Dear Sir / Ma'am

I would like to keep the Niagara Falls Airbase open. I want it left open because it is the only protection for the power plant that lights just about the entire Eastern Seaboard. It also defends and protect the border with Canada, it also ~~has~~ does the majority refueling for other aircraft. It keeps hundreds of people in jobs and business. If we shut down the Airbase we are just leaving a calling card for terrorists to attack us, and possibly wipe out the power on the Eastern Seaboard.

Sincerely: Pvt. Farley, Adam
