To whom this may concern:

I currently live on Cannon AFB and do agree with its' closure. Cannon AFB is a very small base that should be closed. The money that is spent on Cannon AFB should be re-directed to another base that is larger and ran more efficiently. The fighter wing here is small enough to be placed at another base or dissolved altogether. I believe it would be in the best interest to close Cannon AFB.

As a US citizen and constituent, please take my recommendations and views into consideration.

Concerned citizen,

Betsy Matthies
