BRAC Commission

JUL 20 2005

Received

July 19, 2005

2005 Defense BRAC Commission
2521 S. Clark St., Suite 600
Arlington, VA 22202-3920

Dear Commission Members,

Enclosed are postcards that were created in response to the Commission's BRAC Report released May 13, 2005. In addition to our request that the Commission not move defense agencies away from Metro stations and the National Capital Region, local residents, who attended the hearings, also wanted an outlet for their voices to be heard. Following the hearing, postcards were made available to attendees and concerned citizens were able to add their comments or just sign in agreement. Copies of the postcards are also being sent to Senator Warner, Senator Allen, Congressman Davis and Congressman Moran.

We appreciate your time and willingness to accept comments from the hearings and from the citizens who will be affected by the report and trust you will make appropriate revisions.

Sincerely,

A handwritten signature in black ink, appearing to read 'Laura Olsen', with a long horizontal flourish extending to the right.

Laura Olsen
Assistant Director

Dear BRAC Commissioners:

I am opposed to the Defense Department's proposal to move tens of thousands of workers from the District and Arlington, VA to Fort Meade and Fort Belvoir, areas lacking the transportation infrastructure to accommodate those workers.

In addition: How would this be cost effective? BRAC Commission
JUL 20 2005

Please find a way to improve security for our offices without subjecting our communities and families to worse traffic, a major disruption of our lives and careers, and high taxes to build new infrastructure when Arlington & DC are already well served by transit, carpools, and walking.

Name: Deanne Jery
Email: djery@copper.net
Phone: 703-1351-8033
Address: 4623 N. 23rd St
ARLINGTON, VA. 22207

cc: Sen. Warner, Sen. Allen, Rep. Davis, Rep. Moran

Dear BRAC Commissioners:

I am opposed to the Defense Department's proposal to move tens of thousands of workers from the District and Arlington, VA to Fort Meade and Fort Belvoir, areas lacking the transportation infrastructure to accommodate those workers.

In addition: The Economy of the Area is an important National Resource. It too must be protected. The Synergy Between Agencies located in N.A. is important to this goal. BRAC Commission

Dear BRAC Commissioners:

I am opposed to the Defense Department's proposal to move tens of thousands of workers from the District and Arlington, VA to Fort Meade and Fort Belvoir, areas lacking the transportation infrastructure to accommodate those workers.

In addition:

I feel the mandated
move is unwarranted and
unfair.

Please find a way to improve security for our offices without subjecting our communities and families to worse traffic, a major disruption of our lives and careers, and high taxes to build new infrastructure when Arlington & DC are already well served by transit, carools, and walking.

Dear BRAC Commissioners:

I am opposed to the Defense Department's proposal to move tens of thousands of workers from the District and Arlington, VA to Fort Meade and Fort Belvoir, areas lacking the transportation infrastructure to accommodate those workers.

In addition:

The traffic to get to Ft. Belvoir on I-95 is terrible now adding thousands more would make it impossible to get anywhere. Also security issue

Please find a way to improve security for our offices without subjecting our communities and families to worse traffic, a major disruption of our lives and careers, and high taxes to build new infrastructure when Arlington & DC are already well served by transit, carpools, and walking.

putting that many more people in one place would be asking for trouble by time.
