

BRAC Commission

AUG 31 2005

Received

Dear Mr. Billbrey,

My name is Dale Benedetti. I, along with Mr. John Jay, am responsible for the production of one hundred and sixty-three pages of complaint known as "Dale Benedetti and John Jay Present a Case For The Closing Down of Pt. Mugu Naval Air Base Near Oxnard California." The complaint package is also known as "document number 1545." If your not familiar with the document, you should read it. The title tells you why we sent it in.

I have also sent in a subsequent later letter. In this letter, sent in about a month ago, I call on the BRAC Comissioners to shutdown and re-locate the Pt. Mugu Sea Range to the China Lake Naval Base. Please read this letter and the accompanying newspaper articles I sent in. I do not know if this document has a number

Mr. Billbrey, I realize that you were the only dissenting vote on the BRAC Comission when the issue of moving 2,250 jobs to China Lake from Pt. Mugu was approved.

I think you were wrong in voting the way you did, based upon what is contained in document number 1545 and the later letter I sent in with the Ventura County Star Free Press newspaper articles. Again, please read what I sent in.

You made a trip out to Pt. Mugu to inquire, first hand, if the decision to move the jobs to China Lake was the right one. You, based on what Pt. Mugu officials and others told you and showed you, decided to try to nix the moving of the jobs.

Mr. Bilbrey, if individuals such as Steve Mendonca, Tom Curtis and others presented you with the case for non-relocation of the jobs, you can't trust what they say. These two individuals as well as many other Pt. Mugu officials in management lie, distort and mis-represent like hell.

Obviously it is a moot point but I feel as though this matter should be brought to your attention.

In Closing, I don't have all the fancy, high brow entries in my resume that people like Tom Curtis, Steve Mendonca and the other Pt. Mugu officials, ~~that~~ who presented the case for non-relocation of jobs to China Lake, do. Nonetheless, that doesn't make me a liar and them not capable of lying.

thank you,

Dale Benedetto
