General James T. Hill,

I am heart felt concerned about the BRAC commission's decision to closing of Cannon Air Force Base.

This has been a rude awakening to neighboring communities where military families attend Clovis Community College and Eastern New Mexico University as well as job through out New Mexico. C. A. F. B. has been here for 50 years and has inspired many throughout, doing their best. Hundreds and thousands join in unison in support to all members of the 27<sup>th</sup> Fighting squad, the best TOP GUNS'.

What will become of this area if (civilians) lose their jobs? Many plants will be forced to close or be put on hold for some duration time. All will be affected without our troops and no one will help secure our southern borders from threat of terrorists. Assurance of our troops here will comfort many cities and towns.

Respectfully Yours,
