisk (*) any categories which are wholly supported on-base, i.e., are not provided by the local community. These categories should also receive an A-B-C rating. Answers for these "wholly supported on-base" categories should refer to base infrastructure rather than community infrastructure.

DATA CALL 65
ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA

a. **Table A: Ability of the local community to meet the expanded needs of the base.**

1) Using the A - B - C rating system described above, complete the table below.

Category	20% Increase	50% Increase	100% Increase
Off-Base Housing	A	A	A
Schools - Public	A	A	A
Schools - Private	A	A	A
Public Transportation - Roadways	A	A	A
Public Transportation - Buses/Subways	A	A	A
Public Transportation - Rail	N/A	N/A	N/A
Fire Protection	A	A	B
Police	A	A	B
Health Care Facilities	A	A	B
Utilities:			
Water Supply	A	A	B
Water Distribution	A	A	A
Energy Supply	A	A	A
Energy Distribution	A	A	A
Wastewater Collection	A	A	B
Wastewater Treatment	A	A	A
Storm Water Collection	A	A	A
Solid Waste Collection and Disposal	A	A	A
Hazardous/Toxic Waste Disposal	A	A	A
Recreational Activities	A	A	A

Remember to mark with an asterisk any categories which are wholly supported on-base.

**DATA CALL 65
ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA**

2) For each rating of "C" identified in the table on the preceding page, attach a brief narrative explanation of the types and magnitude of improvements required and/or the nature of any barriers that preclude expansion.

In this table there were no "C" ratings assigned to any of the infrastructure categories.

Source of Data (2.a. 1) & 2) - Local Community Table): Hampton Roads Planning District Commission

b. Table B: Ability of the region described in the response to question 1.b. (page 3) (taken in the aggregate) to meet the needs of additional employees and their families relocating into the area.

1) Using the A - B - C rating system described above, complete the table below.

Category	20% Increase	50% Increase	100% Increase
Off-Base Housing	A	A	B
Schools - Public	A	A	B
Schools - Private	A	A	B
Public Transportation - Roadways	A	A	B
Public Transportation - Buses/Subways	A	A	B
*Public Transportation - Rail	N/A	N/A	N/A
Fire Protection	A	A	B
Police	A	A	B
Health Care Facilities	A	A	B
Utilities:			
Water Supply	A	A	B
Water Distribution	A	A	B
Energy Supply	A	A	B
Energy Distribution	A	A	B

**DATA CALL 65
ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA**

Category	20% Increase	50% Increase	100% Increase
Wastewater Collection	A	A	B
Wastewater Treatment	A	A	B
Storm Water Collection	A	A	B
Solid Waste Collection and Disposal	A	A	B
Hazardous/Toxic Waste Disposal	A	A	B
Recreation Facilities	A	A	A

Remember to mark with an asterisk any categories which are wholly supported on-base.

* N/A was assigned to the Public Transportation - Rail category because the region does not have a commuter rail system.

2) For each rating of "C" identified in the table on the preceding page, attach a brief narrative explanation of the types and magnitude of improvements required and/or the nature of any barriers that preclude expansion.

In this table there were no "C" ratings assigned to any of the infrastructure categories.

Source of Data (2.b. 1) & 2) - Regional Table): Hampton Roads Planning District Commission

3. Public Facilities Data:

- a. **Off-Base Housing Availability.** For the counties identified in the response to question 1.b. (page 3), in the aggregate, estimate the current average vacancy rate for community housing. Use current data or information identified on the latest family housing market analysis. For each of the categories listed (rental units and units for sale), combine single family homes, condominiums, townhouses, mobile homes, etc., into a single rate:

**DATA CALL 65
ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA**

Rental Units:

Number of Bedrooms	Vacant Units for Rent	Vacancy Rate (Percent)
1 Bedroom	4,254	9.4%
2 Bedroom	11,884	11.4%
3 Bedroom	3,208	6.2%
4+ Bedroom	107	0.9%
Total for the Region	19,453	10%

Units for Sale:

City	Vacant Units for Sale	Vacancy Rate (Percent)
Virginia Beach	5,043	3.3%
Norfolk	5,862	6.2%
Portsmouth	2,292	5.5%
Chesapeake	1,552	2.4%
Newport News	3,340	4.6%
Hampton	2,099	3.5%
Williamsburg	766	3.7%
*Total for the Region	20,954	4.5%

* PWC Norfolk unable to confirm total data reflected in city breakdown. This table not addressed in previous PWC data calls.

<p>Source of Data (3.a. Off-Base Housing): For rental units: Metro Market Trends, Inc. For sale units: 1993-93 HUD Housing Survey</p>
--

**DATA CALL 65
ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA**

b. Education.

1) Information is required on the current capacity and enrollment levels of school systems serving employees of the activity. Information should be keyed to the counties identified in the response to question 1.b. (page 3).

School District	County	Number of Schools			Enrollment		Pupil-to-Teacher Ratio		Does School District Serve Gov't Housing Units? *
		Elementary	Middle	High	Current	Max. Capacity	Current	Max. Ratio	
Virginia Beach		53	11	10	74,880	***	20.0	25	Yes
Norfolk		37	8	5	36,450	***	20.7	25	Yes
Chesapeake		26	7	5	33,182	***	21.0	25	No
Portsmouth		16	4	4	17,921	***	23.0	25	Yes
Suffolk		10	3	2	9,443	***	21.2	25	No
Newport News		25	7	4	31,894	***	19.1	25	Yes
Hampton		24	5	4	22,991	***	19.6	25	Yes
Poquoson		2	1	1	2,403	***	20.0	25	No
Williamsburg/James City County	Williamsburg/James County	6	3	1	6,637	***	17.7	25	Yes
York County	York County	10	3	3	10,619	***	20.4	25	Yes
Gloucester County	Gloucester County	5	2	1	6,235	***	17.4	25	No

* Answer "Yes" in this column if the school district in question enrolls students who reside in government housing.

*** This figure is unavailable because capacity fluctuates due to the following reasons:

1. Mobile trailers can be used for classrooms if a school needs additional capacity.
2. Some schools are currently being renovated or additions are under construction.
3. Reconfiguration, rescheduling, and redistricting are all possible solutions for school systems if additional space is needed.
4. Classroom sizes vary according to the needs of the students. Example: If additional special education students are registered in a school the "capacity" can decrease due to the State requirements of smaller pupil to teacher ratios for special education students.

School districts in this table include all of the Public School Systems in the Metropolitan Statistical Area with the exception of the Isle of Wight County School System and the Matthews County School System.

**DATA CALL 65
ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA**

**Source of Data (3.b.1) Education Table): Hampton Roads Planning District
Commission**

2) Are there any on-base "Section 6" Schools? If so, identify number of schools and current enrollment.

There are no on-base Section 6 Schools.

**Source of Data (3.b.2) On-Base Schools): Hampton Roads Planning District
Commission**

3) For the counties identified in the response to question 1.b. (page 3), in the aggregate, list the names of undergraduate and graduate colleges and universities which offer certificates, Associate, Bachelor or Graduate degrees :

Institution Name	Certificate	Associate Degree	Bachelor Degree	Graduate Degree
College of William and Mary	No	No	Yes	Yes
Christopher Newport University	No	No	Yes	Yes
Old Dominion University	No	No	Yes	Yes
Norfolk State University	No	No	Yes	Yes
Thomas Nelson Community College	Yes	Yes	No	No
Commonwealth College	No	Yes	No	No
Eastern Virginia Medical School	No	No	No	Yes
Hampton University	No	No	Yes	Yes
Virginia Wesleyan College	No	No	Yes	Yes

Both Old Dominion University and Tidewater Community College offer courses during the spring and fall semesters as well as during the summer session on NOB Norfolk and NAS Oceana. Additionally, George Washington University, Emory Riddle Aeronautical, Southern

**DATA CALL 65
ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA**

Illinois University, and St. Leo's College have extension campuses located in Hampton Roads. These educational institutions offer classes and programs designed especially for active duty military personnel stationed in the area.

One program of special interest available on-base to service members and their adult dependents is the Military Career Transition Program offered by Old Dominion University. This program offers senior enlisted and officers due to retire or separate from the military a course of study resulting in a Masters of Science in Education and teaching certification by the Commonwealth of Virginia. Classes are offered at Dam Neck, NAS Norfolk, the Virginia Beach Graduate Center, Langley AFB, and Fort Monroe.

Source of Data (3.b.3) Colleges): Hampton Roads Planning District Commission

4) For the counties identified in the response to question 1.b. (page 3), in the aggregate, list the names and major curriculums of vocational/technical training schools:

Advanced Technology, Inc.	USA Training Academy
Automotive Training Institute	Virginia Beach Beauty Academy
Career Development Institute	Virginia Institute of Technology
Career Works, Inc.	Virginia School of Polygraph
Careercom	Wards Corner Beauty Academy
Centec Learning	Ymlth Unlimited
Charm Associates Inc.	Green Thumb Employment & Training

Source of Data (3.b.4) Vo-tech Training): Hampton Roads Planning District Commission

c. Transportation.

1) Is the activity served by public transportation?

	<u>Yes</u>	<u>No</u>
Bus:	<u>X</u>	<u>—</u>
Rail:	<u>—</u>	<u>X</u>
Subway:	<u>—</u>	<u>X</u>
Ferry:	<u>—</u>	<u>X</u>

Source of Data (3.c.1) Transportation): Hampton Roads Planning District Commission

2) Identify the location of the nearest passenger railroad station (long distance rail service, not commuter service within a city) and the distance from the activity to the station.

Amtrack - 9304 Warwick Blvd., Newport News, VA, 10 miles

Source of Data (3.c.2) Transportation): Hampton Roads Planning District Commission

3) Identify the name and location of the nearest commercial airport (with public carriers, e.g., USAIR, United, etc.) and the distance from the activity to the airport.

Norfolk International Airport - 8 miles

**DATA CALL 65
ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA**

Source of Data (3.c.3) Transportation): Hampton Roads Planning District Commission

4) How many carriers are available at this airport?

There are 8 carriers which service this airport. They are American Airlines, Continental Airlines, Delta Airlines, Northwest Airlines, Trans World Airlines, USAir, United Airlines, and Southeast Airlines.

Source of Data (3.c.4) Transportation): Hampton Roads Planning District Commission

5) What is the Interstate route number and distance, in miles, from the activity to the nearest Interstate highway?

Interstate 564 - 0 miles

Source of Data (3.c.5) Transportation): Hampton Roads Planning District Commission

6) Access to Base:

a) Describe the quality and capacity of the road systems providing access to the base, specifically during peak periods. (Include both information on the area surrounding the base and information on access to the base, e.g., numbers of gates, congestion problems, etc.)

Access to the activity is via I-64 and I-564, International Terminal Blvd., and Hampton Blvd. These routes provide excellent access to the facility. In 1993 HOV lanes on I-64 were completed at a cost of \$120,000,000.

b) Do access roads transit residential neighborhoods?

The only road to transit residential neighborhoods is through Hampton Blvd.

c) Are there any easements that preclude expansion of the access road system?

No

**DATA CALL 65
ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA**

d) Are there any man-made barriers that inhibit traffic flow (e.g., draw bridges, etc.)?

No

Source of Data (3.c.6) Transportation): Hampton Roads Planning District Commission

- d. **Fire Protection/Hazardous Materials Incidents.** Does the activity have an agreement with the local community for fire protection or hazardous materials incidents? Explain the nature of the agreement and identify the provider of the service.

Commander, Naval Base, Norfolk has a written mutual aid firefighting assistance agreement with the City of Norfolk. The agreement indicates that the base or the city will respond personnel and equipment to requests for firefighting assistance from either party.

There is no written or verbal agreement with the local community for hazardous materials response that I am aware of. The City of Norfolk and the Virginia Department of Emergency Services have previously responded to the base for assistance on a few hazardous materials incidents.

Source of Data (3.d. Fire/Hazmat): Naval Station, Norfolk

- e. **Police Protection.**

1) What is the level of legislative jurisdiction held by the installation?

Concurrent Jurisdiction

2) If there is more than one level of legislative jurisdiction for installation property, provide a brief narrative description of the areas covered by each level of legislative jurisdiction and whether there are separate agreements for local law enforcement protection.

N/A

DATA CALL 65
ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA

3) Does the activity have a specific written agreement with local law enforcement concerning the provision of local police protection?

No, however a memorandum of understanding between the City of Norfolk and Commander, Naval Base, Norfolk is in place to provide juvenile protection services.

4) If agreements exist with more than one local law enforcement entity, provide a brief narrative description of whom the agreement is with and what services are covered.

Since the Naval Base, Norfolk, Security Department does not have an emergency services team, the Federal Bureau of Investigations (FBI) provides a special weapons and tactics team (SWAT) when requested by the Naval Criminal Investigative Service. The FBI's SWAT is sometimes augmented by the City of Norfolk's Police Department SWAT when requested by FBI.

5) If military law enforcement officials are routinely augmented by officials of other federal agencies (BLM, Forest Service, etc.), identify any written agreements covering such services and briefly describe the level of support received.

N/A

Source of Data (3.e. 1) - 5) - Police): Commander, Naval Base, Norfolk

f. Utilities.

1) Does the activity have an agreement with the local community for water, refuse disposal, power or any other utility requirements? Explain the nature of the agreement and identify the provider of the service.

While monitored as an individual account, this activity is supplied with water by the City of Norfolk under a general contract between the Navy and the City of Norfolk. The current contract which is being renegotiated includes a reserve capacity of an undisclosed amount to accommodate increased demand across all activities serviced under the Navy contract.

The activity has sewer lines connected directly to the HRSD sewer lines. Wastewater is treated at the HRSD Army base treatment plant which has capacity available for increased flows. Increases may require a separate agreement with the City of Norfolk if the city's sewer lines are impacted.

DATA CALL 65
ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA

COMNAVBASE has an NPDES/VPDES discharge permit. Naval Base Norfolk operates their own stormwater collection system. Norfolk is not billing the base for stormwater collection at this time.

LANTDIV has a refuse disposal agreement with SPSA. Collection and delivery is handled by the activity.

Naval Base Norfolk receives electricity under a contract negotiated with Virginia Power.

The activity purchases natural gas from Virginia Natural Gas under a 1940s Navy purchase agreement which is based on a general rate structure and not minimum/maximum quantities.

2) Has the activity been subject to water rationing or interruption of delivery during the last five years? If so, identify time period during which rationing existed and the restrictions imposed. Were activity operations affected by these situations? If so, explain extent of impact.

The City of Norfolk has never required this activity to implement water conservation restrictions, however, the Navy has self-imposed restrictions to curtail unnecessary water use during drought periods. There has been no interruption in service delivery except for routine system maintenance and repair.

3) Has the activity been subject to any other significant disruptions in utility service, e.g., electrical "brown outs", "rolling black outs", etc., during the last five years? If so, identify time period(s) covered and extent/nature of restrictions/disruption. Were activity operations affected by these situations? If so, explain extent of impact.

There are no known significant disruptions in utility service at this facility.

Source of Data (3.f. 1) - 3) Utilities): Hampton Roads Planning District Commission

4. **Business Profile.** List the top ten employers in the geographic area defined by your response to question 1.b. (page 3), taken in the aggregate, (include your activity, if appropriate):

**DATA CALL 65
ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA**

Employer	Product/Service	No. of Employees
1. Naval Station Norfolk	National Defense	60,000
2. Newport News Shipbuilding and Drydock Co.	Shipbuilding/Repair	21,000
3. Fort Eustis	National Defense	14,583
4. Langley Air Force Base	National Defense	11,600
5. Naval Amphibious Base Little Creek	National Defense	11,029
6. Naval Air Station Oceana	National Defense	10,200
7. Sentara Health Systems	Health Care	9,800
8. Virginia Beach Public Schools	Education	8,200
9. Norfolk Naval Shipyard	Ship Repair	7,706
10. Farm Fresh, Inc.	Grocery Chain	8,000

Source of Data (4. Business Profile): Hampton Roads Planning District Commission

5. **Other Socio-Economic Impacts.** For each of the following areas, describe other recent (past 5 years), on-going or projected economic impacts (both positive and negative) on the geographic region defined by your response to question 1.b. (page 3), in the aggregate:

a. **Loss of Major Employers:**

The region has lost few major employers within the past five years. However, the Jonathan Corporation has been forced into foreclosure by a fall off in its defense business. Defense cuts have significantly impacted the area and caused defense contractors to cut back on the number of their workers. The Newport News Shipbuilding and Drydock Company has reduced its workforce from over thirty thousand a few years ago to just over twenty thousand today with a target employment level of fifteen thousand by 1996. Some four thousand jobs have also been lost at the Norfolk Naval Shipyard. Small contractors and subcontractors have also reduced their employment levels.

DATA CALL 65
ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA

b. Introduction of New Businesses/Technologies:

CIGNA and USAA have recently located service centers within the area as have QVC and Lilian Vernon. CEBAF, an electronic beam accelerator, has been under construction for the past several years and will begin operations in 1994. Canon USA has also opened a facility for producing copiers.

c. Natural Disasters:

In the past 5 years there have not been any natural disasters in the Norfolk/Virginia Beach/Newport MSA which have negatively impacted the regional economy.

d. Overall Economic Trends:

Defense cuts continue to hamper the regional economy. Employment growth rates were in the 4-7 percent per year range in the mid 1980s and are today in the 0.5-1.5 percent range. Further defense downsizing will continue to hold down growth rates and elevate the unemployment rate. The region's population continues to expand along with the associated residential construction. The regional tax base has expanded accordingly with higher levels of retail sales, personal property and real estate taxes collected. Finally, the region is growing short of water, and this has forced growth to shift to the west into Chesapeake and Suffolk and out of Virginia Beach in recent years. This growth shift is anticipated to continue. Should the region be delayed in acquiring new water supply sources, regional growth rates will deteriorate from current levels.

Source of Data (5. Other Socio/Econ): Hampton Roads Planning District Commission

6. Other. Identify any contributions of your activity to the local community not discussed elsewhere in this response.

1. **The Norfolk Navy Housing Welcome Center** opened in April 1991, and is a landmark endeavor between Navy Family Housing and the City of Norfolk to provide a one-stop housing and community information service for military and Department of Defense personnel and their families. The focus of the Navy Housing Welcome Center is to address quality of life issues that impact military and Department of Defense personnel and their families when relocating to the Hampton Roads area. Naval complex Norfolk consists of all naval activities located in Norfolk, Virginia Beach, Chesapeake, and Portsmouth, Virginia, with the exception of Naval Security Group Activity Northwest. There are over 109,000 navy and marine corps personnel stationed here, with a support system of over 40,000 civilian employees. The facility

DATA CALL 65
ECONOMIC AND COMMUNITY INFRASTRUCTURE DATA

is centrally located in the JANAF shopping center - convenient to major highways. At the hub of the Hampton Roads area, it provides a convenient site for both customers and local community interaction. The Navy Housing Welcome Center also provides interface capabilities with Navy-Marine Corps Relief, Navy Family Service Center, Personnel Support Detachments, Commands, and Community Support Agencies. As a member of the Norfolk Housing task force - we are able to provide for interaction between the local community and Navy Family Housing. We assist 1,300 customers per month - families and bachelors. This figure does not include customers assisted at BEN-84.

2. On June 11, PWC employees and their families participated in Clean the Bay Day, an annual community-wide effort to clear debris from area beaches and parks. PWC employees have participated in this event for the past four years.
3. On April 22 (Earth Day), PWC employees participated in the Environmental Fair sponsored by Commander Naval Base. PWC's Environmental, Housing, and Transportation Departments provided a number of educational displays, ranging from safe disposal of household products to an "open house" aboard PWC's 56-foot command boat, Joint Venture, which assists the Coast Guard in oil recovery operations. The fair was open to the public and thousands of area school children attended.
4. PWC employees also volunteer for the Commander Naval Base Speaker's Bureau. In this program, PWC subject matter experts volunteer to speak to community organizations and schools to help keep the local community apprised of various responsibilities of the U.S. Navy.
5. In 1993, PWC participated in the Ameurop Cultural Relations Foundation German-American exchange program. This program awards fellowships to young technical students for study in Germany and the United States. The exchange program fosters understanding between American students and those from different countries. PWC hosted two German apprentices who were each assigned to a PWC Department that would help them learn more about their chosen trade.

**DATA CALL 66
INSTALLATION RESOURCES**

Activity Information:

Activity Name:	Navy Public Works Center, Norfolk, VA
UIC:	N00187
Host Activity Name (if response is for a tenant activity):	N/A
Host Activity UIC:	N/A

General Instructions/Background. A separate response to this data call must be completed for each Department of the Navy (DON) host, independent and tenant activity which separately budgets BOS costs (regardless of appropriation), and, is located in the United States, its territories or possessions.

1. Base Operating Support (BOS) Cost Data. Data is required which captures the total annual cost of operating and maintaining Department of the Navy (DON) shore installations. Information must reflect FY 1996 budget data supporting the FY 1996 NAVCOMPT Budget Submit. Two tables are provided. Table 1A identifies "Other than DBOF Overhead" BOS costs and Table 1B identifies "DBOF Overhead" BOS costs. These tables must be completed, as appropriate, for all DON host, independent or tenant activities which separately budget BOS costs (regardless of appropriation), and, are located in the United States, its territories or possessions. Responses for DBOF activities may need to include both Table 1A and 1B to ensure that all BOS costs, including those incurred by the activity in support of tenants, are identified. If both table 1A and 1B are submitted for a single DON activity, please ensure that no data is double counted (that is, included on both Table 1A and 1B). The following tables are designed to collect all BOS costs currently budgeted, regardless of appropriation, e.g., Operations and Maintenance, Research and Development, Military Personnel, etc. Data must reflect FY 1996 and should be reported in thousands of dollars.

a. Table 1A - Base Operating Support Costs (Other Than DBOF Overhead).

This Table should be completed to identify "Other Than DBOF Overhead" Costs. Display, in the format shown on the table, the O&M, R&D and MPN resources currently budgeted for BOS services. O&M cost data must be consistent with data provided on the BS-1 exhibit. Report only direct funding for the activity. Host activities should not include reimbursable support provided to tenants, since tenants will be separately reporting these costs. Military personnel costs should be included on the appropriate lines of the table. Please ensure that individual lines of the table do not include duplicate costs. Add additional lines to the table (following line 2j., as necessary, to identify any additional cost elements not currently shown). Leave shaded areas of table blank.

**DATA CALL 66
INSTALLATION RESOURCES**

Table 1A - Base Operating Support Costs (Other Than DBOF Overhead)			
Activity Name: Navy Public Works Center, Norfolk, VA		UIC: N00187	
Category	FY 1996 BOS Costs (\$000)		
	Non-Labor	Labor	Total
1. Real Property Maintenance Costs:			
1a. Maintenance and Repair	N/A	N/A	N/A
1b. Minor Construction	N/A	N/A	N/A
1c. Sub-total 1a. and 1b.	N/A	N/A	N/A
2. Other Base Operating Support Costs:			
2a. Utilities	N/A	N/A	N/A
2b. Transportation	N/A	N/A	N/A
2c. Environmental	N/A	N/A	N/A
2d. Facility Leases	N/A	N/A	N/A
2e. Morale, Welfare & Recreation	N/A	N/A	N/A
2f. Bachelor Quarters	N/A	N/A	N/A
2g. Child Care Centers	N/A	N/A	N/A
2h. Family Service Centers	N/A	N/A	N/A
2i. Administration	N/A	N/A	N/A
2j. Other (Specify)	N/A	N/A	N/A
2k. Sub-total 2a. through 2j:	N/A	N/A	N/A
3. Grand Total (sum of 1c. and 2k.):	N/A	N/A	N/A

**DATA CALL 66
INSTALLATION RESOURCES**

b. Funding Source. If data shown on Table 1A reflects more than one appropriation, then please provide a break out of the total shown for the "3. Grand-Total" line, by appropriation:

<u>Appropriation</u>	<u>Amount (\$000)</u>
N/A	N/A

c. Table 1B - Base Operating Support Costs (DBOF Overhead). This Table should be submitted for all current DBOF activities. Costs reported should reflect BOS costs supporting the DBOF activity itself (usually included in the G&A cost of the activity). For DBOF activities which are tenants on another installation, total cost of BOS incurred by the tenant activity for itself should be shown on this table. It is recognized that differences exist among DBOF activity groups regarding the costing of base operating support: some groups reflect all such costs only in general and administrative (G&A), while others spread them between G&A and production overhead. Regardless of the costing process, all such costs should be included on Table 1B. The Minor Construction portion of the FY 1996 capital budget should be included on the appropriate line. Military personnel costs (at civilian equivalency rates) should also be included on the appropriate lines of the table. Please ensure that individual lines of the table do not include duplicate costs. Also ensure that there is no duplication between data provided on Table 1A. and 1B. These two tables must be mutually exclusive, since in those cases where both tables are submitted for an activity, the two tables will be added together to estimate total BOS costs at the activity. Add additional lines to the table (following line 21., as necessary, to identify any additional cost elements not currently shown). Leave shaded areas of table blank.

Other Notes: All costs of operating the five Major Range Test Facility Bases at DBOF activities (even if direct RDT&E funded) should be included on Table 1B. Weapon Stations should include underutilized plant capacity costs as a DBOF overhead "BOS expense" on Table 1B..

**DATA CALL 66
INSTALLATION RESOURCES**

2. Services/Supplies Cost Data. The purpose of Table 2 is to provide information about projected FY 1996 costs for the purchase of services and supplies by the activity. (Note: Unlike Question 1 and Tables 1A and 1B, above, this question is not limited to overhead costs.) The source for this information, where possible, should be either the NAVCOMPT OP-32 Budget Exhibit for O&M activities or the NAVCOMPT UC/FUND-1/IF-4 exhibit for DBOF activities. Information must reflect FY 1996 budget data supporting the FY 1996 NAVCOMPT Budget Submit. Break out cost data by the major sub-headings identified on the OP-32 or UC/FUND-1/IF-4 exhibit, disregarding the sub-headings on the exhibit which apply to civilian and military salary costs and depreciation. Please note that while the OP-32 exhibit aggregates information by budget activity, this data call requests OP-32 data for the activity responding to the data call. Refer to NAVCOMPTINST 7102.2B of 23 April 1990, Subj: Guidance for the Preparation, Submission and Review of the Department of the Navy (DON) Budget Estimates (DON Budget Guidance Manual) with Changes 1 and 2 for more information on categories of costs identified. Any rows that do not apply to your activity may be left blank. However, totals reported should reflect all costs, exclusive of salary and depreciation.

Table 2 - Services/Supplies Cost Data	
Activity Name: Navy Public Works Center, Norfolk, VA	UIC: N00187
Cost Category	FY 1996 Projected Costs (\$000)
Travel:	1,908
Material and Supplies (including equipment):	53,726
Industrial Fund Purchases (other DBOF purchases):	8,762
Transportation:	21
Other Purchases (Contract support, etc.):	225,583
Total:	290,000

**DATA CALL 66
INSTALLATION RESOURCES**

3. Contractor Workyears.

a. On-Base Contract Workyear Table. Provide a projected estimate of the number of contract workyears expected to be **performed "on base"** in support of the installation during FY 1996. Information should represent an annual estimate on a full-time equivalency basis. Several categories of contract support have been identified in the table below. While some of the categories are self-explanatory, please note that the category "mission support" entails management support, labor service and other mission support contracting efforts, e.g., aircraft maintenance, RDT&E support, technical services in support of aircraft and ships, etc.

Table 3 - Contract Workyears	
Activity Name: Navy Public Works Center, Norfolk, VA	UIC: N00187
Contract Type	FY 1996 Estimated Number of Workyears On-Base
Construction:	142
Facilities Support:	580
Mission Support:	189
Procurement:	N/A
Other:*	N/A
Total Workyears:	911

* **Note:** Provide a brief narrative description of the type(s) of contracts, if any, included under the "Other" category.

**DATA CALL 66
INSTALLATION RESOURCES**

b. Potential Disposition of On-Base Contract Workyears. If the mission/functions of your activity were relocated to another site, what would be the anticipated disposition of the on-base contract workyears identified in Table 3.?

1) Estimated number of contract workyears which would be transferred to the receiving site (This number should reflect the number of jobs which would in the future be contracted for at the receiving site, not an estimate of the number of people who would move or an indication that work would necessarily be done by the same contractor(s)):

* 911

2) Estimated number of workyears which would be eliminated:

0

3) Estimated number of contract workyears which would remain in place (i.e., contract would remain in place in current location even if activity were relocated outside of the local area):

0

* Understated because of economy of scale.

**DATA CALL 66
INSTALLATION RESOURCES**

c. "Off-Base" Contract Workyear Data. Are there any contract workyears located in the local community, but not on-base, which would either be eliminated or relocated if your activity were to be closed or relocated? If so, then provide the following information (ensure that numbers reported below do not double count numbers included in 3.a. and 3.b., above):

No. of Additional Contract Workyears Which Would Be Eliminated	General Type of Work Performed on Contract (e.g., engineering support, technical services, etc.)
N/A	N/A

No. of Additional Contract Workyears Which Would Be Relocated	General Type of Work Performed on Contract (e.g., engineering support, technical services, etc.)
N/A	N/A
