General Lloyd W. Newton
The BRAC Commission
2521 S. Clark St.
Arlington, VA 22202

Dear General Newton

Please accept this letter in regard to the Department of Defense's recommendation that Cannon Air Force Base should be closed. As a long-time resident of Clovis, New Mexico, I feel that this decision is in error. With the abundance of air space and no encroachment issues as well as the fact that the Melrose bombing range is only seconds away, I cannot see how this base can be considered for closure. The availability of air space and ideal flying weather makes Cannon the perfect candidate to support future training missions for the F-22, Joint Strike Fighter, and other military aircraft. Cannon has the space and facilities to accommodate joint war-fighting, training, and readiness as was evidenced by the recent joint training effort between Cannon and the US Navy. Cannon clearly does not fit the criteria for base closure.

The closure of CAFB will have a devastating impact on our economy. The men and women serving at Cannon are truly part of our community, and the relationship between Cannon and the city of Clovis is uniquely strong. Housing costs in Clovis are very reasonable, and I think you will not find another community anywhere that welcomes service men and women more than Clovis, New Mexico. As Dean of Educational Services at Clovis Community College, I can attest to the positive feedback we continually receive from active duty and dependents in regard to the easy access they have to obtaining higher levels of education here. As a community member, I can attest to the valuable contribution service people make to our community. Having individuals from all over the United States as part of our student body and as part of our community enriches Clovis immeasurably.

I ask you to reconsider Cannon's importance to the nation and to Clovis. Please, take Cannon Air Force Base off the proposed closure list.

Sincerely,

Becky Carruthers
Dean of Educational Services and Chair,
Division of Business and Technology
