DEPARTMENT OF THE AIR FORCE

WASHINGTON, DC 20330-1000

OFFICE OF THE ASSISTANT SECRETARY

DEC 2 2004

MEMORANDUM FOR RECORD

SUBJECT: Minutes of Air Force Base Closure Executive Group (AF/BCEG) Mtg, 01 Nov 2004

Mr Pease called the meeting to order at 1300, the Pentagon, Room 5C279. The meeting was categorized as deliberative. Attendance is at Atch 1. Mr Pease reviewed the BRAC schedules (Slide 4) and previewed the agenda. _____ s updated the data call status and requests for clarification (Slides 5-7). _____ briefed a JCSG update for information.

_____ briefed the Cueing Tool and Military Value Process for deliberation using an actual spreadsheet for the Cueing Tool. Maj Gen Heckman reviewed the overall process to focus the BCEG's discussion. The purpose of the Cueing Tool is to use the BCEG's modeled military value factors and lay down the Total Force against unconstrained base selection as a starting point for scenario development. It is a start point because there are some military values that cannot be modeled. Brig Gen Holland was tasked to prepare a "strawman" Rules of Engagement (ROE) for Subject Matter Experts (SMEs) to build Scenario Proposals from the initial raw output.

The co-chairs reviewed the Agenda for the next meeting. Following the co-chairs' concluding remarks the meeting concluded at 1247. The next BCEG meeting is scheduled for November 2, 2004 at 0830 in Pentagon Room 5C279.

The minutes above are approved.

Cueing Tool What it is / does

- Does incorporate many principles and imperatives
- Is loaded with *all* MCI scores
- Is loaded with *current* weapon system theoretical capacity
- Is loaded with *predominant* weapon system cost data (up to 2 additional squadrons)
- Does incorporate force structure through 2011
- Does default to current weapon system “families”

Is a starting point for analysis

Integrity - Service - Excellence

13

DRAFT DELIBERATIVE DOCUMENT – FOR DISCUSSION PURPOSES ONLY
NOT RELEASABLE UNDER FOIA

Cueing Tool What it isn't / doesn't

- Does not incorporate *all* principles and imperatives
- Does not reallocate capacity among current weapon systems (e.g. Dyess AFB)
- Does not account for cross MDS beddown plans / actions (e.g. Mountain Home)
- Does not account for emerging weapon systems out to 2025
- Does not incorporate “Other Considerations” – Criteria 6-8
- Does not address compatibility issues among ops and training (e.g. F-16 Blocks)

**Augments, but is not a substitute
for military judgment**
