ASSISTANT SECRETARY
INSTALLATIONS AND ENVIRONMENT
110 ARMY PENTAGON
WASHINGTON, DC 20310-0200

23 January 2004

MEMORANDUM FOR UNDER SECRETARY OF DEFENSE
(ACQUISITION, TECHNOLOGY & LOGISTICS)

SUBJECT: Base Realignment and Closure (BRAC) Report to Congress

1. In response to your 16 December 2003 memorandum requesting information on infrastructure inventory (Tab A), I am providing the following information as the Army's response:
 - a. A comparison between the 1989 baseline to Fiscal Year 2009 data in a table similar to that used in the 1998 report (Tab B).
 - b. An inventory of leased property outside the National Capital Region (on CD). (Tab C).

2. If you have additional questions on this subject, please contact Dr. Chien Huo at 703-696-9773, email address chien.huo@us.army.mil.

Enclosure

A handwritten signature in black ink that reads "Geoffrey G. Prosch".

Geoffrey G. Prosch
Acting Assistant Secretary of the Army
Installations & Environment

A: OSD Originating Memo
B: Table containing 1989 and 2009 data
C: CD contains Army leased properties

Cc: Director, BRAC, OUSD(ATL)

Deliberative Document – For Discussion Purposes Only – Do Not Release Under FOIA

ACQUISITION,
TECHNOLOGY
AND LOGISTICS

THE UNDER SECRETARY OF DEFENSE

3010 DEFENSE PENTAGON
WASHINGTON, DC 20301-3010

DEC 16 2003

**MEMORANDUM FOR ASSISTANT SECRETARY OF THE ARMY
(INSTALLATIONS & ENVIRONMENT)
ASSISTANT SECRETARY OF THE NAVY
(INSTALLATIONS & ENVIRONMENT)
ASSISTANT SECRETARY OF THE AIR FORCE
(INSTALLATIONS, ENVIRONMENT AND LOGISTICS)
DIRECTOR OF THE DEFENSE LOGISTICS AGENCY**

**SUBJECT: Congressional Reporting Requirements on Base Realignment and Closure
(BRAC)**

The Defense Base Closure and Realignment Act of 1990, as amended, requires DoD to provide a report to Congress with its Fiscal Year 2005 budget documentation. The report must include a force-structure plan, a worldwide inventory of installations, a description of the inventory necessary to support the force structure, a discussion of categories of excess infrastructure, and an economic analysis of the effect of closure and realignments. In determining the level of necessary versus excess infrastructure, the report must consider the continuing need for and availability of overseas installations and the efficiencies that can be gained from joint tenancy. Based on the foregoing, the report must also contain the Secretary's certification on the need for BRAC and that net savings will result no later than Fiscal Year 2011. Failure to submit the report and/or certifications terminates the BRAC process (see the attached statutory language).

The report will be completed using a combination of building on prior analyses, existing sources of data, and input received from the Joint Staff, the Under Secretary of Defense for Policy and your organizations. The infrastructure inventory will be developed using the most recent Facilities Asset Database (FAD). Because the FAD does not include leased property, please provide an inventory of your leased property outside the National Capital Region within thirty days. The inventory should list the location, size (in gross square feet) and purpose of the leased property, as well as the number and type of facilities in the active and reserve. The Washington Headquarters Services will be tasked with providing this same information for leased facilities in the National Capital Region. Draft tables and displays created from the FAD and your leased property inventory will be provided to your organizations for review prior to being incorporated into the final draft report.

Deliberative Document – For Discussion Purposes Only – Do Not Release Under FOIA

Deliberative Document – For Discussion Purposes Only – Do Not Release Under FOIA

For the requirement to discuss categories of excess infrastructure and infrastructure capacity, I have decided to accept the recommendation of the Director, OSD BRAC and your BRAC Deputy Assistant Secretaries to use the parametric methodology used in *The Report of the Department of Defense on Base Realignment and Closure* provided to Congress in April 1998 (attached). This report compared force levels or other indicators within the 1989 pre-BRAC U.S. infrastructure to POM projections for Fiscal Year 2003 and withstood GAO audit. For this report, we will compare the 1989 baseline to Fiscal Year 2009 data from the Fiscal Year 2005-2009 POM, for a sample of the installation inventory similar to that used in the 1998 report. Please provide this data to Peter Potochney, Director, BRAC within 30 days. He will separately provide your BRAC Deputy Assistant Secretaries with the appropriate data tables to assist you.

Your support and cooperation in providing necessary information in a timely manner will facilitate completion of the report. Please have your BRAC organizations work with Mr. Potochney, he can be reached at peter.potochney@osd.mil or 703-614-5356.

Michael W. Wynne
Acting USD (Acquisition, Technology & Logistics)
Chairman, Infrastructure Steering Group

Army TABS

Version 2.0

DRAFT**RE: BRAC Report to Congress**

Attached is the table for excess infrastructure capacity analysis in the form of the 1998 Report to Congress. In developing the analysis, the following facts were used. Please consider adding them to the Report.

- Data sources: 2003 Real Property Inventory (RPI), Army Stationing & Installation Plan (ASIP), leases, and POM 0509.
- Military/Civilian Authorized - Authorization data source is ASIP 0509. Does not reflect on-site contractor and other non-Army employees¹ at installations. Authorizations for the Reserve components are excluded.
- Major Training Active - Includes same installations in 03/09 forecasted. Installations have changed over time. For example, Ft. Greely was selected for realignment under BRAC 95. Ft. Greely was reduced in Sep 2001 by 623,583 acres for creation of Donnelly Training Area, which was assigned to Ft. Wainwright ("Maneuver" category), not in "Major Training - Active." Also included Yakima (0.3 M Acres), which was not in the 98 Report. If included, the forecasted 03 acreage in the 98 Report should be 1,835,128 Acres.
- Major Training Reserve - Ft Hunter Liggett was on realignment list in BRAC 95 and was not reflected in 1998 Report. Today it becomes one of major reserve training center.
- U.S. maneuver Brigades - 33 brigades plus SOF, Ranger Regiment, NTC and JRTC. A total of 39 equivalent brigades.
- Maneuver - Donnelly Training Area (0.6M Acres) was acquired in Sep 2001 as part of Ft Wainwright. The four national forests – Uwharrie, Nantahala, Pisgah, and Croatan – that that are part of Ft Bragg (1.233 M Acres) are deducted from the RPI. There are no buildings in the RPI. USDA granted Army permit to use the land as a buffer zone to Ft. Bragg. They were added to the Army RPI in Sep 2000.
- Acquisition Resources (FY 98 \$ Billions) - Increase in procurement money for FCS acquisition. The 1998 Report was mistakenly identified as FY99 dollar.

If you need additional information, please contact Dr. Chien Huo at 703-696-9773, email address chien.huo@us.army.mil.

¹ Others: NAF employees, AAFES employees and concessionaires, Red Cross staff, bank/credit union employees, travel office, DOD schools, foreign liaison, DOD Agencies, and other Services.
