Inquiry Response

Re: BI-0139 (CT-0558) - Environmental cost for Mansfield-Lahm

Requester: BRAC Commission Staff (Mr. Frank Cirillo)

Question:

The Department provided Environmental Restoration cost data for each facility recommended for closure. During a review of the data provided we could not confirm the \$24.4 million Cost to Complete Environmental Restoration for the Mansfield-Lahm Municipal Airport Air Guard Station, Ohio. The FY2003 Annual Report to Congress shows a Cost to Complete of \$0.29 million for this facility. Is this the correct cost data?

I would appreciate your response by July 15, 2005. Please provide a control number for this request and do not hesitate to contact me if I can provide further information concerning this request.

Answer:

In regard to OSD Clearinghouse Tasker C0558FW on Mansfield-Lahm Municipal Airport Air Guard Station, OH, we confirmed the Cost to Complete for environmental restoration as approximately \$400K as of May 05. The cleanup is occurring separately and before BRAC, therefore, we used \$0 for Cost to Complete.

Approved

DAVID L. JOHANSEN, Lt Col, USAF
Chief, Base Realignment and Closure Division
