U.S. AIR FORCE

Vision & Mission

Air Force Medical Service (AFMS)

- **AFMS Vision** Provide quality, world-class healthcare and health service support to eligible beneficiaries anywhere in the world at anytime.
- **AFMS Mission** The AFMS provides seamless health service support to the USAF and combatant commanders. The AFMS assists in sustaining the performance, health and fitness of every Airman. It promotes and advocates for optimizing human performance (sustainment and enhancement) for the warfighters, including the optimal integration of human capabilities with systems. The AFMS operates and manages a worldwide healthcare system capable of responding to a full spectrum of anticipated health requirements and provides an integrated healthcare system from forward deployed locations through definitive care with an emphasis on prevention of illness and injury. It arranges for healthcare capabilities that it does not possess organically. It directly supports USAF operations and theater aeromedical evacuation (AE) of joint and combined forces.
