Admiral Harold W. Gehman Jr.

I am 82 years old and I have seen what Cannon has done for the community. I have live in Clovis my whole life. I just can't imagine what the loss would ~~do~~ do to the community if Cannon Air force base is to be closed. But this is what I do know. Imagine this you live in a city not too big but not too small & there is a threat of a 21% loss of the workforce community. Let me ask what city would not be in trouble if that were to happen. Well that is what is going to happen to Clovis if Cannon is shut down. I would also like to state that the next closest loss that a base would do is 11% and any other base will only have an effect of a single digit rate loss. Cannon is a great deal to our community we are all like a family. Yes I know that Clovis would eventually overcome such a great ^{loss} but I know that we would be much stronger ~~was~~ as a community with Cannon as a part of us by our sides. Please reconsider you decisions and keep Cannon.

Respectfully Yours,

Wicki Brady

I am a 33 year old & I have seen what Cannon has done for the community & I have lived in Clovis my whole life. I just can't imagine what the loss would do to the community if Cannon Air Force Base is to be closed. But this is what I do know. Imagine this you live in a city not too big not too small & there is a threat of a 1% loss of the work force community. Let me ask, what city would not be in trouble if that were to happen. Well that is what is going to happen to Clovis if Cannon is to be shut down & I would also like to state that the next closest loss that a base would do is 11% and another base has an affect of a single vote right rate loss Cannon is a great asset to our community we are all like a family. Yes I know our community would eventually over come such a great loss but I know we would be much stronger as a community w/ Cannon at our side. Please reconsider your decision & keep Cannon.

Respectfully yours

The Honorable Anthony J. Principi

I am 22 years old and I have lived in Clovis NM my whole life. I have grown to watch the many things Cannon Air Force Base has done for Clovis. I have watched the surrounding communities grow as well. Cannon has provided many jobs for my friends family & many more Clovis residents. The closing of Cannon will have a very negative impact on education throughout the area, including the public schools and Eastern New Mexico University & Clovis Community College. A lot of my family members are teachers in the surrounding areas & we know from what they experience the #1 school attendance will greatly decrease meaning a need for teachers will greatly decrease. In Clovis & the surrounding areas. Cannon is a place that I can feel comfortable visiting and we know that it's a place that my friends & I are always welcomed. I know that if Cannon is to be shut down then there will be a big empty hole that will be left in my heart & my community. So please reconsider your choices & keep Cannon. It is that very much.
Respectfully yours
Nicki Brady.

The Honorable Philip Cayle

I am 22 years old and I have lived in Clovis NM my whole life living here watching Clovis grow has been amazing. The work force will be at a 21% loss in Clovis and surrounding areas if Cannon is to leave. The next closest city will lose only 11% in work force & every other city will only lose in the single digits percentage rate. Just imagine your city losing 21% of its work force that would be a catastrophic loss not to mention the loss in attendance in the numbers of schools. meaning the lesser need of teachers in NM meaning more loss of jobs. Cannon has meant a great deal to my community. So please reconsider your choices & choose to keep Cannon where it is at.

Respectfully yours.
