In addition to everything you have heard, twenty percent of the work force of Clonix is directly involved with Cannon Air Force Base. Other base closing only effect 10% or less of their population.

The total number of people involved may be more, but the effect will be felt ~~greater~~ greater here in Clonix.

I/we have friends, we met over the years who were stationed at Cannon that we still keep up with and visit.

OPERATION KEEP CANNON

To the distinguished BRAC committee,

We are the communities of Curry and Roosevelt County that have had the honor of having Cannon Air Force Base a part of our community for more than 50 years. There are many reasons that Cannon should NOT be on the BRAC list.

Some of the things are the abundance of air space, void of any encroachment issues. The future use of super sonic fly space, the fabulous weather that permits a year round training ability, In addition, the Melrose bombing range is seconds from the end of the runway at Cannon, which allows pilots to get airborne and immediately begin training operations over the bombing range, rather than spending all of their fuel just to get to the range, having one pass over, then returning to the base.

Cannon has the space and facilities to accommodate joint war fighting, training, and readiness as was evidenced by the recent joint training effort between Cannon and the US Navy. Cannon has won countless awards, both on the ACC level, Air Force and NAF levels, and national and STAT levels.

In the early 90's, Curry County, in conjunction with the state of New Mexico purchased air easements around Cannon Air Force Base and GAVE them to the Air Force. This was done to protect that air space from encroachments and was an important issue for the Air Force as it is today. The local community purchased land North of Cannon Air Force Base and GAVE it back to the Air Force for additional housing, now known as Chavez Manor. Within the last few years, our community purchased land west of Cannon and GAVE it back to the Air Force for the installation of instrument lighting on the alternate runway at the base.

As hopefully you will personally witness, the relationship between Cannon Air Force Base and the surrounding towns: Clovis, Portales, Lubbock, Amarillo and many others is UNLIKE ANY OTHER INSTALLATION IN THE COUNTRY. These towns are home to large military retiree populations which rely on Cannon Air Force Base for healthcare, grocery shopping and more.

Our community has reached out and supported the base like no other community over the past 50 years. We've done so financially, morally, spiritually and above all, consistently. We are proud, honored and blessed to have Cannon Air Force Base and will stand behind it and everything it stands for every step of the way.

Sincerely,

I earnestly urge you to reconsider closure of Cannon AFB.

There is excellent flying weather nearly all year long, a fantastic Bombing Range close by with wide-open spaces; and new runways on base.

The rapport between our town & Cannon is awesome (and this comes from military personnel as well as the civilians). We have a \$60 million expansion to our Regional Medical Center which includes a Heart Wing, Cancer Wing & Rehabilitation Center. This is a contributing factor to the large number of retired military persons in the area.

We also offer some of the best schools, including a community college & university; many new housing developments; job opportunities for spouses; & numerous churches.

Thank you.

To remove this base would mean a
great deal of money wasted. In the
past few years, many millions of dollars
have been spent upgrading the base

I feel it would be a very large mistake to close Cannon Air Force base - especially now with the war on terrorists on going and since Cannon plays a vital part in the war around the world.

Cannon has so much going for it like:

Great year around climate for flying

Millions bombing range acres of airfield

New base wings on base

Support of training missions for F-22, Joint Strike Fighter

Award winning base on ABC Air Force and NA F Goals

Abundance of airpower with no encroachments

I'd also like to add that Clous and Portales have a great relationship with Cannon such as:

Local businesses offer discounts to military

Clous Community College and Portales Eastern N. M.

University. Both offer classes on base.

Clous-Portales has numerous new businesses and new restaurants as well as plenty of health care
