Dear Sir,

There are two sides to every argument. After reading this please decide whether you are on the patriotic defense or the senseless prosecution. In the United States of America's judicial system, judges look for and try to make the best decisions for our country and its people.

In the defense of the base, please keep it open for at least the next 58 years. How is our freedom going to be taken away? I know — by terrorists! They will see one of the largest international crossings in the United States and see an easy and open target if the base closes. If you close the base you will be foolish and regret it forever. I imagine all of the lives that will be devastated when it closes. The soldiers: young men and women will come home to the United States after fighting and giving everything they've got to a closed air base and they'll also find that they are being transferred. Having a base close by motivates today's youth, tomorrow's soldiers.

* From the prosecution: It costs too much.

Now since everyone who reads this is a "judge" please keep your mind open.
