MEMORANDUM FOR DASA(IA)

SUBJECT: Allocation of Costs and Military Construction (MILCON) for Recommendations Impacting Army Installations

1. We have completed the allocation of costs and MILCON for recommendations impacting Army Installations. Attached are the allocations. These need to be included in the recommendation COBRAs in lieu of the current costs and MILCON.

2. The JCSGs have done a great job in updating their COBRAs and providing us with the information we needed to complete allocation. However, there are several recommendations that need to address issues that remain in their COBRA files. They are as follows:

a. HSA-0031 – Footnotes do not explain the personnel reduction method (indicates there will be an explanation but does not provide it in the footnote).

b. HSA-0047 – COBRA needs to take out references to Fort Monmouth per the Chairman, Infrastructure Steering Group (ISG) memo dated 11 April 2005.

c. HSA-0108 – Recommendation removes all of the CID from Fort Belvoir; it should leave the CID field office that supports the installation.

d. S&S-0035R – COBRA has shutdown square footage for Soldiers Systems Center (Natick) and Fort Monmouth; COBRA needs to take out references to Fort Monmouth and Natick per the Chairman, Infrastructure Steering Group (ISG) memo dated 11 April 2005. There are no screen one footnotes and the remainder of footnotes are unclear.

e. TECH-0018b - COBRA needs to take out references to Adelphi as Army is executing the closure action.

f. USA-0224 – Moves units from Fort Hood but does not identify any shutdown square footage.

3. Environmental costs provided will not match the SSEI provided to the JCSG. The SSEI is based on a stand alone recommendation and provides a range of costs. The allocation provided assigns each recommendation a portion of the range of costs provided.
