3. Pope lodging is absorbed into Bragg's lodging privatization initiative.

# ***PLANNING ASSUMPTIONS***

## ***Resources***

1. Pope personnel and operating costs will be the same as our cost; we need to look at military personnel usage and convert to civilian cost.
2. The incoming BCT referenced in BRAC documentation is not a heavy unit, but the 4<sup>th</sup> of the 82<sup>nd</sup>.
3. Golf course space will be reviewed to free up buildable land.
4. The FYDP will remain stable and constant with additions for BRAC.

9. All GSA vehicles will transfer with units.
10. Fort Bragg will manage civilian jobs.

# ***PLANNING ASSUMPTIONS***

## ***Efficiency***

1. A detailed MOA will be designed to delineate roles and responsibilities of Air Force and Army.
2. A single NEPA document will be provided for all Bragg requirements.
3. The Installation Commander will remain as is.

# PLANNING FACTS

1. USASOC will grow – 3d Group and 96<sup>th</sup> Civil Affairs expand into 7<sup>th</sup> Group facilities; no facilities are available.
2. There will continue to be an Active Duty Air Force presence that will require housing and all other benefits and services.
3. There are Pope tenants that will remain to include 18<sup>th</sup> ASOG, Combat Control Team, Special Tactics Squadron, Weather Squadron, etc. (complete list will be verified and provided).
4. Airfield Operations will stay at DPTM for single contact.
5. New medical clinic at Pope scheduled to open for business in FY09 will not remain in their MILCON.
6. Acquisition of Pope does not provide additional maneuver land.
7. Air Mobility Command is visiting Pope the first week in June to identify Air Force actions and requirements; some Bragg representation will be coordinated.
8. We need to ensure that Pope Contract costs are included in Bragg cost estimates, as appropriate.
9. Functional weekly teleconferences are not yet scheduled.

# PLANNING QUESTIONS

1. What simulations, if any, will remain at Pope?
2. Will crash fire response capability remain at Pope?
3. What are JSOC plans for transformation?
4. What are Golden Knights requirements at Pope and Simmons?
5. What are the long-range construction plans for Pope and how much will fall out?
6. What are Pope's existing contracts? They will provide a complete list.
7. What furniture and automation equipment is needed by FORSCOM and USARC to furnish a new facility (i.e., what will they bring with them and what will we need to provide)?
8. What support elements will FORSCOM and USARC bring with them (i.e., DOIM, contracting, IR, ATC, etc.)?
9. What is the total incoming demographics (i.e., military, civilian, family members, youth, etc.)?
10. How will these impacts affect school age population?
11. What basic functions are needed at Pope (i.e., Gyms, Post Office, etc.)?
12. What is Air Force leaving in facilities when they vacate (i.e., furniture, etc.)?
