To Mr. Principi and all members of the BRAC Commission:

I have been watching the BRAC hearings all day on C Span. I am very impressed with the thorough, thoughtful way that you have approached these base closure and alignment decisions.

It is clear that your decisions are driven by unbiased assessments of facts and that you have taken seriously the voices of those who have come before you with their concerns.

Thank you for all of your hard work on behalf of the citizens of the U.S.A. and the U.S. military.

With gratitude,
J.M.Bousquet
