SOUTH DIVISION
29 July 2005*

To all my friends and associates at SOUTH DIV,

SOUTH DIV has been my home away from home for the past 2 years of my 19 year career with the Navy. Like each of you, I have spent a large portion of my time here at the office and have come to look at many of you as my 2nd family. During my tour, I have been professionally challenged and look back with satisfaction on the contributions I have made as part of the larger team of SOUTH DIV associates. I feel truly privileged to have worked in a Command whose military and civilian leadership have been open to innovation and the true pursuit of excellence. I have been equally blessed to have had the opportunity to work with so many hard working associates who share the core values of honesty, dedication to duty and integrity. SOUTH DIV has established a legacy within the NAVFAC community as a high performance can-do organization and its success is a direct reflection of its foundation in these core values. As I leave to assume my duties as the Public Works Officer, Naval Submarine Base Point Loma, I wanted to say a sincere thank you to everyone.

May God bless each and every one of you, the United States Navy, and this Great Nation.

V/R

PWBL Leaders,

Thought you might be interested in the nice compliment below. Suggest you pass this along to the Associates in your Divisions.

Keep up the great work.

Very Respectfully,
Chris Connell

Subject: SOUTHDIV associates leading within the NAVFAC organization

Greetings,

Dawn Jolly sent me the following comment wrt work she had done at PAC earlier in the year. I think it is a great reflection on SOUTHDIV and our senior leadership for the investment made in our people and getting the most of our people and working environment.

-----//-----
...when I was running a bunch of focus groups for PAC earlier this year....I was using all of our normal tools...silent brainstorming on stickies, affinitizing, multivoting, etc, etc. People in several sessions said "you must be from SOUTHDIV"...I told them I used to work for SOUTHDIV and asked why they asked...they said it's because whenever they are in meetings with SOUTHDIV people, they use the same kinds of techniques and that they are amazed at how much more they can get accomplished...they wondered why SOUTHDIV folks seem to be the only people in NAVFAC that know how to use the tools well....I told them that the leadership at SOUTHDIV thinks it's important. I'd say that's quite a compliment for SOUTHDIV...and shows that the culture at SOUTH (wrt teams and tools) has really changed!! We're getting where we really wanted SOUTH to get...to having a workforce that can self-facilitate for more effective meetings!!

All:

I am proud to announce Southern Division's selection as the Air Force Construction Agent of the Year. This award recognizes the organization that provides the most professional management of design and construction for the Air Force. Congratulations and thank you to everyone at the HQ and field offices that worked on Air Force projects for us this year. You have once again exceeded all client expectations of the critical AF missions we support. It's great to see you recognized for this superb effort.

R/ Bob

Tom Fresilli - Comment on SOUTHANAFK-
ENCOM of 29 July 2005

Home on the Base!

or

Oh, Send Us Back Home!

(To the tune of Home on the Range)

**Oh, Send Us Back Home, Where the Navy once Roamed,
Where the ships and the sailors did stay,
Where seldom was heard, a discouraging word,
And the skies were not cloudy all day.**

*Home, Home on the Base, Where the ships and the sailors once stayed,
Where SOUTHDIV can reside, Taking less out of hide,
And its heart can beat strongly again.*

**How foolish this list, That would take all the gist,
Out of this, one bright glittering star,
No, don't send us to JAX, When the math and the facts,
Show our value's much greater, Right Here!**

*Home, Home on the Base, Where the ships and the sailors once stayed,
Where SOUTHDIV can reside, Taking less out of hide,
And its heart can beat strongly again.*

**Oh, leave us in our land, Where the pluff mud and sand,
Lie leisurely, neath the stream,
Where the graceful white swan, Goes gliding along,
Like a maid in a heavenly dream.**

*Home, Home on the Base, Where the ships and the sailors once stayed,
Where SOUTHDIV can reside, Taking less out of hide,
And its heart can beat strongly again.*
