To whom it may concern:

The Niagara Falls Airbase should stay open because it is in a good spot for transportations and landings. If the base is closed over 2,900 jobs will be lost. Also our economy will likely go down over the next few years.

If we lose the base we will lose a major supporter in our economy. If the base gets closed we would lose 40% of the Air Force presence in New York. The base can send 8 C-130 aircrafts without any construction. We need as many people as possible to help save the base, so please keep the Niagara Falls Airbase.
