Inquiry Response

Re: BI-200, CT-0833, Table of Retirements for ANG Aircraft (Freeland)

Requester: Mr. Ken Small (BRAC Commission Staff)

Question:

The attached spreadsheet attempts to summarize the aircraft retirements as called for in the DoD recommendations.

Please:

- 1) Verify if the numbers shown are correct, changing any as appropriate.
- 2) Indicate the planned year of retirement for each unit's aircraft.

Answer:

The requested spreadsheet is attached. Changes are indicated by bold, blue text.

The retirement years are estimates. The Air Force program has not yet been adjusted to the future force structure aircraft numbers. The years shown in the attachment are for planning purposes and for the purpose of developing BRAC cost estimates. The actual retirement years are being refined now as the Program Action Directive is written.

Approved

Chief, Base Realignment and Closure Division
