(Environmental IF Activities)

Capacity Data Call-1 (Environmental IF Activities)
(2) Department of Navy Activities with Data Yet to be
Certified - Capacity Data Call-1 (Environmental IF
Activities)
(3) Summary of Data Concerns - Capacity Data Call-1
(Environmental IF Activities)

In compliance with both the Office of the Secretary of Defense (OSD) Internal Control Plan (ICP) for the Base Realignment and Closure Process, Appendix B to Under Secretary of Defense (Acquisition, Technology and Logistics) Memorandum "Transformation Through Base Realignment and Closure (BRAC 2005) Policy Memorandum One - Policy, Responsibilities, and Procedures," dated 16 April 2003, and the Department of the Navy Procedures for Certification of BRAC 2005 Information, enclosure (1) to Secretary of the Navy Memorandum "Internal Control Plan for Management of the Department of the Navy 2005 Base Closure and Realignment (BRAC) Process Policy Advisory Two," dated 27 June 2003, this memorandum is a certification of Department of the Navy (DON) data provided to the Joint Cross Service Groups (JCSGs) for their use in analyzing common business support functions. The data consists of certified responses to Capacity Data Call-1 (Environmental IF Activities). This data call issued only Section 2 (Environment and Encroachment) of Capacity Data Call- 1. This issuance allowed environmental data to be reported by installation fence line in lieu of being rolled up under a Navy Region as was previously reported. This data is being provided to the JCSGs via the DON Base Information Transfer System (DONBITS) and Military Value Analysis Database (MAD).

Enclosure (1) provides the list of 13 DON activities (54% of the total DON universe of targeted activities) for which we are providing certified data in response to the Capacity Data Call-1 (Environmental IF Activities). Cumulative total of responding activities for this data call is now 19 activities (79% of the DON universe of activities receiving this data call). Enclosure (2) provides the list of DON activities for which we are not providing certified environmental capacity data at this time. Certified capacity data from the remaining 5 activities are not included in

(Environmental IF Activities)

this transmittal because the data is not completely through the certification chain. We expect these activities' data call responses to be transmitted to OSD on 20 September 04.

During the course of our initial quality review of data, we discovered a few areas where we believe the data is incorrect, incomplete, or in need of further clarification. A summary of the data concerns identified to date is provided in enclosure (3). We are taking action to resolve these concerns. Additionally, we anticipate that other areas of concern will be identified as we conduct more detailed analysis in the coming weeks. The JCSG may also find during the course of their own analysis of the data additional areas requiring clarification or correction. Updated certified data will be collected by the IAT and provided to the JCSG as part of the weekly refresh to the CAD as it becomes available.

Subject to the foregoing, I certify that the information is accurate and complete to the best of my knowledge and belief.

Data Call 2: H&SA MILVAL, 17 June 2004

In compliance with both the Office of the Secretary of Defense (OSD) Internal Control Plan (ICP) for the Base Realignment and Closure Process, Appendix B to Under Secretary of Defense (Acquisition, Technology and Logistics) Memorandum "Transformation Through Base Realignment and Closure (BRAC 2005) Policy Memorandum One - Policy, Responsibilities, and Procedures," dated 16 April 2003, and the Department of the Navy Procedures for Certification of BRAC 2005 Information, enclosure (1) to Secretary of the Navy Memorandum "Internal Control Plan for Management of the Department of the Navy 2005 Base Closure and Realignment (BRAC) Process Policy Advisory Two," dated 27 June 2003, this memorandum is a certification of Department of the Navy (DON) data provided to the Joint Cross Service Groups (JCSGs) for their use in analyzing common business support functions. The data consists of certified responses to Data Call 2: H&SA MILVAL issued 17 June 2004 and is being provided to the JCSGs via the DON Base Information Transfer System (DONBITS) and Military Value Analysis Database (MAD).

Enclosure (1) provides the list of 2 DON activities (1% of the total DON universe of targeted activities) for which we are providing certified data in response to the H&SA MILVAL Data Call. Cumulative total for this data call is now 207 activities (100% of the total DON universe of targeted activities).

During the course of our initial quality review of the data, we discovered no areas where we believe the data is incorrect, incomplete, or in need of further clarification. However, we anticipate that other areas of concern will be identified as we conduct more detailed analysis in the coming weeks. The JCSG may also find during the course of its own analysis of the data, additional areas requiring clarification or supplementation, and request additional data be collected. Updated certified data will be collected by the IAT and provided to the JCSGs as part of the weekly refresh to the MAD as it becomes available.
