-86	-199	0	\$0.0	-\$18.2

- The Cold Regions Test Center remains in Alaska while improving efficiency of operations and enhancing personnel safety by moving to Ft Greely.
- Civilian Personnel Operations Centers are consolidated at Ft Huachuca to reduce excess capacity, and achieve manpower savings through elimination of duplicate functions with a personnel reduction of less than 300 people.

## Fort Richardson

**BRAC 2005 has a minimal impact at Ft. Richardson. The Army intends to realign Fort Richardson's garrison functions under Elemendorf Air Force Base and transfer CPOC functions to a consolidated center at Ft. Huachuca, AZ.**

### Incoming Activities

None.

### Departing Activities

What: Civilian Personnel Operations Center to Ft. Huachuca, AZ.

Why: This recommendation supports a broader initiative to consolidate Civilian Personnel Offices within each Service and the transactional functions among the Defense Agencies. This will reduce use of leased facilities and achieve efficiencies through consolidation and elimination of duplicate functions.

### Other

What: Consolidate installation management of Ft. Richardson and Elmendorf AFB under Elmendorf.

Why: This recommendation seeks to provide better services at better prices by consolidating the installation management of the installations in the region and consolidating management of commonly provided functions.

### Quantitative Results

Net Personnel Impacts <sup>1</sup>			MILCON Cost Estimate
Military	Civilian	Student	
-84	-194	0	\$ 0

**Implementation Timeline:** According to BRAC law, these actions must be initiated within two years and completed within six years from the date the President transmits the report to Congress.

### **Internal Communications:** (Fort Richardson Work Force)

- The BRAC 05 analysis recognized the importance of Ft. Richardson and its current missions.
- The BRAC recommendations have negligible impact on the Ft. Richardson workforce.

---

<sup>1</sup> Based on FY03 ASIP data. Does not reflect any personnel changes resulting from standard programming and Command Plan actions since FY03.

- Over two-thirds of the positions leaving Ft. Richardson, transfer to the Air Force at Elmendorf AFB.

**External Communications: (Civilian community)**

- The BRAC 05 analysis recognized the importance of Ft. Richardson and its current missions.
- BRAC recommendations at Ft. Richardson shift management responsibilities for several military functions.
- There is little impact to workforce or the communities surrounding Ft. Richardson.

**Approving BRAC Recommendations - Statutory Steps:**

16 May 05	SECDEF forwards Recommendations to BRAC Commission
08 Sept 05	BRAC Commission recommendations due to President
23 Sept 05	President approves/disapproves Commission recommendations
20 Oct 05	Commission resubmits recommendations (if initially rejected by President)
07 Nov 05	President submits final recommendations to Congress. Once submitted, the plan becomes final within 45 legislative days, unless Congress passes a joint resolution to block the entire package.

**BRAC Recommendations impacting Ft. Richardson**

- Establish Joint Bases
- Consolidate Civilian Personnel Offices

## Fort Wainwright

**The Army realigns Fort Wainwright by relocating the Cold Regions Test Center (CRTC) headquarters from Fort Wainwright to Fort Greely.**

### Incoming Activities

What: The Cold Regions Test Center (CRTC) headquarters to Fort Greely.

Why: This action improves efficiency of operations and enhances personnel safety. It relocates headquarters closer to the CRTC's test mission execution on the Bolio Lake Range Complex. This complex, although realigned under Ft. Wainwright in BRAC 95, is only 10 miles south of Fort Greely but 100 miles from Ft. Wainwright's cantonment area. This action would enhance interoperability and reduce costs by permitting personnel to live closer to their primary work site, thus, avoiding a 200-mile round trip between quarters and work sites. Decreases the risks associated with the required year-round travel in extreme weather conditions. Results in more efficient and cost effective monitoring & control of arctic testing of transformational systems. This candidate recommendation did not consider other locations since the CRTC headquarters only manages testing at one site.

### Departing Activities

None

### Quantitative Results

Net Personnel Impacts <sup>1</sup>			MILCON Cost Estimate
Military	Civilian	Student	
-4	-1	0	\$ 0

**Implementation Timeline:** According to BRAC law, these actions must be initiated within two years and completed within six years from the date the President transmits the report to Congress.

#### **Internal Communications:**

- Improves operational efficiency and reduce costs by eliminating the need for a 200-mile round trip between quarters and work sites for 125 trips annually.

#### **External Communications:**

- This recommendation will not result in any job reductions (direct or indirect) over the 2006-2011 period in the Fairbanks metropolitan area since it encompasses both Fort Wainwright and Fort Greely.

<sup>1</sup> Based on FY03 ASIP data. Does not reflect any personnel changes resulting from standard programming and Command Plan actions since FY03.

**Approving BRAC Recommendations - Statutory Steps:**

- 16 May 05 SECDEF forwards Recommendations to BRAC Commission
