

## Inquiry Response

**Re:** BI-0141 (CT-0563) Environmental Restoration at Kellogg AGS, Michigan

**Requester:** Defense Base Closure & Realignment Commission (Mr Frank Cirillo)

**Question:** The Department provided Environmental Restoration cost data for each facility recommended for closure. During a review of the data provided we could not confirm the \$36.2 million Cost to Complete Environmental Restoration for the W.K. Kellogg Airport Air Guard Station, Michigan. The FY2003 Annual Report to Congress shows a Cost to Complete of \$0 for this facility. Is this the correct cost data?

**Response:** The Air Force Installations and Logistics staff confirms the cost to complete for environmental restoration is \$0. The cleanup was closed as of May 05.

Approved.

DAVID L. JOHANSEN, Lt Col, USAF  
Chief, Base Realignment and Closure Division
