Laurel, I have no issue with the substance of the minutes. By the way, in several of these you list me as the DASN not the DASA! My title should be DASA(IA) not I&A. Thanks.

Pete, it's interesting as we run through these to see where we have not kept up on the scenario promises. we are working scenario-specific data with the JCSGs (several will get nailed this week) but almost none of the JCSGs met their mid-november dates as briefed to the ISG.
