

Candidate Recommendation# TECH-0013

Other Environmental Considerations: For those scenarios where the losing installation is leased property, the scenario proponent may assume, absent data to the contrary, that the owner of that property will continue to lease it for similar purposes, and as such, departing such leased location will not adversely impact the environment. Furthermore, the owner of the leased property will become responsible for all environmental restoration, waste management, and environmental compliance, unless the lease expressly requires such activities before the lease may be terminated (in which case these costs should be included in the summary). Absent any such lease requirements, the scenario proponent need only request that a summary of Scenario Environmental Impacts be completed by the Military Department for the gaining installation.

Based on the above guidance, the following leased locations do not have a criterion 8 report:
