JUL 7 2005 BRAC Commission

JUL 15 2005
Received

Mr. Michael Kessler
Navy Team Associate Analyst
Office of Review and Analysis
Defense Base Realignment and Closure Commission
2521 South Clark Street, Suite 600
Arlington, VA 22022

Dear Mr. Kessler:

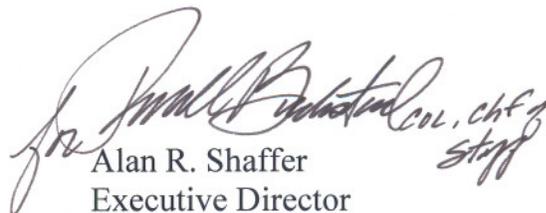

This letter responds to your request for information concerning the 2005 Base Realignment and Closure (BRAC) recommendations. The specific request follows.

COBRA Run [documentation]: Cost of Base Realignment and Closure Actions (COBRA) Run for Tech Scenario #44, which moves most or all of Picatinny Arsenal to a Navy facility – I believe NSWC Dahlgren.

On June 30, 2005 a member of the Technical Joint Cross Service Group provided you the COBRA report for scenario Relocate DoD Guns and Ammunition RD&A and Selected T&E at One Location (Dahlgren) also known as TECH-0044. Please note that this scenario did not go forward as a formal recommendation.

Thank you for the opportunity to address your ^{request for information.} question.

Sincerely,

Alan R. Shaffer
Executive Director

Technical Joint Cross Service Group
