BRAC COMMISSION
2521 SOUTH CLARK STREET, SUITE 600
ARLINGTON, VA. 22202

16 MAY 2005

I'm very concerned about the proposed closure of the Dayton, Ohio Defense Finance and Accounting Service field site. Based on the Directors comments, the Dayton field site with its work force and data workload has the least operating expenses of all the DFAS sites. Dayton has a proven track record of excellence. We recently picked up DFAS San Bernardino, DFAS Orlando, and DFAS Omaha's databases. This realignment was a huge undertaking with their numerous aged intransits that existed. Dayton was chosen because of our high standards and proven effectiveness. We have tackled every task that has ever been brought to us. I feel the proposed closure of DFAS-Dayton is a huge injustice based on the tasks we have accomplished. Dayton is a world class provider to the people who defend America. I hope the realignment actions that Dayton has already accomplished will be taken into consideration. Dayton should not be on the BRACC list.

Sincerely,

A handwritten signature in black ink that reads "Glen Smith".
