

BRAC 2005 - Query Response Manager

Response to E0554

Question:

What, if any, plans does DoD have to replace the Commissary and Exchange services currently provided by the facilities on the Kelly Support Center that is proposed to be closed? (REF: USAR Command and Control Northeast, Page USA-109, VOL 1, Part 2)

Answer:

The status of the commissary and the PX will be determined by DeCa and AAFES after further economic assessment. The details of this plan will be worked out in execution, once BRAC recommendations are approved and become law.
