

## **RECOMMENDATION FOR CLOSURE**

### **NAVY SUPPLY CORPS SCHOOL, ATHENS, GEORGIA**

**Recommendation:** Close the naval installation at Athens, GA. Relocate the Navy Supply Corps School and the Center for Service Support to Naval Station Newport, RI. Disestablish the Supply Corps Museum.

**Justification:** This recommendation closes a single-function installation and relocates its activities to a multi-functional installation with higher military value. Naval Station Newport has a significantly higher military value than Navy Supply Corps School and the capacity to support the Navy Supply Corps School training mission with existing infrastructure, making relocation of Navy Supply Corps School to Naval Station Newport desirable and cost efficient. Relocation of this function supports the Department of the Navy initiative to create a center for officer training at Naval Station Newport.

Center for Service Support, which establishes curricula for other service support training, is relocated to Naval Station Newport with the Navy Supply Corps School to capitalize on existing resource and personnel efficiencies.

Relocation of the Navy Supply Corps School and Center for Service Support to Naval Station Newport removes the primary mission from the naval installation at Athens and removes or relocates the entirety of the Navy workforce at the naval installation at Athens, except for those personnel associated with base support functions. As a result, retention of the naval installation at Athens is no longer required.

**Payback:** The total estimated one-time cost to the Department of Defense to implement this recommendation is \$23.79 million. The net of all costs and savings to the Department during the implementation period is a cost of \$13.56 million. Annual recurring savings to the Department after implementation are \$3.54 million with a payback expected in 7 years. The net present value of the costs and savings to the Department over 20 years is a savings of \$21.80 million.

**Economic Impact on Communities:** Assuming no economic recovery, this recommendation could result in a maximum potential reduction of 831 jobs (513 direct jobs and 318 indirect jobs) over the 2006-2011 period in the Athens-Clark County, GA Metropolitan Statistical Area, which is 0.86 percent of economic area employment. The aggregate economic impact of all recommended actions on this economic region of influence was considered and is at Appendix B of Volume I.

**Community Infrastructure:** A review of community attributes indicates no issues regarding the ability of the infrastructure of the communities to support missions, forces, and personnel. There are no known community infrastructure impediments to implementation of all recommendations affecting the installations in this recommendation.

**Environmental Impact:** Naval Station Newport, RI is in Serious Non-attainment for Ozone (1-Hour), however, an Air Conformity Determination will not be required. There are potential impacts for cultural, archeological, or tribal resources; and water resources. No impacts are anticipated for dredging; land use constraints or sensitive resource areas; marine mammals, resources, or sanctuaries; noise; threatened and endangered species; waste management; or wetlands. This recommendation will impact environmental costs at the installations involved, which reported \$30 thousand in costs for waste management and environmental compliance. These costs were included in the payback calculation. This recommendation does not otherwise impact the costs of environmental restoration, waste management or environmental compliance activities. The aggregate environmental impact of all recommended BRAC actions affecting the installations in this recommendation has been reviewed. There are no known environmental impediments to implementation of this recommendation.

## Military Value Analysis Results:

SST Activity	Military Value Scores			Specialized Skills Training Ranking (1-70)		
	Initial Skills	Progression	Functional	Initial Skills	Progression	Functional
Newport, RI	30.91	38.18	37.92	48	32	30
Athens, GA	30.94	33.27	29.75	47	54	62

**Capacity Analysis:**

Capacity data are fiscal year 2003 actual data including obligated military construction funding for fiscal year 2004. Capacity calculations are based on Department of Defense standards. The three capacity measures for SST are berthing, messing, and classrooms. For clarity, each measure is expressed by the number of students that can be supported.

Berthing Data for SST Activity	Max Potential Capacity	Current Capacity	Current Usage	Capacity Required for Surge	Capacity Available to Surge	Excess Capacity
Newport, RI	1,568	1,568	677	135	891	756
Athens, GA	217	217	312	62	0	-157

Messing Data for SST Activity	Max Potential Capacity	Current Capacity	Current Usage	Capacity Required for Surge	Capacity Available to Surge	Excess Capacity
Newport, RI	550	550	600	120	0	-170
Athens, GA	0	0	0	0	0	0

Classroom Data for SST Activity	Max Potential Capacity	Current Capacity	Current Usage	Capacity Required for Surge	Capacity Available to Surge	Excess Capacity
Newport, RI	9,947	2,217	1,174	235	8,773	808
Athens, GA	4,277	953	356	71	3,921	526

Footnote: <sup>1</sup> Capacity Analysis for Installations conducting Specialized Skills Training (SST): An installation reporting a zero (0) in current capacity may report a number greater than zero (0) in the Current Usage column. This is because the installation may be using non-standard and/or off-installation assets; Berthing could be local apartments, hotels, or motels, Messing may not be available on the installation and students must use on/off-installation diners, fast-food restaurants, or Mom-&-Pop establishments, Classrooms may be substituted by aviation hangars, depots, large field tents, maintenance aprons, mobile buildings, operational fields and forests, or warehouses

Footnote: <sup>1</sup> Capacity Analysis for Installations conducting Specialized Skills Training (SST): An installation reporting a zero (0) in current capacity may report a number greater than zero (0) in the Current Usage column. This is because the installation may be using non-standard and/or off-installation assets; Berthing could be local apartments, hotels, or motels, Messing may not be available on the installation and students must use on/off-installation diners, fast-food restaurants, or Mom-&-Pop establishments, Classrooms may be substituted by aviation hangars, depots, large field tents, maintenance aprons, mobile buildings, operational fields and forests, or warehouses.
