

5-19-05

Dear BRAC Commissioners,

I am an Air force veteran. I spent three years at a base in England and know from personal experience that the local population are not happy about us Americans being stationed there. I witnessed three different times when British people protested our being there. I would like for our government to consider closing more overseas bases and leave in operation the ones that are wanted and that are effective, such as Cannon Air Force Base.
