Dear General James T. Hill,

After hearing that Cannon Air Force Base is on the BRAC list I felt that I needed to write to tell you a few things that maybe you have overlooked about Cannon.

Cannon has many unique attributes that it offers to our national defense. Not only is there year-round flying weather in the area, it is only seconds away from the bombing range. It has an abundance of air space with no encroachment issues and the pilots are able to fly at supersonic speeds.

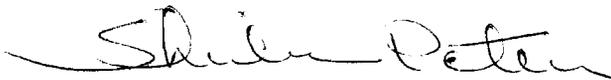

Cannon has ample space/ramp space to accommodate surge force requirements in training and emergency situations. They have space and facilities to accommodate joint warfare training.

Our community purchased the land north of Cannon and gave it back to the Air Force for the building of the alternate runway.

The closing of Cannon will have a negative impact on public schools, Eastern New Mexico University and Clovis Community College, not to mention the blow to the economy of the entire state and West Texas.

Maybe your criteria does not fit Cannon. General Hill, please give Cannon a second thought.

Respectfully Yours,

Shirlene Peters
