Subject: Support for Ellington's 147th FW ANG

The Honorable Anthony J. Principi, Chairman and All BRAC Commissioners,

As a Member of the East Harris County Manufacturers Association (EHCMA), representing Shell Deer Park Chemical Manufacturing, I appeal to the BRAC Commission to help ensure the Homeland Defense and Security of America's National Assets with a vote for the full wing retention of F-16 fighters, and for the future force structure status of the 147th Fighter Wing Air National Guard at the Ellington Field Joint Reserve Base. The BRAC Commission must reject the Department of Defense (DoD) recommendation regarding "Ellington Field Air Guard Station".

The 147th FW ANG, as a full wing, is vital to America's defense against air and maritime threats of America's high value National Assets that are highly concentrated in the Houston area and surrounding Texas Gulf Coast. The DoD recommendation to retire the 147th 15 F-16s by 2007 would leave our region that uniquely comprises all nine DHS/FBI's terrorist targets, as a "soft target" to treacherously-patient terrorists. Please vote to enable the retention of "hard target" status for the National Assets in our region; vote "No" to DoD's BRAC recommendation.

DoD's total 20 year budget savings of \$3.6 million is small in comparison to the \$Billions lost in America's national economy from terrorist attack on this region's where 25 percent of all oil in the U.S. is refined and 40 percent of the nation's base petrochemical capacity is located. EHCMA member industrial plants and facilities make up the core of America's National Assets on the Texas Gulf Coast.

EHCMA (<http://www.ehcma.com/>), is the world's largest network of chemical manufacturers, refiners and supporting distribution/terminal facility managers. EHCMA members transform natural resources into materials needed to make many consumer products, including pharmaceuticals, jet fuel, gasoline, electronics, building supplies, household products, clothes, automobiles, and other transportation products.

Sincerely,
Mary B. Mujica, General Manager
Shell Deer Park Chemicals Manufacturing Facility

Subject: Support for Ellington's 147th FW ANG

The Honorable Anthony J. Principi, Chairman and All BRAC Commissioners,

As a Member of the East Harris County Manufacturers Association (EHCMA), representing Odfjell Terminals (Houston) LP, I appeal to the BRAC Commission to help ensure the Homeland Defense and Security of America's National Assets with a vote for the full wing retention of F-16 fighters, and for the future force structure status of the 147th Fighter Wing Air National Guard at the Ellington Field Joint Reserve Base. The BRAC Commission must reject the Department of Defense (DoD) nationally-disturbing recommendation regarding "Ellington Field Air Guard Station".

The 147th FW ANG, as a full wing, is vital to America's defense against air and maritime threats of America's high value National Assets that are highly concentrated in the Houston area and surrounding Texas Gulf Coast. The misguided DoD recommendation to retire the 147th 15 F-16s by 2007 would leave our region that uniquely comprises all nine DHS/FBI's terrorist targets, as a "soft target" to treacherously-patient terrorists. Please vote to enable the retention of "hard target" status for the National Assets in our region; vote "No" to DoD's BRAC recommendation.

DoD's small total 20 year budget savings of \$3.6 million hardly justifies the Billions of dollars that would be lost in America's national economy from terrorist attack on any this region's high value plants where 25 percent of all oil in the U.S. is refined and 40 percent of the nation's base petrochemical capacity is located. EHCMA member industrial plants and facilities make up the core of America's National Assets on the Texas Gulf Coast.

EHCMA (<http://www.ehcma.com/>), is the world's largest network of chemical manufacturers, refiners and supporting distribution/terminal facility managers. EHCMA members transform natural resources into materials needed to make many consumer products, including pharmaceuticals, jet fuel, gasoline, electronics, building supplies, household products, clothes, automobiles, and other transportation products.

Additionally, around 150 Odfjell ships call the Port of Houston every year, along with over one thousand other similar chemical tankers working so that the supply chain for the petrochemical industry is not interrupted. We need the appropriate protection for this vital link in the nations economy.

Sincerely,

Bernt A. Netland
President
Odfjell Terminals (Houston) LP

The Honorable Anthony J. Principi, Chairman and All BRAC Commissioners,

As a Member of the East Harris County Manufacturers Association (EHCMA), representing ExxonMobil, I appeal to the BRAC Commission to help ensure the Homeland Defense and Security of America's National Assets with a vote for the full wing retention of F-16 fighters, and for the future force structure status of the 147th Fighter Wing Air National Guard at the Ellington Field Joint Reserve Base. The BRAC Commission must reject the Department of Defense (DoD) nationally-disturbing recommendation regarding "Ellington Field Air Guard Station".

The 147th FW ANG, as a full wing, is vital to America's defense against air and maritime threats of America's high value National Assets that are highly concentrated in the Houston area and surrounding Texas Gulf Coast.

The misguided DoD recommendation to retire the 147th 15 F-16s by 2007 would leave our region that uniquely comprises all nine DHS/FBI's terrorist targets, as a "soft target" to treacherously-patient terrorists. Please vote to enable the retention of "hard target" status for the National Assets in our region; vote "No" to DoD's BRAC recommendation.

DoD's total 20-year budget savings of \$3.6 million hardly justifies the \$Billions lost in America's national economy from terrorist attack on any this region's high value plants where 25 percent of all oil in the U.S. is refined and 40 percent of the nation's base petrochemical capacity is located. EHCMA member industrial plants and facilities make up the core of America's National Assets on the Texas Gulf Coast.

EHCMA (<http://www.ehcma.com/>), is the world's largest network of chemical manufacturers, refiners and supporting distribution/terminal facility managers.. EHCMA members transform natural resources into materials needed to make many consumer products, including pharmaceuticals, jet fuel, gasoline, electronics, building supplies, household products, clothes, automobiles, and other transportation products.

We typically don't like aircraft flying over our refining and petrochemical plants for obvious reasons. But these F-16's are the welcome sights and sounds of freedom and security.

Sincerely,

R. W. (Bob) Bailes
Plant Manager

To the BRAC Commission:

As a member of the board of the East Harris County Manufacturers Association (EHCMA), representing Lyondell Chemical Company, I appeal to the BRAC Commission to help protect America's national assets with a vote to retain the full wing of F-16 fighters, and for the future force structure status of the 147th Fighter Wing Air National Guard at the Ellington Field Joint Reserve Base.

The BRAC Commission must reject the Department of Defense recommendation regarding "Ellington Field Air Guard Station."

The 147th Fighter Wing is vital to America's defense against air and maritime threats of the national assets concentrated in the greater Houston area. This area uniquely comprises all nine terrorist targets as defined by the Department of Homeland Security and the FBI. The Department of Defense recommendation to retire the 147th's 15 F-16s by 2007 would leave our region a "soft target" to treacherous and patient terrorists.

The Defense Department's total 20-year budget savings of \$3.6 million hardly justifies the billions lost in America's national economy from terrorist attack on the Port of Houston or area industry. Twenty-five percent of all oil in the United States is refined and 40 percent of the nation's petrochemical capacity is manufactured here. Indeed, EHCMA is the world's largest network of chemical manufacturers, refiners and supporting distribution/terminal facility managers. EHCMA members transform natural resources into materials needed to make many consumer products, including pharmaceuticals, jet fuel, gasoline, electronics, building supplies, household products, clothes, automobiles and other transportation products.

Please vote to retain "hard target" status for the national assets in our region; vote "no" to the DOD's BRAC recommendation.

Sincerely,

Joseph A. Bernard
General Manager, South Region
Lyondell Chemical Company
Joseph.Bernard@Lyondell.com
