BRAC Commission

SEP 08 2005

Received

Dear Chairman Principi:

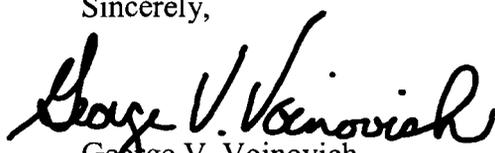

I want to thank you for your service on the BRAC Commission, and for your cautious and fair deliberation of the many important issues affecting our military, our communities, and your fellow citizens. These are not easy decisions to make, and your willingness to carry out this responsibility should be commended.

I was thrilled that the Commission made the recommendation to keep DFAS Cleveland open, saving over 1,000 jobs in a city that faces so many hardships and such drastic unemployment rates. I was also thrilled that the Commission decided to keep the Development and Fielding Systems Group (DFGS) at Wright Patterson Air Force Base, which saved over 2,000 jobs. I believe that both of these decisions were the right decisions for our military and for Ohio.

I am deeply thankful for your conscientious and critical review of all of the data that was provided to you. At all points in this process, it was clear that you and your fellow Commissioners were open to our concerns, willing to except new information, prepared to question the Defense Department's recommendations, and that you were devoted to making the best decisions for our country.

I wish you the best as you leave the Commission and move on to your next set of challenges.

Sincerely,

George V. Voinovich
