

Dear BRAC Commissioners:

The Honorable Anthony J. Principi - Chairman

I am very concerned about the Department of Defense's recommendation that Cannon Air Force Base should be closed.

I want to help make the Commission fully aware of the unique attributes that Cannon offers to our national defense.

Cannon does not fit the criteria provided for base closure.

The base has an abundance of air space and no encroachment issues.

This provides for safer and more realistic training scenarios for pilots.

Once the New Mexico Training Range Initiative is implemented, we will be able to offer pilots the ability to fly supersonic during training missions. This is a very important point, as it allows the Air Force to better train for real-life situations.

The weather in Eastern New Mexico provides year round training ability.

The Melrose bombing range is seconds from the end of the runway at Cannon. This allows pilots to get airborne, and immediately begin training operations over the bombing range, rather than spending all of their fuel just to get to the range, having one pass over, then returning to the base.

Cannon has the space and facilities to accommodate joint war-fighting, training, and readiness as was evidenced by the recent joint training effort between Cannon and the US Navy.

Cannon has ample space/ramp space to accommodate surge force requirements in training and emergency situations.

The availability of air space and ideal flying weather makes Cannon the perfect candidate to support future training missions for the F-22, Joint Strike Fighter, and other military aircraft.

06162005

Whether or not Cannon's military value has been recognized yet in Washington, out here we really appreciate the base. The local community has been uniquely supportive, donating time and land to promote the base's needs.

In the early 90s, Curry County, in conjunction with the state of New Mexico, purchased air easements around Cannon Air Force base and GAVE them to the Air Force. This was done to protect that air space from encroachment and was an important issue for the Air Force.

The local community purchased the land north of Cannon Air Force Base and GAVE it back to the Air Force for additional housing, now known as Chavez Manor.

Within the last few years, our community purchased land west of Cannon and GAVE it back to the Air Force for the installation of instrument lighting on the alternate runway at the base.

Leaders within our community spear-headed the effort to expand and convert the air space to supersonic capability through the New Mexico Training Range Initiative.

We have also welcomed the personnel. The many veterans in the area make it clear that they feel at home here. We consider Cannon and its retirees a part of our family.

The relationship between Cannon Air Force Base and the surrounding towns; Clovis, Portales, West Texas, and others, is unlike any other installation in the country.

Clovis, Portales, Eastern New Mexico, West Texas (including Amarillo and Lubbock) are home to a large military retiree population. These people rely on Cannon Air Force base for healthcare, grocery shopping, and more. There is not another installation close by to serve our retired military.

 RECEIVED

The closure of Cannon will also have a devastating impact on <sup>06162005</sup> economy. It has been estimated that the area will lose at least 20 percent of its workforce, a percentage out of line with the effect of base closings in other communities. Cannon is critical for us.

I invite you to come personally to the Cannon hearing in Clovis. I ask you to please reconsider Cannon's importance to the nation and to my community. Please, let us keep Cannon!

Sincerely,

*Barbara Sue Miller*
